

NETS APPLICATION

Many workers are at high risk of injury and death from traffic related, motor vehicle crashes. Every four days an employee dies in a work-related roadway crash. The NETS mission is to reduce traffic crashes involving America's workers and their families by helping employers implement well-developed policies, dynamic workplace programs and compelling community activities related to traffic safety. This is a FREE service for local businesses.

With Utah Network of Employers for Traffic Safety (NETS), you can easily implement a workplace traffic safety program within your company. The year-round NETS program enables you to increase productivity while controlling costs and lost work time. By increasing traffic safety in your organization, you demonstrate your concern for the well being of each employee and their families. Utah NETS allows each employer to design their own traffic safety program suited to fit their employees.
