PROGRAM OVERVIEW:

Hazard Communication can sometimes be a difficult topic to train on, but this training program takes a fresh and entertaining approach to convey practical information that every employee should know before working with chemicals. Hazard Communication: KHAZ Talk Radio presents everyday concerns and situations that employees experience in the workplace in a light-hearted, “talk-radio” style.

YOUR EMPLOYEES WILL LEARN:

- How to Identify the Chemicals They are Working With
- How to Read Labels on Chemical Containers, Including Instructions for Interpreting the Coloring and Numbering System
- How to Read a Material Safety Data Sheet, Including the New 16-part ANSI MSDS
- Hazard Classification System, Including FACTOR System (Flammable and Corrosive, Toxic or Reactive)
- Proper Precautionary Measures, Including Information on the Use of Personal Protective Equipment
- Proper Storage of Chemicals
- Emergency Procedures

PROGRAM CONTENTS:

- Explanation of the OSHA Standard
- Step-by-step Instructions for How to Develop Your Hazard Communication Program
- Code of Federal Regulations
- OSHA Requirements
- Written Program Development
- Hazard Communication Written Program
- Recordkeeping Forms:

Chemical Inventory
