

# Construction Fall Protection

Falls are the number one killer in the construction industry, but virtually all fall-related deaths could have been prevented if the proper fall protection had been used.

## **Program Includes:**

- Video or DVD
- Administrative Materials
- Software Templates
- 5 Employee Handbooks

**Video Length:** 12 minutes

Blueprints for Safety  
www.utahsafetycouncil.org

## **PROGRAM OVERVIEW:**

Some accidents don't allow you the time to learn from your mistake. Falling from a dangerous height is one accident that rarely offers you a second chance. This program teaches your employees the importance of using the correct fall protection. The informative video provides a detailed illustration of the various types of fall protection and how to properly use them to avoid falls.

## **YOUR EMPLOYEES WILL LEARN:**

- When Fall Protection is Required
- How to Use the Different Types of Fall Protection
- How to Use a Personal Fall Arrest System
- Information About Fall Distance
- Other Fall Protection Methods
- Proper Rescue and Retrieval Procedures

## **PROGRAM CONTENTS:**

- Explanation of the OSHA Standard
- Step-by-step Instructions for How to Develop Your Construction Fall Protection Program
- Code of Federal Regulations
- Written Program Development
- Fall Protection Written Program
- Recordkeeping Forms:

*Fall Protection Job Assessment Form*  
*Safety Net Installation Certification Form*  
*Safety Net Weekly Inspection Checklist*  
*Fall Protection Training Record*
