

SAFETY SWAP CONTEST

Play any time between June 3rd and June 7th.

WORKPLACE HAZARDS

HOW TO PLAY:

1. Divide into teams. (Teams should be comprised of people working in the same physical area).
2. Print a copy of this sheet for each team.
3. Have teams “swap” areas with other teams so that each team is evaluating an area in which they typically spend less time.
4. Each team evaluates its assigned area for the hazards listed below and makes notes on the sheet.

5. Take a picture of each team.
6. Take a picture of each completed hazard identification checklist and any notes sheets.
7. Email all pictures to Occupational Safety Manager Alaina Mitchell at amitchell@utahsafetycouncil.org no later than Monday, **June 10th**, at 5 p.m.
8. Alaina will notify winners via email and will arrange to have donuts delivered to the winning teams.
9. We will also email you suggestions about how to correct any safety issues your teams identify.

HAZARD IDENTIFICATION CHECKLIST

(Make notes on back of sheet if necessary).

EQUIPMENT HAZARDS

- o Fire
- o Electrical
- o Mechanical
- o Hydraulic
- o Pneumatic
- o Machine Guarding

ENVIRONMENT – CHEMICAL

- o Absorption
- o Inhalation
- o Ingestion
- o Injection

ENVIRONMENT – PHYSICAL

- o Slip, trip or fall
- o Caught in, on or between
- o Overexertion (while lifting, pulling, pushing or bending)
- o Stuck by or struck against
- o Noise
- o Contact with extreme heat, extreme cold
- o Contact with electrical current
- o Material handling
- o Vibration

ENVIRONMENT – ERGONOMIC

- o Poor lighting
- o Poor tool design
- o Wrong tool for the task
- o Repeated motion in awkward positions
- o Poor workstation layout

Environment – Biological

- o Contact with bacteria
- o Contact with fungi
- o Contaminated water
- o Contact with viruses

EMPLOYEE BEHAVIOR

- o Employee wearing PPE
- o Lockout/Tagout procedures followed
- o Company safety policies/procedures followed

OTHER

- o
