COUNCIL

Celebrating 80 Years of Safety

Safety Notes

December 2016

Volume 24

MEMBERSHIP MINUTE

by Sadee Pistoia
Membership Manager

Mark your calendars for the next Women in Safety meeting on February 7th.

The topic for this course will be Safety Management Systems: Strategies for Business.

The course will start at 8:00 a.m. and end by 1:00 p.m. Lunch will be provided. The cost for this class is \$15.00.

Subjects will include: management commitment, employee involvement, work analysis, hazard prevention and much more.

Please register online. For additional information, feel free to contact me at 801.746.SAFE (7233) or spistoia@utahsafety-council.org.

Our Members Give Back

The Utah Safety Council is celebrating 80 years in the safety industry. As our company has grown, so has our commitment to our community.

This Christmas season, we are proud to partner with the Christmas Box International, who provides assistance to prevent child abuse and services to improve the quality of life for children who have been abused, neglected or abandoned. The Christmas Box Houses offer shelter and food, as well as on-site therapy, medical and dental evaluations, and recreational activities.

We are asking you to join us in making a difference in so many children's lives by giving to this deserving organization. The Christmas Box International can accept gift cards to fast food restaurants, Visa/MasterCard gift cards, hoodies, duffle bags and backpacks. Cash donations are also accepted and can be made on our website at UTAHSAFETYCOUNCIL.ORG.

You can drop off donations at our office in Salt Lake or you can attend one of our breakfast events scheduled in Ogden on December 1st and in Salt Lake on December 8th. See our website for more information about the events or contact Sadee Pistoia, our Membership Manager at spistoia@utahsafetycouncil.org. If you are unable to make it, we would be happy to pick up any donations that you may have.

The Utah Safety Council would like to thank you for your association. We are proud to partner with the Christmas Box International this holiday season. All of us together can make a difference for these children.

THE CHRISTMAS BOX
INTERNATIONAL

Deck the Halls With Fire Safety

It's time to deck the halls! But, did you know that in 2012, **136,314 children under 19 were injured as a result of a fire or burn**? Did you also know that the top three days for fires caused by home candles are Christmas Eve, Christmas Day, and New Year's Day?

Holiday decorations such as lights and candles may be a great sight to see, but they can quickly become a sore spot to your family festivities without the proper safety precautions.

Safely set the stage for your family's holiday merriment by practicing these safety tips.

- **Drink it in.** If you have a real Christmas tree this year, they will need plenty of water or they could become a fire hazard. Remember, a hydrated tree is a safer tree!
- **Too Close For Comfort.** Do not place a tree within 3 feet of a space heater, fireplace, or heat vent. The tree should also not block any windows or doors in the house.
- **Tame the Flame.** Keep candles at least 12 inches away from your tree and any other decorations.
- **Lights Out.** Turn off the tree, decorative lights, and blow out any candles when you go to bed or leave the house.
- **Merry and Bright.** Check all lights for fraying, aging, or heat damage. Do not overload any electrical outlets and double check for any broken sockets or loose connections.

If you're looking for more safety resources, please contact **Rachel Hiatt** at rhiatt@utahsafetycouncil.org or visit our Home & Community Safety page at UTAHSAFETYCOUNCIL.ORG.

Don't let your child become a statistic.

In this year alone, **46 people between the ages of 15-24** have died on Utah's roads.

Help protect your teenager & register them for our Alive at 25 defensive driving course today.

Alive at 25[®]

Register online at UTAHSAFETYCOUNCIL.ORG

Give the gift of saving a life!

Be better prepared for an emergency by attending our next First Aid, CPR and AED training course on December 7th

Register online at UTAHSAFETYCOUNCIL.ORG.

Safety Consulting Services- How Can We Help?

Safety Consulting – it's a rather broad term, so what all does it entail? In general, safety consulting can be whatever you need it to be. For instance, OSHA comes by your facility and you get cited for several things. They leave you with an outline of things to change to improve safety, but you don't know where to start. We can send a consultant over to help you become OSHA compliant again and implement the suggestions they mandated for your company.

Maybe you have just been given the safety responsibilities in your company. You are new to this and you have no idea where to start. We can get you in contact with one of our safety consultants who can guide you through the process of policy development for your company. That's really just the start! If you need help with accident investigations, want an ergonomic assessment of your office, or even a workplace violence assessment, we are here to help. If you're not sure that we can provide what you need, just ask, and we will do our best to address the issue that you are having. We want to make sure you feel comfortable and confident with your company's safety plans and routines.

Interested in learning more? Our Sustaining Members receive two hours of free consulting per year, within a 100 mile radius of our office. Consulting is \$100 per hour for member companies and \$175 per hour for Non-Member companies. Contact Nicala Whitaker at 801.746.**SAFE** (7233) or email nwhitaker@utahsafetycouncil.org.

We're exiting 2016 – do you have an Exit Route/Emergency Plan?

Exit Routes, Emergency Action Plans and Fire Prevention Plans
