Basic Orientation Plus Training

Dates: May 2, 16, 30; June 6, 12, 18, 20
Time: 7:00 a.m. – 3:00 p.m.
Non-Member: \$90 | **Member: \$75**

This course is designed for contractors or contract employees who perform work on refinery properties.

Topics include: General Industrial Safety, Hearing Conservation, Elevated Work, Electrical Safety, Hazard Communication, Hand Safety and the Worker's Role in Safety.

After successfully completing the course and test, participants receive a photo identification badge that is required to verify course completion. Certification is valid for one year, after which the Basic Plus Orientation Refresher course must be taken.

Participants will need to bring a government issued form of ID

Breakfast Safety Seminars

Date: May 31, June 27
Time: 7:30 a.m. – 9:00 a.m.
Non-Member: \$10 | **Member: FREE**

Come learn and discuss important safety topics and trends in our monthly Breakfast Safety Seminars.

April 27: Safety in the Cyberworld

Since every business is being cyberattacked, you need to learn the steps you can take to reduce your risk of being breached and your information stolen or held for ransom.

Ransomware breaches cost organizations \$8 billion in 2017. Average cost per breach is \$7.35 million. Average cost per record is \$225. If you have 20,000 records, that could be a \$4.5 million hit to your bottom line.

Would you survive? 68% of SMB's that are hacked don't survive who are hacked.

May 31: Eye Safety

Learn how to safeguard your eyes/vision in the workplace.

June 27: Details TBD

*As part of the Utah Safety Council member benefits, these seminars are **FREE for two people, per member organization, per seminar.** Additional attendees are \$10 each.*

Confined Spaces: OSHA Compliance Series

Date: June 1
Time: 8:00 a.m. – 1:00 p.m.
Non-Member: \$160 | **Member: Save 30%** *on-site available

This course covers: key elements of the OSHA Permit-Required Confined Spaces Regulation (29 CFR 1910.146).

This course earns credit towards the National Safety Council's Certificate in OSHA Compliance.

This course qualifies for the Workplace Scholarship Program.

Contractor Safety Orientation (UITC)

Dates: May 1, 15, 29; June 5, 19, 26
Time: 7:00 a.m. – 4:00 p.m.
Participant: \$75 *on-site available

Contractor Safety Orientation is designed for contractors or contract employees who perform work on refinery properties. The course is also utilized by other organizations desiring to orient contractors in safety prior to working on their site.

OSHA 7405: Fall Hazard Awareness for the Construction Industry

Date: May 10
Time: 8:00 a.m.
FREE

Free Class as part of the National Safety Stand-Down for Preventing Falls in Construction. This course covers the identification, evaluation, prevention and control of fall hazards in the construction industry.

The course focuses on falls to a lower level rather than falls to the same level resulting from slips and falls. Course topics include identifying, analyzing, and preventing fall hazards utilizing OSHA Fall Protection Standards. At the conclusion of the course, students will have an awareness level of identifying fall hazards and methods to control and abate the hazards.

Fire Protection: OSHA Compliance Series

Date: June 13
Time: 8:00 a.m. – 1:00 p.m.
Non-Member: \$160 | **Member: Save 30%** *on-site available

According to OSHA, workplace fires and explosions kill 200 and injure more than 5,000 workers each year. They cost businesses more than \$2.3 billion in property damage.

Don't add to these statistics -- get the facts on OSHA's Fire Protection standards. This course will show you how to reduce your risks.

This course earns credit towards the National Safety Council's Certificate in OSHA Compliance.

This course qualifies for the Workplace Scholarship Program.

First Aid, CPR and AED Training

Dates: May 16, June 20
Time: 8:00 a.m. – 4:00 p.m.
Non-Member: \$90 | **Member: Save 30%** *on-site available

This course provides participants with the most current First Aid, CPR and AED training specifically focused on medical emergencies in the workplace. Upon completion, students receive First Aid Certification and a CPR and AED Certification valid for two years.

This course earns credit towards the Utah Safety Council's Office Safety Certificate.

This course is FREE for one person, per member organization, per membership year. Additional attendees are \$63 each.

First Aid, CPR and AED Instructor Training

Date: May 2-4
Time: 8:00 a.m. – 5:00 p.m.
Participant: \$530 | **Member: Save 30%** *on-site available

Protect your employees by teaching them life-saving skills with a certified First Aid, CPR and AED Instructor of your own! This instructor training meets OSHA guidelines for First Aid and CPR in the workplace and the latest CPR and Emergency Cardiovascular Care Guidelines. Participants will learn methods that involve, influence and facilitate adult learning while refining their teaching skills.

Upon successful completion, you will become a certified National Safety Council instructor and receive the complete First Aid, CPR and AED instructor resource package.

Focus Four Hazards in Construction

Date: June 7
Time: 8:00 a.m. – 12:00 p.m.
Non-Member: \$160 | **Member: Save 30%** *on-site available

In 2013, the construction industry faced 770 deaths, more than any other industry that year.*

Due to the construction industry's high fatality rate, OSHA has identified four hazards leading to the death of employees

in the construction industry- Falls, Electrocutions, Caught In/Between, and Struck By Hazards.

This course will discuss how to identify and avoid these hazards so you can protect your employees.

**Source: National Safety Council Injury Facts Publication, 2015*

This course qualifies for the Workplace Scholarship Program.

Women in Safety

The Utah Safety Council has created a Women in Safety group to discuss the issues and challenges facing women in the industry. Next meeting is **May 8, 2018, 8AM-10AM.**

This is a great opportunity to build your knowledge of regulatory standards, and get real-time feedback for challenging situations you may be facing in your workplace.

Questions? Please contact Sadee Pistoia, Membership Manager at 801.746.SAFE (7233) or spistoia@utahsafetycouncil.org.

Forklift Operator Course

Date: May 24

Time: 8:00 a.m. – 12:00 p.m.

Participant: \$75 | **Member: Save 30%** *on-site skills evaluation optional for an additional \$150

Discussion, videos and graphics are used to teach safe forklift operating practices. This course complies with the OSHA standards for formal operator classroom training.

Upon completing the course, participants will receive a wallet card verifying completion of the classroom training. For the full certification, please schedule a time for our instructor to conduct the hands-on training and evaluation at your

Forklift Trainer Certification Course

Date: May 14

Time: 8:00 a.m. – 4:00 p.m.

Non-Member: \$800 | **Member: Save 30%** *on-site skills evaluation optional for an additional \$150

This one-day course offers instructors the tools necessary to meet OSHA's Powered Industrial Truck requirements for formal instruction, practical training and evaluation every three years.

The program's format allows for flexibility in presentation and local job site customization to cover specific company policies. Each participant receives a complete instructor kit valued over \$500.

This course qualifies for the Workplace Scholarship Program.

HAZWOPER 8-Hour Refresher

Date: May 4

Time: 8:00 a.m. – 4:00 p.m.

Non-Member: \$210 | **Member: Save 30%** *on-site available

This course meets the requirements outlined in OSHA 29 CFR 1910.120 for eight hours of annual refresher training for workers at hazardous waste sites.

Upon completion of the course, students will receive a certificate verifying the training in addition to a photo ID card.

Machine Guarding: OSHA Compliance Series

Date: May 10

Time: 8:00 a.m. – 1:00 p.m.

Non-Member: \$160 | **Member: Save 30%** *on-site available

guarding ranks among the top 10 of OSHA citations issued, possibly because the regulation can be the most confusing. Don't let confusion get in the way of compliance.

Through discussion and activities, our professional facilitator will break down the regulation into terms you can understand. You'll learn practices and procedures that will keep you in compliance and, best of all, protect your employees.

This course earns credit towards the National Safety Council's Certificate in OSHA Compliance.

This course qualifies for the Workplace Scholarship Program.

MSHA 24-Hour Training for New/Inexperienced Metal/Non-Metal Surface Miners

Dates: May 9-11, 23-25; June 13-15, 27-29

Time: 7:00 a.m. – 4:00 p.m.

Participant: \$275 *on-site training available

This course covers all aspects of the initial training requirements for owners and operators under 30 CFR Part 48. The objective is to train new/inexperienced miners on the safety and health hazards in the surface metal/non-metal industry.

This course satisfies the total MSHA requirement for new/inexperienced miner training. Upon completion, students will receive a completed 5000-23 training certificate. This certificate will expire one year after completion and must be renewed annually by taking the 8-hour annual training course. **Students will also receive First Aid, CPR, and AED certification.**

MSHA 16-Hour Training for New/Inexperienced Metal/Non-Metal Surface Miners

Dates: May 9-10, 23-24; June 13-14, 27-28

Time: 7:00 a.m. – 4:00 p.m.

Participant: \$175 *on-site training available

This course covers general aspects of the initial training requirements for owners and operators under 30 CFR Part 48. The objective is to train new/inexperienced miners on the safety and health hazards in the surface metal/non-metal industry. This is a 16-hour class, and is designed for individuals who will receive an additional eight-hours of site-specific training from the mine operator. If required and provided by the mine operator, the site-specific training must be conducted at the mine site according to the mine operator's training plan.

MSHA 8-Hour Annual Training for Experienced Metal/Non-Metal Surface Miners

Dates: May 7, 14, 21; June 4, 11, 25
 Time: 7:00 a.m. – 4:00 p.m.
 Participant: \$75 *on-site training available

This course covers all aspects of the annual training requirements for owners and operators under 30 CFR Part 48. Those who successfully complete this course will return to the job with the skills necessary to perform their work in accordance with MSHA regulations.

Upon completion, students will receive a completed 5000-23 annual refresher training certificate. This certificate will expire one year after completion.

MSHA 32-Hour Training for New/Inexperienced Underground Miners

Dates: June 13-16
 Time: 7:00 a.m. – 4:00 p.m.
 Participant: \$375 *on-site training available

This training course gives new miners the knowledge needed to face the safety and health hazards of underground mining.

Students will receive their MSHA 5000-23 form upon completion.

MSHA Site-Specific Requirements: This course provides participants with a total of 32 hours of the 40 required training hours. Due to the diversity of our students, task and hazard awareness training will not be included in the Utah Safety Council's training session. The site-specific training must be conducted at the mine site according to the mine operator's training plan. This constitutes the remaining eight-hours of required training for underground miners.

Students will also receive First Aid, CPR, and AED certification.

MSHA 8-Hour Annual Training for Experienced Underground Miners

Date: June 15
 Time: 7:00 a.m. – 4:00 p.m.
 Participant: \$75 *on-site training available

This training gives experienced underground miners the knowledge they need to face the safety and health hazards involved in underground mining.

Students will receive their MSHA 5000-23 form upon completion. This certificate will expire one year after completion.

MSHA Site-Specific Requirements: Due to the diversity of our students, task and hazard awareness training will not be included in the Utah Safety Council training session. The site-specific training must be conducted at the

May 8-9

OSHA 10-HOUR OUTREACH COURSE FOR THE CONSTRUCTION INDUSTRY

There were **37,476** injuries in work zones 2017, about **four** people injured **every hour**

Falls accounted for more than **one** in **four** injuries in construction

3X Private industry construction workers have a **fatal occupational injury rate nearly 3 times** that of all workers in the United States

Subjects covered in this course include:

- Introduction to OSHA
- OSHA Focus Four Construction Hazards
- Personal Protective and Lifesaving Equipment
- Health Hazards in Construction
- Upon course completion you will receive an OSHA DOL card

mine site according to the mine operator's training plan.

OSHA 10-Hour for Construction Industry

Dates: May 8-9

Time: 8:00 a.m. – 3:00 p.m.

Non-Member: \$140 | **Member: FREE**** *on-site available

This course covers OSHA standards specific to the Construction Industry, 29 CFR 1926. The OSHA Training Institute will issue course completion cards to each student.

Subjects covered in this course include: an Introduction to OSHA, OSHA Focus Four Construction Hazards, Personal Protective and Lifesaving Equipment, Health Hazards in Construction, and other safety topics.

***As part of the Utah Safety Council member benefits, this course is FREE for one person, per member organization, per membership year. **Contributing and Sustaining members** receive an additional attendee for free each year. Additional attendees from a member organization are \$95 each.*

This course earns credit towards the National Safety Council's Certificate in OSHA Compliance.

This course qualifies for the Workplace Scholarship Program.

Reasonable Suspicion Drug & Alcohol Compliance Training for DOT Supervisor

Dates: May 1

Time: 8:00 a.m. - 10:00 a.m.

Participant: \$65

The course will assist supervisors of DOT-regulated employees in identifying drug users, complying with the company's drug policy, and understanding legal regulations.

Upon completion of the course, students will receive a certificate of completion.

Safety Inspections

Date: May 22

Time: 8:00 a.m. – 5:00 p.m.

Non-Member: \$360 | **Member: Save 30%** | *on-site available

Ongoing safety inspections are key in preventing workplace injuries and fostering continuous improvement. Participants will learn how to design and implement an inspection process to find and fix hazards before an incident occurs.

0.65 CEUs received towards earning the National Safety Council's Advanced Safety Certificate.

This course qualifies for the Workplace Scholarship Program.

Safety Leadership and Responsibility

Date: June 5

Time: 8:00 a.m. – 12:00 p.m.

Non-Member: \$165 | **Member: Save 30%** *on-site available

What is leadership, and what is safety leadership? Who is running/leading your safety & health issues in your operation? Who is involved in your safety & health processes and programs? In this course we will review/discuss:

- What is leadership?
- Is there a difference between leadership and safety leadership?
- Who has overall and specific responsibilities for safety?
- Various staff & management safety responsibilities and duties
- Recommended safety organization charts in a company

A review of ideas and options will be covered to answer these questions and more to enhance the success of providing a safe environment for all of our people. Interactive and engaging discussion and activities will be used to promote thought and learning.

This course qualifies for the Workplace Scholarship Program.

Safety Management Techniques

Dates: April 10-13

Time: 8:00 a.m. – 5:00 p.m.

Non-Member: \$1,715 | **Member: Save 30%**

This course does more than show you what an effective safety manager does- it shows you how to do it through a balanced approach to safety management, addressing administrative, technical and cultural elements of safety.

Participants will be able to:

- Identify the fundamental principles of a safety management system
- Determine your role as a safety and health professional and define line management's safety and health responsibilities
- Identify leadership strategies that contribute to your success as a manager
- Recognize strategies and steps to create organizational and individual change in your safety culture
- Create a plan to improve safety management

2.6 CEUs received towards earning the National Safety Council's Advanced Safety Certificate.

This course qualifies for the Workplace Scholarship Program.
