

Safety Notes

March 2015 | Vol. 6

Membership Minute

by Sadee Pistoia
Membership Manager

I wanted to send out a BIG Thank You to everyone who attended our Member Appreciation Event on Friday, February 27th at the Gallivan Center. The turnout was wonderful! The Utah Safety Council is so excited for the many new things coming in 2015.

The unveiling of the new logo/look is only one of many more to come! We are always amazed and excited to have so many people working together to make Utah a SAFE place to work!

Hope to see you all at our 1st Annual Golf Tournament on May 14th at Thanksgiving Point!

New Look, New Colors, Same Great Service

In 1936, the Utah Safety Council began offering training classes to the public. In the nearly 80 years since, there have been a lot of great changes that have taken place; an increase in the number of training classes and opportunities, a few different locations for our training center, and new staff has been added to meet our growth and the needs of our members. However, one aspect of us that has not changed much, has been our logo.

As we start a new year, we are excited to announce a new look for the Utah Safety Council with an updated logo and the introduction below of our program icons. We have 5 areas of focus within our group today; Membership Services, Occupational Safety, Traffic Safety, Emergency Care Safety, and Home & Community Safety.

All of these programs are designed to provide you with the best resources, products, and services available to help you meet your safety needs.

Thank you for being part of the Utah Safety Council and supporting our efforts. We are looking forward to a great year and encourage you to be part of it.

Your Employee's Driving Habits Impact Your Bottom Line

One motor vehicle crash resulting in an injury could cost your company up to \$70,000 or \$1.4 million when a fatality is involved.

Whether your employees drive as the main function of their job or simply commute to work, they are at their greatest risk while operating a motor vehicle. Protect your employees and your organization with the most advanced driver safety course from the National Safety Council.

The Defensive Driving Course offers practical strategies to reduce collision-related injuries and fatalities. Most importantly, DDC-4 shows students the consequences of the choices they make behind the wheel, and puts defensive driving in a personal context.

The Defensive Driving Course (DDC) has been designed and developed to meet the driver improvement and safety needs and goals of your organization. There are numerous benefits to certifying an instructor and utilizing DDC within your company. **Sign up today for our next instructor course, scheduled on March 26-27, 2015.**

If you have any questions about the Defensive Driving Instructor Course please contact Jennifer Williams, Traffic Safety Program Manager at 801.746.SAFE (7233) ext. 303 or email her at jwilliams@utahsafetycouncil.org.

According to OSHA over 200 fires occur in U.S. workplaces daily!

Attend our **NEW Fire Extinguisher Training course** and get hands-on practice with our live fire simulator so you are prepared if disaster strikes.

Course Dates: March 16; April 27; June 22

Member: \$45 | Non-Member: \$75

This course earns credit towards the Utah Safety Council's Office Safety Certificate.
