

# Respiratory Protection

Certain work environments contain air that isn't safe to breathe. Breathing in contaminated air or low oxygen atmospheres can cause serious illness, injuries and even death.

## Program Includes:

- Video or DVD
- Administrative Materials
- Software Templates
- 5 Employee Handbooks

**Video Length:** 12 minutes

- Available in Spanish

Blueprints for Safety  
www.utahsafetycouncil.org

## PROGRAM OVERVIEW:

This program is designed to provide your employees with the basics of respiratory protection. Revised to meet the new OSHA respiratory standard, this program alerts employees to the importance of protecting their respiratory systems and provides them with helpful tips for maintaining and properly using respirators. Also included is a clear explanation of the requirements of the OSHA standard.

## YOUR EMPLOYEES WILL LEARN:

- The Basics of Breathing
- The Two Major Types of Respiratory Hazards
- How to Control Respiratory Hazards
- The Various Types of Respirators
- How to Select the Proper Respirator
- Information About Medical Evaluations
- How to Properly Use a Respirator
- How to Fit a Respirator
- Proper Inspection of Respirators
- How to Clean, Disinfect and Properly Store Respirators
- Emergency Use of Respirators

## PROGRAM CONTENTS:
