

Provide Valuable Safety Resources for Your Employees with these Affordable Handbooks ...

Line Supervisor Safety Handbook

440-H ... \$19.99

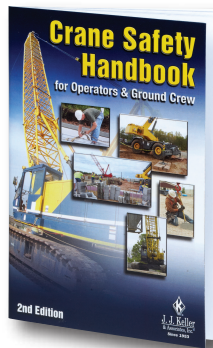

Give supervisors and similar front-line employees instant access to important OSHA safety and compliance information. Help supervisors spot and correct unsafe practices; stop potential OSHA violations, worker injuries, and production line disruption; and foster a strong safety culture. Contains practical summaries and action items for 27 key topics. 8½" W x 11" L, spiral bound, 144 pages.

Crane Safety Handbook: For Operators and Ground Crew

179-HB ... \$4.99

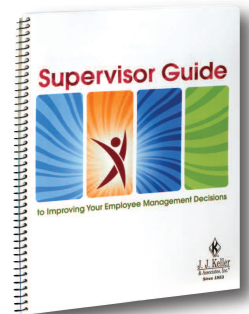

Second edition handbook reflects OSHA's final rule (effective Nov. 8, 2010) addressing use of cranes and derricks in construction. Use it as a go-to resource on OSHA's requirements for ground conditions, power line safety, assembly/disassembly, work area control, and inspections. Covers general hazards, ground conditions, power line safety, crane assembly and disassembly, signals, signs and markings, danger zones, fall protection, lockout/tagout, inspections, and job-specific safety. 5¼" W x 8¼" L, softbound, 72 pages.

Supervisor Guide to Improving Employee Management Decisions

470-H ... \$39.99

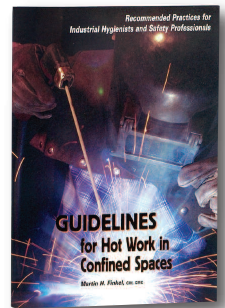

This must-have reference tool helps supervisors understand employment law and related best practices when dealing with employee issues. It also aids in increasing supervisors' awareness of the important role they play in managing their employees. Provides compliance information for 26 topics, including discipline and termination, drug and alcohol abuse, harassment, interviewing and hiring, leaves of absence, performance appraisals and coaching. 8½" W x 11" L, spiral bound, 152 pages.

Guidelines for Hot Work in Confined Spaces Handbook

159-P ... \$29.95

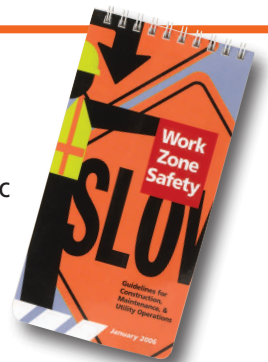

Presents proven techniques for recognizing, evaluating, and helping to control the hazards that occur in confined spaces. Many potential hazards can be hidden from the casual observer, so this book helps reveal what those hazards are and also provides techniques to help confront them. Shows the safety professional and industrial hygienist how hot work can be conducted safely in potentially deadly environments. Written by Martin H. Finkel, CIH, CMC. 7" W x 10" L, softcover. 61 pages.

Work Zone Safety Guidelines Handbook

120-P ... \$13.95

This handbook presents guidelines for temporary traffic control, including examples of typical traffic control applications. Featuring a variety of easy-to-follow tables and full color illustrations, the handbook applies to construction, maintenance and utility work zones. Published by The Transportation Information Center of the University of Wisconsin-Madison. 3½" x 7", spiral bound. 58 weatherproofed pages.
