Drinks and popcorn included- as well as cake following the movie! Tickets limited, please only 4 per company.

R.S.V.P. today by calling Sadee Pistoia at 801.746.**SAFE** (7233).

We're Celebrating 80 Years of Safety

Happy New Year!

We are excited to be starting another new year at the Utah Safety Council. 2015 was an exciting year for us with the introduction of a new logo, our 1st Annual Crazy Pants Golf Tournament, our Annual Meeting and Awards Luncheon, a tasty BBQ and Benefits update lunch, and we were able to support Primary Children's Hospital by participating in the Festival of Trees while honoring one of our instructors who passed away during the year.

In 1936, the Utah Safety Council was founded. Our beginning focused on traffic safety. As we celebrate our 80th anniversary, traffic safety is now just one of the five areas that makes the Utah Safety Council a leading source for all your safety training needs.

We would like to say thank you for making these past 80 years possible. Without your support, we would not be where we are today.

During this anniversary year, we will look back at the beginning of safety and how it has evolved and developed to become a priority for all of us. We will ask you to help us in this celebration by sharing some of your history with photos and stories that we can highlight throughout the year. We will kick off this anniversary in February.

We look forward to seeing you in our training classes and events throughout 2016. Thank you for your continued support and association with the Utah Safety Council.

Best wishes,

Rod Hamson

Stay Safe with Utah Safety Council Traffic Programs

Each year, traffic crashes cost US companies over $53 billion. Because many of these crashes occur during working hours, they often involve workers who drive as part of their job, or who commute to and from work.

Over the last 75 years, the Utah Safety Council has continually invested in traffic safety programs that help prevent traffic crashes. We offer a variety of traffic safety programs that encourage safe driving practices both on and off the job. From everyday driving, to operating special vehicles, our programs are sure to address the needs of your company.

The Utah Network of Employers for Traffic Safety is a Utah Safety Council program. Through this program, we assist employers with implementing workplace traffic safety programs.

The Utah Safety Council offers a wide variety of National Safety Council Defensive Driving Courses including the 4-hour live course, online courses, Professional Truck Driver Course, and the Alive at 25 Course.

We also offer a wide variety of Coaching System programs, including Coaching the Van Driver, Coaching the School Bus Driver, and more!

For more information regarding these or any of our traffic safety programs, contact **Jennifer Williams**, Traffic Safety Program Manager at 801.746.**SAFE** (7233) or **jwilliams**@utahsafetycouncil.org.

First Aid, CPR and AED for Business

February 10 | 8:00 a.m. - 4:00 p.m.

For more information, or to register, contact **Cassie Henson** at 801.746.**SAFE** (7233), or email **chenson**@utahsafetycouncil.org.

January is National Radon Action Month

Radon is the **#1 cause of lung cancer outside of smoking** that everyone breathes in every day, usually at low levels, according to the National Cancer Institute.

It is colorless, odorless, and tasteless. Testing is the only way to determine how much radon is in your home or drinking water.

Test your home today. For more information about protecting your family from radon poisoning, visit UTAHSAFETYCOUNCIL.ORG.

About Our Staff

Remmik Hawks began working at the Utah Safety Council as an intern in October 2011, which later turned into a full-time position. Remmik managed our Home and Community Program for a period of time before changing positions and is now our Customer Service Manager.

Many of you have probably seen Remmik's smiling face as you entered our lobby or have talked to her on the phone. Remmik also manages our Safety Media Library and does a great job helping customers with their rentals. We are very happy to have Remmik as part of our team, and her positive attitude creates a great first impression for our customers.

Remmik enjoys spending time with her family, loves to bake, and goes to Disneyland as much as possible! Remmik loves to help customers, so please reach out to her with questions at **rhawks**@utahsafetycouncil.org.
