

# Online Defensive Driving Course

## Producing Better Drivers

**This course offers practical strategies to reduce collision-related injuries, fatalities and costs.**

The National Safety Council Online Defensive Course (DDC) addresses the importance of attitude in preventing collisions, and reinforces good driving skills. Most importantly, the Online Defensive Driving Course shows students the consequences of the choices they make behind the wheel, and puts defensive driving in a personal context. Offered locally through the Utah Safety Council, this course has set the standard for the industry for over 40 years, and continues to improve driver behaviors. Many Utah companies have trained their employees to drive defensively with online DDC.

### **Online DDC is:**

- Both flexible and self paced
- Easy-to-use
- Engaging using streaming media
- Interactive, with a review at the end of each chapter
- Locally administered and maintained

Call the Utah Safety Council today to see how we can assist you with your training needs.

Contact Brandee Sommer, Training and Development Specialist 801.746.SAFE (7233) ext. 307 | 800.933.5943 ext. 307 for more information or to purchase user IDs.

**Online DDC demo available for preview.** Send an e-mail to [bsommer@utahsafetycouncil.org](mailto:bsommer@utahsafetycouncil.org) requesting to view the online DDC demo.
