# SAFETY MEDIA LIBRARY

Our Safety Media Library is one of the finest safety libraries in the nation. With over 900 titles available for loan. We are continually adding new titles to our library. If there is a title or subject that you would like us to add to our Safety Media Library please contact the Utah Safety Council at 801.746.SAFE (7233).

Organizations can greatly improve their workplace environment by making these presentations an active part of their safety programs. Media titles may be reserved up to a year in advance and can be checked out for up to 14 days. You may also contact our Safety Media Librarian at 801.746.SAFE (7233).

## **Please note the format found in the titles of our presentations.**

- (DVD) | Means that the presentation is in English and DVD format.
- (SP DVD) | Means that the presentation is in Spanish and DVD format.
- (EN/SP DVD) | Means that the presentation is in English & Spanish and DVD format.
- (SP VHS) | Means that the presentation is in Spanish and VHS format.
- (VHS) | Means that the presentation is in English and VHS format.

## **INPUT AND SUGGESTIONS NEEDED!**

Help guide us in our future purchases. Send us an email at [safety@utahsafetycouncil.org](mailto:safety@utahsafetycouncil.org) with suggestions of titles or subjects you would like to see more of.

**TABLE OF CONTENTS  
(IN ALPHABETICAL ORDER BY CATEGORY)**

**BACK SAFETY, LIFTING & ERGONOMICS**

	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>	<b><u>PAGE</u></b>
BACK IN ACTION (EN/SP DVD)	2010	536	1
BACK INJURY PREVENTION EMPLOYEE TRAINING (VHS)	2000	172	1
BACK INJURY PREVENTION: YOU'RE IN CONTROL (EN/SP DVD)	2000	416	1
BACK SAFETY (DVD)	2005	456	1
BACK SAFETY (SP VHS)	1999	633	1
BACK SAFETY (VHS)	2005	117	1
BACK SAFETY FOR FIRST RESPONDERS (EN/SP DVD)	2004	912	1
BACK SAFETY: EXERCISE AND ERGONOMICS (DVD)	2005	869	1
BACK SAFETY: EXERCISE AND ERGONOMICS (DVD)	2005	342	1
BACK SAFETY: LIFT WELL, LIVE WELL (EN/SP DVD)	2004	185	1
BACK SAFETY: PROPER LIFTING PROCEDURES (DVD)	2005	309	2
BACK SAFETY: PROPER LIFTING PROCEDURES (DVD)	2009	559	2
BACK SAFETY: THE CHOICE IS YOURS (VHS)	2000	773	2
ERGONOMICS EMPLOYEE TRAINING: PREVENTING MUSCULOSKELETAL DISORDERS (DVD)	2001	289	2
ERGONOMICS EMPLOYEE TRAINING: PREVENTING MUSCULOSKELETAL DISORDERS (SP DVD)	2001	23	2
ERGONOMICS FOR THE 21ST CENTURY (DVD)	2000	848	2
ERGONOMICS: BREAK THE RMI HABIT (EN/SP DVD)	2005	632	2
ERGONOMICS: SAFE PATIENT TRANSFER (DVD)	2009	76	2
ERGONOMICS: THE 24 HOUR BODY (EN/SP DVD)	2005	448	2
HEALTHCARE ERGONOMICS (DVD)	2008	68	2
INDUSTRIAL ERGONOMICS (DVD)	2008	315	2
INDUSTRIAL ERGONOMICS (SP DVD)	2008	911	3
LIGHT INDUSTRIAL BACK INJURY PREVENTION (DVD)	2004	119	3
OFFICE ERGONOMICS (DVD)	2003	969	3
OFFICE ERGONOMICS TODAY (EN/SP DVD)	2003	71	3
OUT OF THE OFFICE: ERGONOMICS FOR THE MOBILE WORKER (DVD)	2011	803	3
OVEREXERTION: INJURY PREVENTION (DVD)	2004	926	3
POWERLIFT: LIFTING TRAINING THAT WORKS (SP DVD)	2009	836	3
POWERLIFT: LIFTING TRAINING THAT WORKS CONCISE (DVD)	2009	676	3
PRINCIPLES OF OFFICE ERGONOMICS (DVD)	2007	868	3
PROPER LIFTING TECHNIQUES: KEEPING YOUR WORKPLACE SAFE (DVD)	2009	585	3
SAFETY FIRST: WHEN LIFTING AND CARRYING (DVD)	2006	509	4
STRAINS AND SPRAINS: AVOIDING THE PAIN (DVD)	2009	22	4
WORKING ERGONOMICALLY IN THE OFFICE (VHS)	2002	26	4

**CHEMICALS & HAZARDOUS MATERIALS**

	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>	<b><u>PAGE</u></b>
ACCIDENTAL RELEASE MEASURES AND SPILL CLEANUP PROCEDURES (DVD)	2001	432	4
ASBESTOS MAINTENANCE (DVD)	2009	914	4
ASBESTOS MAINTENANCE (SP DVD)	2009	496	4
AUTOMOTIVE HAZARD COMMUNICATION (VHS)	2002	361	4
BASIC TRAINING SERIES: CHEMICAL HAZARDS IN THE WORKPLACE (VHS)	2004	36	4
CHEMICAL EMERGENCY PREPAREDNESS AND PROCEDURES (VHS)	1997	789	4

	<u>YEAR</u>	<u>TITLE #</u>	<u>PAGE</u>
CHEMICAL SPILLS PART II: CONTROL PROCEDURES (VHS)	2001	183	4
COMBUSTABLE DUST (EN/SP DVD)	2009	406	5
COMBUSTIBLE DUST: INCIDENT PREVENTION (EN/SP DVD)	2008	463	5
CONTROLLING HAZARDOUS ENERGY SOURCES (DVD)	2002	510	5
CONTROLLING HAZARDOUS ENERGY SOURCES CONSISE VERSION (DVD)	2002	97	5
DRIVING SAFETY: THE BASICS (DVD)	2015	986	5
GHS SAFETY DATA SHEETS AND LABELING (SP DVD)	2011	327	5
GHS SAFETY DATA SHEETS AND LABLEING (DVD)	2011	887	5
HAZARD COMMUNICATION - THE GHS & YOU	2015	580	5
HAZARD COMMUNICATION & THE GLOBAL HARMONIZING SYSTEM (DVD)	2011	231	6
HAZARD COMMUNICATION & THE GLOBAL HARMONIZING SYSTEM CONCISE (DVD)	2011	242	6
HAZARD COMMUNICATION & THE GLOBAL HARMONIZING SYSTEM EMPLOYEE TRAINING (SP DVD)	2012	825	6
HAZARD COMMUNICATION: YOUR KEY TO CHEMICAL SAFETY (DVD)	2012	744	6
HAZARD COMMUNICATION: YOUR KEY TO CHEMICAL SAFETY (SP DVD)	2012	823	6
HAZCOM (VHS)	2004	274	6
HAZMAT: SAFE AND SECURE (VHS)	2003	152	6
HAZWOPER FIRST RESPONDER: AWARENESS LEVEL (EN/SP DVD)	2005	401	6
HAZWOPER: DEALING WITH THE MEDIA IN EMERGENCY SITUATIONS (DVD)	2001	179	6
HAZWOPER: ELECTRICAL SAFETY IN HAZMAT ENVIRONMENTS (DVD)	2009	203	7
HAZWOPER: FIRE PREVENTION (DVD)	2000	201	7
HAZWOPER: FIRE PREVENTION (DVD)	2000	194	7
HAZWOPER: HAZMAT LABELING (SP VHS)	2001	28	7
HAZWOPER: SAFETY ORIENTATION (DVD)	1999	181	7
HAZWOPER: THE ANSI MATERIAL SAFETY DATA SHEET (DVD)	2001	189	7
HAZWOPER: THE EMERGENCY RESPONSE PLAN (DVD)	2000	209	7
HAZWOPER: THE SITE SAFETY AND HEALTH PLAN (DVD)	2000	243	7
HEXAVALENT CHROMIUM AWARENESS (EN/SP DVD)	2007	37	7
MATERIALS HANDLING SAFETY (DVD)	2001	123	8
PSM & RMP AWARENESS (EN/SP DVD)	2007	148	8
SILICA SAFETY AWARENESS (EN/SP DVD)	2008	693	8
SPCC CONTROLLING OIL (DVD)	2006	360	8
THE EMERGENCY RESPONSE PLAN (DVD)	2006	61	8
UNDERSTANDING HAZCOM LABELS (VHS)	2001	990	8
UNDERSTANDING YOUR FACILITY'S STORMWATER PREVENTION PLAN (DVD)	2011	628	8
UNDERSTANDING YOUR FACILITY'S STORMWATER PREVENTION PLAN CONCISE VERSION (DVD)	2011	755	8
US CHEMICAL SAFETY BOARD SAFETY VIDEO COLLECTION (DVD)	2011	622	8
WARNING LABELS AND SIGNS: GET THE MESSAGE (EN/SP DVD)	2005	661	8
WHAT TO DO WHEN SPILLS OCCUR (VHS)	2001	987	9

**CLIMATE & WEATHER**

	<u>YEAR</u>	<u>TITLE #</u>	<u>PAGE</u>
COLD STRESS - WORKING SAFELY IN COLD WEATHER	2014	753	9
COLD STRESS (EN/SP DVD)	2007	87	9
HEAT STRESS (DVD)	2010	598	9
HEAT STRESS (DVD)	2010	300	9
HEAT STRESS (SP VHS)	1999	114	9

	<u>YEAR</u>	<u>TITLE #</u>	<u>PAGE</u>
HEAT STRESS (VHS)	1999	113	9
HEAT STRESS 1997 (VHS)	1997	759	9
HEAT STRESS CODE RED (EN/SP DVD)	2008	293	10
HEAT STRESS: DON'T LOSE YOUR COOL (EN/SP DVD)	2007	477	10
HEAT STRESS: PREVENTATIVE MEASURES (EN/SP DVD)	2008	34	10
HEAT STRESS: REAL ACCIDENTS REAL STORIES (DVD)	2010	89	10
HEAT STRESS: STAYING HEALTHY, WORKING SAFELY (DVD)	2007	442	10
HEAT STRESS: STAYING HEALTHY, WORKING SAFELY (SP DVD)	2009	79	10
HEAT STRESS: THE FACTS (DVD)	2011	246	10
HEAT STRESS: THE FACTS (DVD)	2010	474	10
HEAT STRESS: THE FACTS (SP DVD)	2011	854	10
SEVERE WEATHER ALERT: ARE YOU PREPARED? (CONCISE DVD)	2003	210	10
SEVERE WEATHER ALERT: ARE YOU PREPARED? (DVD)	2003	367	11
THE SKILL OF SURVIVAL: A GUIDE TO HOT WEATHER SURVIVAL (VHS)	2004	138	11
UNDERSTANDING & PREVENTING HEAT-RELATED ILLNESS (DVD)	2011	674	11
UNDERSTANDING & PREVENTING HEAT-RELATED ILLNESS CONCISE VERSION (DVD)	2011	86	11
WINTER SAFETY (DVD)	2009	539	11
WINTER SAFETY (DVD)	2009	355	11
WINTER SAFETY (DVD)	2009	420	11
WINTER SAFETY (SP DVD)	2008	140	11
WINTER WALKING (DVD)	1995	610	11
WORKING SAFELY IN COLD WEATHER (DVD)	2008	928	11
WORKING SAFELY IN COLD WEATHER (DVD)	2008	606	12
WORKING SAFELY IN COLD WEATHER (DVD)	2009	80	12
WORKING SAFELY IN COLD WEATHER (SP DVD)	2009	147	12
WORKING SAFELY IN HOT ENVIRONMENTS (CONCISE DVD)	2002	786	12
WORKING SAFELY IN HOT ENVIRONMENTS (DVD)	2002	368	12

**CONFINED SPACE**

	<u>YEAR</u>	<u>TITLE #</u>	<u>PAGE</u>
BASIC TRAINING ABOUT CONFINED SPACES AND THE ENTRY PERMIT SYSTEM (VHS)	2002	720	12
CONFINED SPACE ATMOSPHERIC TESTING (EN/SP DVD)	2011	519	12
CONFINED SPACE ENTRY: A DEADLY SITUATION	2015	907	12

**BACK SAFETY, LIFTING & ERGONOMICS**

<b>BACK IN ACTION (EN/SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
20 Minutes	2010	536
Show your employees how proper lifting techniques and a pro-active health regimen can go a long way toward maintaining a properly aligned spine, a strong core and better quality of life. In turn, these could help reduce costs to individuals and your organization. This program covers basic anatomy of the back, warning signs of potential injury, risk factors, and most importantly, preventative measures.		
<b>BACK INJURY PREVENTION EMPLOYEE TRAINING (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
15 Minutes	2000	172
This video demonstrates exercises and safe lifting procedures that will help viewers avoid back pain. Topics include workplace ergonomics, flexibility exercises, correct posture, preparing to lift a load and proper lifting techniques.		
<b>BACK INJURY PREVENTION: YOU'RE IN CONTROL (EN/SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
15 Minutes	2000	416
Back injuries are one of the leading workplace injuries - resulting in huge workers' compensation costs. Eight out of ten individuals will suffer some form of back injury in their life. Prevention requires comprehensive and engaging training for all employees. Motivate your workers to follow best safety practices when performing manual material handling with this dynamic training program. Topics include: proper lifting techniques and important life lessons for maintaining a strong and healthy back, the fundamentals of good stretching and a healthy lifestyle, how the back functions, correct lifting and carrying techniques, and correct posture.		
<b>BACK SAFETY (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
21 Minutes	2005	456
This DVD is designed to present the fundamentals of back care and safety to all employees. Topics include: how the back works, common back problems, diseases that affect the back, proper lifting techniques, how to treat an injured back and how to adjust your environment to avoid back problems.		
<b>BACK SAFETY (SP VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
13 Minutes	1999	633
This video emphasizes the importance of overall back care, both at work and at home, including exercises and weight control. The program emphasizes the importance of using proper lifting techniques. Included is information on how the back works, common types and causes of back injuries, effects of back injuries, injury prevention and safety practices, proper lifting techniques and basic back exercises.		
<b>BACK SAFETY (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
23 Minutes	2005	117
This video is designed to present the fundamentals of back care and safety to all employees. Topics include: how the back works, common back problems, diseases that affect the back, proper lifting techniques, how to treat an injured back and how to adjust your environment to avoid back problems.		
<b>BACK SAFETY FOR FIRST RESPONDERS (EN/SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
20 Minutes	2004	912
This presentation covers: back structure, repetitive stress illnesses, common back injuries, proper lifting techniques, and training points for handling stretchers, gurneys, and fire hoses.		
<b>BACK SAFETY: EXERCISE AND ERGONOMICS (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
15 Minutes	2005	869
They say you never notice the parts of your body until they hurt. This video stresses the importance of back safety and discusses not only the risk involved in everyday body movement, but also the ways to prevent those risks from turning into debilitating injuries. The presentation stresses a proactive approach including proper health through exercise and ergonomics. Information is offered on how to properly move through each day without adding undue strain and stress on the body. Viewers will be shown a range of basic stretches as well as other methods and tips for safe and healthy movement.		
<b>BACK SAFETY: EXERCISE AND ERGONOMICS (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
16 Minutes	2005	342
This video uses the analogy of athletes stretching before they go to work to avoid injury and it encourages your employees to do the same. This video also describes the basics of ergonomics in a blue-collar environment.		
<b>BACK SAFETY: LIFT WELL, LIVE WELL (EN/SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
15 Minutes	2004	185
This DVD shows viewers how to stop back pain before it starts and reminds them to protect their back from injury. Topics include: positive steps, back basics, warning signs, proper lifting and exercise. Also includes a customizable PowerPoint presentation. This DVD includes Spanish, English and Portuguese versions.		

<b>BACK SAFETY: PROPER LIFTING PROCEDURES (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
17 Minutes	2005	309

This video addresses lifting habits and behaviors by discussing every lifting position. This video covers overhead lifting, proper procedures for lifting heavy objects and how to successfully carry out a team lift.

<b>BACK SAFETY: PROPER LIFTING PROCEDURES (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
16 Minutes	2009	559

Back injuries frequently occur in the workplace during lifting. The tips and techniques provided in this video will offer alternatives to lifting or carrying and will show the benefits of using helpful tools like dollies and carts to prevent back injuries. Viewers will learn the necessary step-by-step safety procedures to prepare the body for safe lifting as well as instruction on how to properly lift under any circumstances.

<b>BACK SAFETY: THE CHOICE IS YOURS (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
14 Minutes	2000	773

This video includes a description of physical work activities that increase the risk of back injury, as well as how to make choices that will promote the health of our back. Proper lifting techniques are discussed. A special segment demonstrates exercises to strengthen the back.

<b>ERGONOMICS EMPLOYEE TRAINING: PREVENTING MUSCULOSKELETAL DISORDERS (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
18 Minutes	2001	289

This program focuses on the three main components of a successful ergonomics program: developing knowledge of musculoskeletal disorders, reporting their signs and symptoms and controlling ergonomic hazards. Topics include types of MSD disorders, importance of reporting MSD signs and symptoms, determining MSD incidents and risk factors, the purpose of the job hazard analysis and the measures to be taken to control ergonomic hazards.

<b>ERGONOMICS EMPLOYEE TRAINING: PREVENTING MUSCULOSKELETAL DISORDERS (SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
18 Minutes	2001	23

This program focuses on the three main components of a successful ergonomics program: developing a knowledge of musculoskeletal disorders, reporting their signs and symptoms and controlling ergonomic hazards. Topics include types of MSD disorders, importance of reporting MSD signs and symptoms, determining MSD incidents and risk factors, the purpose of the job hazard analysis and the measures to be taken to control ergonomic hazards.

<b>ERGONOMICS FOR THE 21ST CENTURY (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
15 Minutes	2000	848

This program shows employees what they can do to alleviate ergonomic problems while stressing that it is each employee's responsibility to take the appropriate measures to reduce ergonomic hazards including how to set up computer workstations, importance of proper postures, and preventative exercises.

<b>ERGONOMICS: BREAK THE RMI HABIT (EN/SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
12 Minutes	2005	632

This program goes over common sense ergonomics procedures as well as OSHA requirements to help your employees work safer and smarter. (RMI- Repetitive Motion Injuries)

<b>ERGONOMICS: SAFE PATIENT TRANSFER (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
15 Minutes	2009	76

Back injuries and other musculoskeletal disorders are rampant in the healthcare industry. According to the Bureau of Labor Statistics, nurses' aides, health aides, radiology technologists and therapists, as well as licensed practical nurses and registered nurses, make up six of the top 10 professionals at the greatest risk for back injury.

<b>ERGONOMICS: THE 24 HOUR BODY (EN/SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
18 Minutes	2005	448

This innovative program teaches employees how to use ergonomic principles learned at work when working at home. This DVD helps to reduce lost workdays due to off-the-job injuries.

<b>HEALTHCARE ERGONOMICS (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
21 Minutes	2008	68

This program will help you identify ergonomic hazards in your work area and it focuses on the prevention of the most common injuries you will face as a healthcare worker.

<b>INDUSTRIAL ERGONOMICS (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
13 Minutes	2008	315

This presentation reviews how our bodies move to help us adjust to working conditions. It also discusses several common reasons for ergonomic problems and factors that can be improved. Reviews proper lifting habits and stresses that exercise is crucial to avoiding injury.

<b>INDUSTRIAL ERGONOMICS (SP DVD)</b> 13 MINUTES	<u>YEAR</u> 2008	<u>TITLE #</u> 911
This presentation reviews how our bodies move to help us adjust to working conditions. It also discusses several common reasons for ergonomic problems and factors that can be improved. Reviews proper lifting habits and stresses that exercise is crucial to avoiding injury.		
<b>LIGHT INDUSTRIAL BACK INJURY PREVENTION (DVD)</b> 10 Minutes	<u>YEAR</u> 2004	<u>TITLE #</u> 119
This video stresses the importance of individual responsibility in injury reduction and outlines procedures in plain terms that are easy to follow for anyone in your facility. Topics include: safe lifting techniques, exercise and stretching, proper body mechanics and other techniques to help reduce on-the-job back injuries.		
<b>OFFICE ERGONOMICS (DVD)</b> 21 Minutes	<u>YEAR</u> 2003	<u>TITLE #</u> 969
This program provides a general understanding of safe ergonomics in the office environment. Topics covered include: physiology of the body, parts of the body most affected while working, pragmatic preventable measures and correct use of office equipment. This program provides great information for the office environment.		
<b>OFFICE ERGONOMICS TODAY (EN/SP DVD)</b> 16 Minutes	<u>YEAR</u> 2003	<u>TITLE #</u> 71
This program shows a broad range of office situations and computer use that all your workers can relate to. "Office Ergonomics Today" will teach your workers how their musculoskeletal system works to keep their body safe in the office.		
<b>OUT OF THE OFFICE: ERGONOMICS FOR THE MOBILE WORKER (DVD)</b> 17 Minutes	<u>YEAR</u> 2011	<u>TITLE #</u> 803
When we work in a typical office, we have the advantage of ergonomically adjustable office equipment and furniture. But when we rely on laptops, tablets and smartphones in settings that range from coffee shops to hotel rooms to our kitchen table, we need to be aware of what we can do to create our own comfortable work environment. This program discusses posture and how it impacts the proper use of mobile office equipment, the special challenges it presents and the importance of positioning and moving our bodies as we work.		
<b>OVEREXERTION: INJURY PREVENTION (DVD)</b> 14 Minutes	<u>YEAR</u> 2004	<u>TITLE #</u> 926
Overexertion is often paired with lifting, pushing, pulling, and tossing injuries. Your employees will learn how the body functions, risk factors associated with overexertion injuries and preventive measures they can utilize to reduce their exposure and prevent injuries.		
<b>POWERLIFT: LIFTING TRAINING THAT WORKS (SP DVD)</b> 19 Minutes	<u>YEAR</u> 2009	<u>TITLE #</u> 836
Most of us have been trained to lift objects with the traditional bend your knees and keep your back straight technique, but it just doesn't work. This method forces us to overuse our knees and legs and our backs still end up bearing the brunt of the load. Dr. Michael Schaefer has recognized the flaws of the conventional lifting technique and developed a safe, easier and stronger lifting position: the powerlift. This technique keeps the back in a powerful and safe posture while an object is being lifted. This program explains the five lifting techniques that have been derived from the powerlift position so viewers can move materials safely in practically every situation. (English Version #681)		
<b>POWERLIFT: LIFTING TRAINING THAT WORKS CONCISE (DVD)</b> 10 Minutes	<u>YEAR</u> 2009	<u>TITLE #</u> 676
Most of us have been trained to lift objects with the traditional bend your knees and keep your back straight technique, but it just doesn't work. This method forces us to overuse our knees and legs and our backs still end up bearing the brunt of the load. Dr. Michael Schaefer has recognized the flaws of the conventional lifting technique and developed a safe, easier and stronger lifting position: the powerlift. This technique keeps the back in a powerful and safe posture while an object is being lifted. This program explains the five lifting techniques that have been derived from the powerlift position so viewers can move materials safely in practically every situation.		
<b>PRINCIPLES OF OFFICE ERGONOMICS (DVD)</b> 14 Minutes	<u>YEAR</u> 2007	<u>TITLE #</u> 868
This program addresses ergonomics issues from the perspective of your employees. Focusing on ergonomically correct body positions, this program offers solutions for how to compensate for workstation limitations and create a healthier and stress-free work environment for your employees.		
<b>PROPER LIFTING TECHNIQUES: KEEPING YOUR WORKPLACE SAFE (DVD)</b> 15 Minutes	<u>YEAR</u> 2009	<u>TITLE #</u> 585
You can't rely on instinct when it comes to lifting properly. If you don't stop and think before you grab that heavy crate or unwieldy piece of plywood, you can get seriously hurt. Safe lifting procedures include basic guidelines for every lift, specialized and industrial loads, how to lift awkward or oversized objects and team lifting situations.		

<b>SAFETY FIRST: WHEN LIFTING AND CARRYING (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
6 Minutes	2006	509

In this presentation your employees will learn to use their heads not backs when lifting and carrying. It will also go over how to lift safely, clearing pathways so you do not trip, carrying safely and setting items down.

<b>STRAINS AND SPRAINS: AVOIDING THE PAIN (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
16 Minutes	2009	22

Reduce the risk of strains and sprains occurring in your workplace with this high-impact training DVD. Show your employees how strains and sprains occur, how to recognize their warning signs and how to minimize them with proper posture, exercises and other simple adjustments.

<b>WORKING ERGONOMICALLY IN THE OFFICE (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
23 Minutes	2002	26

This program stresses practical actions employees can take to deal with ergonomic problems in the office. By using proper ergonomic techniques, employees will be safer, more productive and they'll feel better at the end of the day. This video covers: recognizing ergonomic problems, potential adverse effects and pragmatic solutions to these problems.

### CHEMICALS & HAZARDOUS MATERIALS

<b>ACCIDENTAL RELEASE MEASURES AND SPILL CLEANUP PROCEDURES (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
20 Minutes	2001	432

This training program is designed to present information on the nature of hazardous materials and help employees reduce or eliminate potential exposure to hazardous materials in their work environments.

<b>ASBESTOS MAINTENANCE (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
10 Minutes	2009	914

Eliminate potential exposure and motivate workers to use best safety practices covered in this thorough program. Using multiple scenes from different building environments, this program shows how janitorial and other maintenance workers are exposed to asbestos in various building components. It covers in detail protective measures to reduce the amount of exposure and what to do if they discover asbestos in their work environment.

<b>ASBESTOS MAINTENANCE (SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
10 Minutes	2009	496

Eliminate potential exposure and motivate workers to use best safety practices covered in this thorough program. Using multiple scenes from different building environments, this program shows how janitorial and other maintenance workers are exposed to asbestos in various building components. It covers in detail protective measures to reduce the amount of exposure and what to do if they discover asbestos in their work environment.

<b>AUTOMOTIVE HAZARD COMMUNICATION (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
16 Minutes	2002	361

This video meets OSHA's "right to know" requirements and explains material safety data sheets, labels, and general information on using or handling hazardous materials.

<b>BASIC TRAINING SERIES: CHEMICAL HAZARDS IN THE WORKPLACE (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
20 Minutes	2004	36

The focus of this video is to help employees understand chemical hazards in the workplace. Employees must know which chemicals they work with are hazardous and what safety precautions must be taken to protect themselves from these hazards. Topics include: details of the written hazard communication plan, various types of chemical container labels, routes of entry and types of chemical exposures.

<b>CHEMICAL EMERGENCY PREPAREDNESS AND PROCEDURES (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
12 Minutes	1997	789

Most spills happen during the transfer of chemicals. It is vital the spill is reported immediately and cleaned up properly. This video discusses the importance of knowing what the chemical is and how to properly take care of the spill.

<b>CHEMICAL SPILLS PART II: CONTROL PROCEDURES (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
5 Minutes	2001	183

Whenever chemicals are in use, there is always the danger of a spill. This video teaches employees the difference between minor and major spills, the importance of training, personal protective equipment and the proper material to contain and absorb the spill.

**COMBUSTABLE DUST (EN/SP DVD)**

13 Minutes

YEAR

2009

TITLE #

406

Combustible dust is a danger in any workplace that creates or accumulates dust. This life-saving training DVD will show your employees how to control the danger with good housekeeping measures and safe work practices.

**COMBUSTIBLE DUST: INCIDENT PREVENTION (EN/SP DVD)**

12 Minutes

YEAR

2008

TITLE #

463

This presentation will educate your employees on alertness of hazards and teach a commitment to following good housekeeping and safe work practice. This program will cover hazards of combustible dust, safe work practices, preventing dust explosions, and emergency procedures.

**CONTROLLING HAZARDOUS ENERGY SOURCES (DVD)**

12 Minutes

YEAR

2002

TITLE #

510

The focus of this program is controlling hazardous energy sources, or lockout/tagout. Everywhere we look we are surrounded by energy such as high-pressure steam, electricity, hydraulic and pneumatic systems and the force of gravity, all of which are critical to the operation of our facility. Every form of energy, however, can also be highly dangerous unless treated with respect and controlled properly. Understanding and controlling these hazardous energy sources in the workplace is critical to remaining safe while performing our many tasks each day. Topics include types of energy sources, the company energy control plan, common lockout situations and authorized and affected employees. Lockout/tagout devices, lockout procedures and controlling energy in special situations are also covered in this video.

**CONTROLLING HAZARDOUS ENERGY SOURCES CONSOLE VERSION (DVD)**

8 MINUTES

YEAR

2002

TITLE #

97

**DRIVING SAFETY: THE BASICS (DVD)**

20 Minutes

YEAR

2015

TITLE #

986

We do so much driving that it's easy to forget how dangerous it can be. Every year crashes claim almost 35,000 lives and cause more than two million serious injuries. Fortunately, most crashes are preventable. People can avoid trouble on the road if they approach their driving with the right skills, a well-maintained vehicle and a safety first attitude. MARCOM's training products on Driving Safety: The Basics provide the information employees need to drive cars, vans and small trucks safely, both on and off the job. Topics covered include: Preparing to drive safely, the fundamentals of safe driving, Driving with other vehicles, Driving at night and in bad weather, Distracted driving and road rage, Handling an emergency, and more.

**GHS SAFETY DATA SHEETS AND LABELING (SP DVD)**

24 Minutes

YEAR

2011

TITLE #

327

The Globally Harmonized System (GHS) is an international approach to hazard communication, providing a new system for classification of chemical hazards, and a standardized approach to labels and safety data sheets. OSHA is requiring that employees are trained on the new labels and Safety Data Sheet format. "GHS Labels and Safety Data Sheets" training program will help your employees: understand the new GHS label elements, identify the new GHS pictograms, and read and interpret the new GHS Safety Data Sheets.

**GHS SAFETY DATA SHEETS AND LABELING (DVD)**

"GHS Labels and Safety Data Sheets" training program will help your employees: understand the new GHS label elements, identify the new GHS pictograms, and read and interpret the new GHS Safety Data Sheets.

**HAZARD COMMUNICATION - THE GHS & YOU**

14 Minutes

YEAR

2015

TITLE #

580

This training program features four real-life scenarios that underscore the importance of being able to quickly obtain health, safety and hazard information related to hazardous chemicals and substances in the workplace. As mandated by OSHA Standard 1910.1200, chemical safety data must be conveyed through the use of the standard communication elements found in the Globally Harmonized System for Labeling and Classification of Chemicals, commonly called the GHS for short. The program explains each of these communication elements in detail so your employees will understand how chemical hazards are communicated and how to use this information to ensure their safety when storing, handling and using hazardous substances.

<b>HAZARD COMMUNICATION &amp; THE GLOBAL HARMONIZING SYSTEM (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
22 Minutes	2011	231

Upcoming changes in OSHA's Hazard Communication Standard will bring regulation more in line with international standards with the implementation of the Global Harmonizing System. Implementing the Global Harmonizing System, or GHS, helps ensure improved quality and consistency in the classification and labeling of all chemicals, which in turn improves an employee's ability to quickly understand critical safety information. This program is designed to help employees understand the three key elements of the GHS: Hazard Classification, container labeling and Safety Data Sheets. Topics include the written Hazard Communication plan, physical and health hazard classes, pictograms, signal words and other information found on GHS container labels and the 16 sections of a Safety Data Sheet.

<b>HAZARD COMMUNICATION &amp; THE GLOBAL HARMONIZING SYSTEM CONCISE (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
12 Minutes	2011	242

Concise version. Upcoming changes in OSHA's Hazard Communication Standard will bring regulation more in line with international standards with the implementation of the Global Harmonizing System. Implementing the Global Harmonizing System, or GHS, helps ensure improved quality and consistency in the classification and labeling of all chemicals, which in turn improves an employee's ability to quickly understand critical safety information. This program is designed to help employees understand the three key elements of the GHS: Hazard Classification, container labeling and Safety Data Sheets. Topics include the written Hazard Communication plan, physical and health hazard classes, pictograms, signal words and other information found on GHS container labels and the 16 sections of a Safety Data Sheet.

<b>HAZARD COMMUNICATION &amp; THE GLOBAL HARMONIZING SYSTEM EMPLOYEE TRAINING (SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
22 Minutes	2012	825

Recent changes in OSHA's Hazard Communication Standard will bring the regulation more in line with international standards with the implementation of the Global Harmonizing System. Implementing the Global Harmonizing System, or GHS, helps ensure improved quality and consistency in the classification and labeling of all chemicals, which in turn improves an employee's ability to quickly understand critical safety information. This program is designed to help employees understand the three key elements of the GHS: Hazard Classification, container labeling and Safety Data Sheets. Topics include the written Hazard Communication plan, physical and health hazard classes, pictograms, signal words and other information found on GHS container labels and the 16 sections of a Safety Data Sheet.

<b>HAZARD COMMUNICATION: YOUR KEY TO CHEMICAL SAFETY (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
14 Minutes	2012	744

Despite years of training on Hazard Communication, employees often ignore the hazards of chemicals in the workplace. This program takes a fresh approach to this topic and gives practical information on the use of chemicals to answer the following four questions: What am I working with? Can it hurt me? How do I protect myself? What do I do if something goes wrong? The program also covers new information on the new Global Harmonization labeling system. (Spanish Version #823 )

<b>HAZARD COMMUNICATION: YOUR KEY TO CHEMICAL SAFETY (SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
14 Minutes	2012	823

Despite years of training on Hazard Communication, employees often ignore the hazards of chemicals in the workplace. This program takes a fresh approach to this topic and gives practical information on the use of chemicals to answer the following four questions: What am I working with? Can it hurt me? How do I protect myself? What do I do if something goes wrong? The program also covers new information on the new Global Harmonization labeling system. (English Version # 744)

<b>HAZCOM (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
15 Minutes	2004	274

This video supplies your employees with the knowledge they need to handle hazardous products. Hazardous chemicals must be appropriately labeled, have a corresponding MSDS and must be used only by people who have been properly trained. Topics covered are: hazards associated with chemicals, labeling and material safety data sheets.

<b>HAZMAT: SAFE AND SECURE (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
15 Minutes	2003	152

This video examines the types of threats that exist for facilities that manufacture, store, use or transport hazardous materials. Other topics included are: types of threats, security vulnerability analysis, facility security tips and screening of employees.

<b>HAZWOPER FIRST RESPONDER: AWARENESS LEVEL (EN/SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
15 Minutes	2005	401

Employees who work in areas where hazardous substances are present need to know how to respond to a hazardous substance emergency. This program explains the five levels of emergency response and what first responders at the awareness level need to know.

<b>HAZWOPER: DEALING WITH THE MEDIA IN EMERGENCY SITUATIONS (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
21 Minutes	2001	179

This DVD will help employees understand the importance of building a good relationship with the media and how to deal with the media during an emergency situation. Topics covered include: The duties and responsibilities of the Public Information Officer (PIO), early response to the media during an incident, unauthorized communication with the media and the consequences of rumors and misinformation.

**HAZWOPER: ELECTRICAL SAFETY IN HAZMAT ENVIRONMENTS (DVD)**

24 Minutes

YEAR

2009

TITLE #

203

This DVD will help employees to understand the hazards associated with the presence of uncontrolled energy in hazardous materials environments, and how to reduce or eliminate these potential hazards. Topics covered include: Arcs, sparks and high temperatures, the National Electrical Code's three HAZMAT classes, engineering controls, safe work practices, intrinsically safe electrical systems, isolating machinery, purging, inserting and pressurization, confined spaces and uncontrolled electrical sources.

**HAZWOPER: FIRE PREVENTION (DVD)**

15 Minutes

YEAR

2000

TITLE #

201

This DVD will help employees to understand the special hazards that can be created when hazardous materials catch fire and what can be done to help prevent this from occurring. Topics covered in these products include: The three components of fire, sources of ignition and types of fuel, the four classes of fires, approved storage containers, safety measures to take during a chemical spill, using fire extinguishers, evacuation procedures.

**HAZWOPER: FIRE PREVENTION (DVD)**

23 Minutes

YEAR

2000

TITLE #

194

This DVD helps employees understand the need to guard against heat-related illnesses and what steps they can take to protect themselves in work environments with hazardous materials. Topics covered include: the double edged sword of PPE, how the body reacts to heat, the role of fluids and minerals, preventing heat-related illnesses, heat rash, heat exhaustion and heat stroke and recognizing symptoms as well as first aid and acclimatization.

**HAZWOPER: HAZMAT LABELING (SP VHS)**

23 Minutes

YEAR

2001

TITLE #

28

This training program is designed to present information on the nature of hazardous materials and help employees reduce or eliminate potential exposure to hazardous materials in their work environments. Topics include proper HAZMAT labeling, Hazardous Materials Identification System (HMIS) and target organ information labels.

**HAZWOPER: SAFETY ORIENTATION (DVD)**

21 Minutes

YEAR

1999

TITLE #

181

This DVD helps employees understand how to reduce or eliminate potential exposure to hazardous materials in their work environments. Topics covered include: Preparing to work with hazardous materials, avoiding bad mental habits and complacency, working at the right pace, controlling emotions, adjusting to the limitations of personal protective equipment, mental discipline and acquiring information you need to work safely.

**HAZWOPER: THE ANSI MATERIAL SAFETY DATA SHEET (DVD)**

13 Minutes

YEAR

2001

TITLE #

189

Educate employees about the ANSI MSDS format and review how the information in an MSDS can help them work safely with potentially hazardous chemicals. Topics covered include: Importance of the MSDS, the MSDS's role in the Hazard Communication Standard, advantages of the ANSI format, four basic questions the ANSI MSDS answers and a review of the sections in the ANSI Material Safety Data Sheet.

**HAZWOPER: THE EMERGENCY RESPONSE PLAN (DVD)**

15 Minutes

YEAR

2000

TITLE #

209

This DVD will help employees understand how emergency planning can reduce or eliminate potential exposure to hazardous materials in crisis situations. Topics covered include: The purpose of an emergency response plan, the chain of command and the responsibilities of individuals like the Incident Commander, the HAZMAT Specialist, the HAZMAT Technician and the First Responder. Also covers communication procedures, the buddy system and personal protective equipment.

**HAZWOPER: THE SITE SAFETY AND HEALTH PLAN (DVD)**

19 Minutes

YEAR

2000

TITLE #

243

This DVD discusses various types of medical surveillance and how it is used to evaluate the health of anyone who regularly works around hazardous materials. Topics covered include: Plan guidelines and goals, medical surveillance, job hazard analysis, the five levels of training and responsibilities for HAZMAT Emergency Responders, site evaluation, personal protective equipment, spill cleanup procedures and decontamination.

**HEXAVALENT CHROMIUM AWARENESS (EN/SP DVD)**

17 Minutes

YEAR

2007

TITLE #

37

Workers who are exposed to Hexavalent Chromium are at risk for lung cancer, permanent eye damage and skin ulcerations. Protect your workers and comply with the OSHA standards -- 1910.1026 for general industry, 1915.1026 for shipyards and marine terminals and 1926.1126 for construction -- with this cutting-edge training program.

<b>MATERIALS HANDLING SAFETY (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
14 Minutes	2001	123

This program presents employees with basic information on materials handling and the hazardous situations that may arise if safety procedures are not followed. Topics include: recognizing hazardous situations, good lifting and moving techniques, using materials handling equipment safely and the types of equipment to help complete the job.

<b>PSM &amp; RMP AWARENESS (EN/SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
14 Minutes	2007	148

This important training program teaches your workers the best safety practices necessary to prevent a hazardous chemical fire, explosion or accidental release, and how to minimize damage if a spill occurs. Employees learn how to protect themselves and their facility in the event of a chemical release and also how to protect the people and environment beyond the facility. Facilitator guide included. Complies with OSHA 29 CFR 1910.119 Process Safety Management & EPA 40 CFR 68.

<b>SILICA SAFETY AWARENESS (EN/SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
14 Minutes	2008	693

This program will help educate your workers about the hazards of crystalline silica in the workplace in order to avoid unnecessary illness and death. Workers are provided with detailed information about silica, exposures and health effects.

<b>SPCC CONTROLLING OIL (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
20 Minutes	2006	360

Federal regulations require that employees at facilities that have the capacity to store or handle in excess of 1320 gallons of any oil or oil product (gasoline, heating oil, lubricants, residual fuels, vegetable and animal oils and other oils) be trained on effective spill prevention measures. This DVD instructs employees on SPCC Plans, oil pollution regulations, effective oil storage and oil transfer procedures. It instructs employees on discharge procedure protocols: first response measures to take when a discharge is discovered.

<b>THE EMERGENCY RESPONSE PLAN (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
15 Minutes	2006	61

This DVD helps employees understand how emergency planning can reduce or eliminate potential exposure to hazardous materials in crisis situations. Topics covered include: the purpose of an emergency response plan, the chain of command, responsibilities of the incident commander, and responsibilities of the HAZMAT specialist, communication procedures and the buddy system, PPE and more.

<b>UNDERSTANDING HAZCOM LABELS (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
7 Minutes	2001	990

This video introduces employees to the hazard warning labels required by OSHA's Hazard Communication Standard. This video reviews situations when an employee may need to re-label containers, labeling after transferring chemicals and labeling exemptions. The video concludes with a list of precautions employees can take to protect themselves from chemical exposure.

<b>UNDERSTANDING YOUR FACILITY'S STORMWATER PREVENTION PLAN (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
21 Minutes	2011	628

All employees need to know the overall scope of your organization's Stormwater Pollution Prevention Plan and the role each person plays in its success. Pollution spread by contaminated stormwater is a real problem and providing your employees with an understanding of your facility's plan is the purpose of this program. Topics include the National Pollution Discharge Elimination System, the Multi-Sector General Permit, stormwater pollution prevention teams, site assessments of potential sources of stormwater pollution, various methods of minimizing pollutant exposure, spill and leak response and the three types of stormwater discharge inspections.

<b>UNDERSTANDING YOUR FACILITY'S STORMWATER PREVENTION PLAN CONCISE VERSION (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
12 Minutes	2011	755

All employees need to know the overall scope of your organization's Stormwater Pollution Prevention Plan and the role each person plays in its success. Pollution spread by contaminated stormwater is a real problem and providing your employees with an understanding of your facility's plan is the purpose of this program.

<b>US CHEMICAL SAFETY BOARD SAFETY VIDEO COLLECTION (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
	2011	622

This DVD includes the Chemical Safety Board (CSB) complete video collection covering several topics including: fire, static sparks, reactive hazards, public worker safety, dangers of propylene cylinders, confined spaces, hot work, combustible dust and many more. This DVD includes 26 short videos released by the CSB between 2005-2011.

<b>WARNING LABELS AND SIGNS: GET THE MESSAGE (EN/SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
17 Minutes	2005	661

In this program, workers learn how to identify signs and tags and understand what they mean in the workplace such as HazCom labeling requirements, NFPA labeling system, HazMat labeling system, and SmartRTK labeling system.

**WHAT TO DO WHEN SPILLS OCCUR (VHS)**

7 Minutes

YEAR

2001

TITLE #

987

This video covers the different types of hazards, how to handle them, and what to do to avoid exposure. The video also covers notifying the appropriate personnel in case of a spill, spill cleanup procedures, or emergency response, depending upon the substance and size of the spill.

**CLIMATE & WEATHER****COLD STRESS - WORKING SAFELY IN COLD WEATHER**

8 Minutes

YEAR

2014

TITLE #

753

Anyone who works outside on a regular basis knows - at some point or another - you're going to experience cold and wet weather conditions. These working conditions can threaten your ability to do your job safely, as cold can have negative effects on the body. This is known as cold stress. Cold and wet weather can begin to have negative effects on the body in temperatures as high as 59 degrees Fahrenheit. This safety video trains employees to understand and recognize why it's important to keep an eye out for the effects of cold stress.

Topics covered also include:

- Hypothermia Prevention
- Hypothermia Symptoms
- Frostbite
- Frostbite Symptoms
- Frostbite Treatment
- Trench Foot
- Trench Foot Treatment

**COLD STRESS (EN/SP DVD)**

15 Minutes

YEAR

2007

TITLE #

87

Protect your workers from such chilling hazards like frostbite and hypothermia and prevent costly accidents. Hazards from environmental conditions, hypothermia and frostbite, can set in without warning and are not limited to winter alone. They can occur in any season, in different environments such as freezers or refrigerators, and when working underground or outdoors. This program will specifically cover frostbite, protecting yourself, hypothermia and best practices.

**HEAT STRESS (DVD)**

13 Minutes

YEAR

2010

TITLE #

598

The body is a powerful machine, capable of performing massive amounts of work. Like any machine, when it's pushed hard, your body can produce a lot of heat. Whether you're outside under a hot sun, inside a busy factory, or bundled up against the cold, you need to be careful when your body heats up. In this program you will learn how heat affects the body, the steps employees can take to prevent heat stress and elementary first aid that can be given to a worker who has been affected by a heat-related illness. Topics covered: situations leading to heat-related illnesses, heat stress, heat exhaustion and heat stroke, heat-related illnesses, preparing to work in hot environments, engineering controls, and treating heat-related illnesses.

**HEAT STRESS (DVD)**

13 Minutes

YEAR

2010

TITLE #

300

This program reviews how heat affects the body, the steps employees can take to prevent heat stress and elementary first aid that can be given to a worker who has been affected by a heat-related illness. Topics covered in these products include: situations leading to heat-related illnesses, heat stress, heat exhaustion and heat stroke, other heat-related illnesses, preparing to work in hot environments, engineering controls, treating heat-related illnesses, and more.

**HEAT STRESS (SP VHS)**

9 Minutes

YEAR

1999

TITLE #

114

This program explains how to protect your body in high temperature and high humidity environments. Specifically how to avoid heat stroke, heat exhaustion, and how to use basic first aid procedures.

**HEAT STRESS (VHS)**

9 Minutes

YEAR

1999

TITLE #

113

This program explains how to protect your body in high temperature and high humidity environments. Specifically how to avoid heat stroke, heat exhaustion, and how to use basic first aid procedures.

**HEAT STRESS 1997 (VHS)**

10 Minutes

YEAR

1997

TITLE #

759

Learn how heat stress occurs when the body's cooling system cannot keep up with the body's rising temperature and how to recognize the signs, symptoms and corrective actions.

<b>HEAT STRESS CODE RED (EN/SP DVD)</b> 14 Minutes	<u>YEAR</u> 2008	<u>TITLE #</u> 293
Heat stress, heat stroke, heat rashes, heat cramps are all dangerous to your employees health. This program will give them the knowledge they need to avoid the dangers of working in hot, humid conditions.		
<b>HEAT STRESS: DON'T LOSE YOUR COOL (EN/SP DVD)</b> 15 Minutes	<u>YEAR</u> 2007	<u>TITLE #</u> 477
This program will go over proper work procedures, fluid intake, eating habits and proper clothing. Gives information on sunburn, heat rash, exhaustion and stroke.		
<b>HEAT STRESS: PREVENTATIVE MEASURES (EN/SP DVD)</b> 15 Minutes	<u>YEAR</u> 2008	<u>TITLE #</u> 34
This program covers: what is heat stress, preparing for heat, heat stress disorders, and safe work practices. It is not just workers performing jobs outdoors under the sun who are at risk for heat stress, but those working indoors around boilers, steel, and many manufacturing processes as well.		
<b>HEAT STRESS: REAL ACCIDENTS REAL STORIES (DVD)</b> 15 Minutes	<u>YEAR</u> 2010	<u>TITLE #</u> 89
This program features a set of personal accounts of incidents when safety was neglected in high temperature situations, both indoors and outdoors, and includes commentary on what workers need to know about heat stress symptoms and prevention. Viewers will gain an understanding of the many hazards of working in the heat, including dehydration, heat cramps, heat stroke, and heat exhaustion. This program also covers how to potentially minimize these hazards.		
<b>HEAT STRESS: STAYING HEALTHY, WORKING SAFELY (DVD)</b> 14 Minutes	<u>YEAR</u> 2007	<u>TITLE #</u> 442
This presentation provides general safety instruction to anyone who works in a hot environment, whether that environment is indoor or outdoor. This DVD covers the various types of heat stress, what their symptoms are, how the body operates in a hot environment, what workers can do to prevent heat stress from occurring and what measures to take if they recognize heat stress symptoms in themselves or a coworker.		
<b>HEAT STRESS: STAYING HEALTHY, WORKING SAFELY (SP DVD)</b> 14 Minutes	<u>YEAR</u> 2009	<u>TITLE #</u> 79
The information in this DVD provides general safety instruction to anyone who works in a hot environment, whether that environment is indoor or outdoor. This presentation covers the various types of heat stress, what their symptoms are, how the body operates in a hot environment, what workers can do to prevent heat stress from occurring and what measures to take if they recognize heat stress symptoms in themselves or a coworker.		
<b>HEAT STRESS: THE FACTS (DVD)</b> 17 Minutes	<u>YEAR</u> 2011	<u>TITLE #</u> 246
More illnesses are surfacing from employees working in abnormally high temperatures, such as in a hot warehouse or warm assembly environment. This video discusses heat stroke, heat stress, fainting, and precautions to take when working in a hot environment. (Spanish version #854)		
<b>HEAT STRESS: THE FACTS (DVD)</b> 12 Minutes	<u>YEAR</u> 2010	<u>TITLE #</u> 474
More illnesses are surfacing from employees working in abnormally high temperatures, such as in a hot warehouse or warm assembly environment. This video discusses heat stroke, heat stress, fainting, and precautions to take when working in a hot environment.		
<b>HEAT STRESS: THE FACTS (SP DVD)</b> 18 Minutes	<u>YEAR</u> 2011	<u>TITLE #</u> 854
More illnesses are surfacing from employees working in abnormally high temperatures, such as in a hot warehouse or warm assembly environment. This video discusses heat stroke, heat stress, fainting, and precautions to take when working in a hot environment. (English version #246).		
<b>SEVERE WEATHER ALERT: ARE YOU PREPARED? (CONSISE DVD)</b> 8 Minutes	<u>YEAR</u> 2003	<u>TITLE #</u> 210
This program offers some facts, tips and warnings that can help you survive serious weather emergencies. Topics include severe weather watches and warnings, hazards posed by thunderstorms, flooding and moving water, being prepared for tornadoes, emergency response plans and precautions to take once a storm has passed.		

<b>SEVERE WEATHER ALERT: ARE YOU PREPARED? (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
15 Minutes	2003	367
This program offers some facts, tips and warnings that can help you survive serious weather emergencies. Topics include severe weather watches and warnings, hazards posed by thunderstorms, flooding and moving water, being prepared for tornadoes, emergency response plans and precautions to take once a storm has passed.		
<b>THE SKILL OF SURVIVAL: A GUIDE TO HOT WEATHER SURVIVAL (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
29 Minutes	2004	138
This video was filmed in Utah and describes the survival skills needed to stay alive in the desert. Topics include: finding water, survival gear, fire building, signaling, shelter protection, desert driving skills, heat diseases and much more.		
<b>UNDERSTANDING &amp; PREVENTING HEAT-RELATED ILLNESS (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
16 Minutes	2011	674
As hot conditions intensify this summer and we continue to perform our regular job duties, the potential for heat-related illness rises dramatically. Collectively known as heat stress, these illnesses are serious and can even cause death in some cases. Your employees must be vigilant in their efforts to prevent them. This program discusses how hot conditions affect the human body, the symptoms of heat-related ailments and what to do if we start to experience them, how to treat victims of heat stress and most importantly, the precautions that must be taken to avoid problems when working in hot environments. Other topics include becoming acclimated to the heat, use of the buddy system, preventing heat stress at indoor facilities and specialized clothing and protective devices for working in hot conditions		
<b>UNDERSTANDING &amp; PREVENTING HEAT-RELATED ILLNESS CONCISE VERSION (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
9 Minutes	2011	86
As hot conditions intensify this summer and we continue to perform our regular job duties, the potential for heat-related illnesses rises dramatically. Collectively known as heat stress, these illnesses are serious and can even cause death in some cases. Your employees must be vigilant in their efforts to prevent them. This program discusses how hot conditions affect the human body, the symptoms of heat-related ailments and what to do if we start to experience them, how to treat victims of heat stress and most importantly, the precautions that must be taken to avoid problems when working in hot environments. Concise version of title #674.		
<b>WINTER SAFETY (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
16 Minutes	2009	539
This program shows employees how to plan ahead, look for potential hazards and avoid dangerous situations that occur during the winter holiday season. Topics covered in these products include: surviving in the cold, keeping your workplace safe in icy conditions, dressing for the weather, driving in winter weather, holiday decorations, celebrating the season safely and more.		
<b>WINTER SAFETY (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
13 Minutes	2009	355
Over the years employers have discovered that their employees miss more time from work as a result of "off-the-job" accidents than due to injuries experienced on the job. Many of these accidents occur during the winter holidays, as employees do things that they are not familiar with or haven't done "since last year". Fortunately, most of these accidents can be prevented. This program will show employees how to plan ahead, look for potential hazards and avoid dangerous situations that occur during the winter holiday season. Topics include: surviving in the cold, keeping your workplace safe in icy conditions, dressing for the weather, driving in winter weather, holiday decorations, and celebrating the season safely.		
<b>WINTER SAFETY (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
13 Minutes	2009	420
Employees miss more time from work as a result of off-the-job accidents than due to injuries experienced on-the-job. Many of these accidents occur during the winter holidays, as employees do things that they are not familiar with or haven't done since last year. This DVD shows employees how to plan ahead, look for potential hazards and avoid dangerous situations that occur during the winter holiday season.		
<b>WINTER SAFETY (SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
14 Minutes	2008	140
Winter and cold weather safety programs show employees how to plan ahead, look for potential hazards of winter driving and avoid dangerous situations that occur during the winter holiday driving safety season. Topics covered include: surviving in the cold, driving in winter weather, holiday decorations and celebrating the season safely.		
<b>WINTER WALKING (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
7 Minutes	1995	610
Produced in cooperation with the US Postal Service, this video updates the training used by the USPS for nearly two decades. Highlights include entering and exiting a vehicle, steps, turns and falls.		
<b>WORKING SAFELY IN COLD WEATHER (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
15 Minutes	2008	928
This presentation will teach employees what to have with them to help prevent hypothermia and frostbite. Great for all who work outdoors. It will also demonstrate what frostbite and hypothermia looks like, the signs and being prepared. Duplicate of DVD #606.		

<b>WORKING SAFELY IN COLD WEATHER (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
15 Minutes	2008	606

This presentation will teach employees what to have with them to help prevent hypothermia and frostbite. Great for all who work outdoors. It will also demonstrate what frostbite and hypothermia looks like, the signs and being prepared. Duplicate of DVD #928.

<b>WORKING SAFELY IN COLD WEATHER (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
26 Minutes	2009	80

This presentation will explain how the systems of the body work in cold conditions, how to spot frostbite and other cold-related illness, as well as how to properly dress and work in the cold months. Prevention is emphasized as viewers are shown signs of distress to look for in themselves or their co workers and how to safely handle such situations. Duplicate of DVD #147.

<b>WORKING SAFELY IN COLD WEATHER (SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
26 Minutes	2009	147

This presentation will explain how the systems of the body work in cold conditions, how to spot frostbite and other cold-related illness, as well as how to properly dress and work in the cold months. Prevention is emphasized as viewers are shown signs of distress to look for in themselves or their coworkers and how to safely handle such situations. Duplicate of DVD #80.

<b>WORKING SAFELY IN HOT ENVIRONMENTS (CONCISE DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
9 Minutes	2002	786

This program shows viewers how to prevent and respond to various heat-related problems by using prevention techniques; how to recognize the signs and symptoms of heat stress; and what first aid procedures to administer when assisting victims of specific heat-related illnesses. This video uses several heat-related illness scenarios to illustrate the importance of staying alert, using good judgment and knowing the warning signs of heat stress when working in hot environments.

<b>WORKING SAFELY IN HOT ENVIRONMENTS (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
15 Minutes	2002	368

This program shows viewers how to prevent and respond to various heat-related problems by using prevention techniques; how to recognize the signs and symptoms of heat stress; and what first aid procedures to administer when assisting victims of specific heat-related illnesses. This video uses several heat-related illness scenarios to illustrate the importance of staying alert, using good judgment and knowing the warning signs of heat stress when working in hot environments.

### CONFINED SPACE

<b>BASIC TRAINING ABOUT CONFINED SPACES AND THE ENTRY PERMIT SYSTEM (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
20 Minutes	2002	720

This video is designed to make viewers aware of confined space hazards and the steps that must be taken to prevent these hazards from resulting to injuries and deaths. Each 3-4 minute block of instruction is followed by a review with an optional test at the end.

<b>CONFINED SPACE ATMOSPHERIC TESTING (EN/SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
19 Minutes	2011	519

A hazardous and potentially deadly atmosphere is a risk that exists every time your employees enter a confined space. Nine out of ten confined space fatalities are due to hazardous atmospheres. Atmospheric testing can be one of the best lines of defense against this dangerous working condition. This program will educate individuals on the basics and importance of proper atmospheric testing techniques for confined spaces.

<b>CONFINED SPACE ENTRY: A DEADLY SITUATION</b>	<u>YEAR</u>	<u>TITLE #</u>
20 Minutes	2015	907

Working in spaces such as manholes, tanks, ducts and pits is just a part of the job for the workers in many industries. No matter how familiar employees may be with a space, there will always be risks. The hazards in a confined space can be deadly. However, careful planning, the right equipment and thorough training will decrease the hazards inside confined spaces. This DVD comes with an Attendance Log, Completion Certificate and Quiz.

Topics covered also include:

- Confined Space Hazards
- Confined Space Protection
- Confined Space Ventilation
- Confined Space Entry

<b>CONFINED SPACE ENTRY: INSIDE MANEUVERS (SP VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
23 Minutes	1997	543

This program uses the USS Atlanta, a United States Naval submarine, and its crew as a dramatic backdrop to compare the dangers of working in a submarine to that of working in a confined space. Topics include: space hazards, atmospheric testing, confined space entry permit requirements, PPE, rescue and team responsibilities.

**CONFINED SPACE ENTRY: INSIDE MANEUVERS (VHS)**

23 Minutes

YEAR

1997

TITLE #

525

This program uses the USS Atlanta, a United States Naval submarine, and its crew as a dramatic backdrop to compare the dangers of working in a submarine to that of working in a confined space. Topics include: space hazards, atmospheric testing, confined space entry permit requirements, PPE, rescue and team responsibilities.

**CONFINED SPACE ENTRY: INVESTIGATION (VHS)**

22 Minutes

YEAR

2003

TITLE #

169

This video investigates two real confined space incidents--what happened, what went wrong and how they could have been prevented. Through these examples, employees will learn how to safely work in confined spaces. Topics include: the definition of a confined space area, when things go wrong, areas to investigate and surviving in a confined space.

**CONFINED SPACE ENTRY: PLAN AND PREPARE(DVD)**

21 Minutes

YEAR

2010

TITLE #

595

This program shows your employees why it is vital to follow procedure when working in a confined space. Every year needless injuries and fatalities occur in confined spaces and often, these spaces seem safe or even harmless. But looks can be deceiving - help your employees understand what a confined space is, the hazards that are associated with it and the steps to follow to maintain a safe work environment. Topics include: identifying confined spaces, identifying hazards and the confined space entry permit.

**CONFINED SPACE FOR CONSTRUCTION**

27 Minutes

YEAR

2015

TITLE #

765

OSHA's new rule on confined spaces in construction is in full effect as of October 2nd. This training video covers the changes in this rule. Construction and general industry employees both need to know about confined space entry rules and how the old and new standards relate to each other. Make sure your team stays safe in confined spaces, and keep compliant with the new OSHA regulation. Included on the DVD will be a Leader's Guide, End of Course Quiz, Completion Certificate, and Attendance Log.

Topics covered also include:

- Permit-Required Confined Space regulations
- Testing for hazardous atmospheres
- Making a space as safe as possible
- Step-by-step approach to safe entry
- And more!

**CONFINED SPACE FOR CONSTRUCTION**

27 Minutes

YEAR

2015

TITLE #

916

OSHA's new rule on confined spaces in construction is in full effect as of October 2nd. This training video covers the changes in this rule. Construction and general industry employees both need to know about confined space entry rules and how the old and new standards relate to each other. Make sure your team stays safe in confined spaces, and keep compliant with the new OSHA regulation. Included on the DVD will be a Leader's Guide, End of Course Quiz, Completion Certificate, and Attendance Log.

Topics covered also include:

- Permit-Required Confined Space regulations
- Testing for hazardous atmospheres
- Making a space as safe as possible
- Step-by-step approach to safe entry
- And more!

**CONFINED SPACE: ATMOSPHERIC TESTING (DVD)**

18 Minutes

YEAR

2011

TITLE #

845

A hazardous and potentially deadly atmosphere is a risk that exists every time your employees enter a confined space. In fact, nine out of ten confined space fatalities are due to hazardous atmospheres. Atmospheric testing can be one of the best lines of defense against this dangerous working condition. This DVD will help educate individuals on the basics and importance of proper atmospheric testing techniques for confined spaces. Topics include: identifying confined spaces, identifying and testing for atmospheric hazards, and safety procedures and equipment needed.

**CONFINED SPACE: ENTRY INVESTIGATION (EN/SP DVD)**

23 Minutes

YEAR

2004

TITLE #

414

Two confined space accidents teach employees how to work safely in confined spaces and how they can prevent serious accidents from occurring. The investigation reveals what happened, what went wrong, and how these accidents could have been prevented.

**CONFINED SPACE: PLAN AND PREPARE (DVD)**

21 Minutes

YEAR

2010

TITLE #

232

This program shows your employees why it is vital to follow procedure when working in a confined space. Every year needless injuries and fatalities occur in confined spaces and often, these spaces seem safe or even harmless. But looks can be deceiving - help your employees understand what a confined space is, the hazards that are associated with it and the steps to follow to maintain a safe work environment. Topics include: identifying confined spaces, identifying hazards and the confined space entry permit.

2011

TITLE #

592

A hazardous and potentially deadly atmosphere is a risk that exists every time your employees enter a confined space. Nine out of ten confined space fatalities are due to hazardous atmospheres. Atmospheric testing can be one of the best lines of defense against this dangerous working condition. This program will educate individuals on the basics and importance of proper atmospheric testing techniques for confined spaces.

**CONFINED SPACES: DANGEROUS PLACES (DVD)**

25 Minutes

YEAR

2007

TITLE #

69

This program helps you comply with OSHA's confined spaces training requirements. It provides an important training foundation for authorized entrants, attendants, entry supervisors, and rescue services and emergency personnel - anyone with the potential to encounter a permit space. The training video's unique "risk control" approach draws employees into a compelling risk scenario, a dramatic enactment that helps improve attention and retention. CONFINED SPACES: DANGEROUS PLACES (DVD)

**CONFINED SPACES: DANGEROUS PLACES (SP DVD)**

25 Minutes

2007

TITLE #

688

This program helps you comply with OSHA's confined spaces training requirements. It provides an important training foundation for authorized entrants, attendants, entry supervisors, and rescue services and emergency personnel - anyone with the potential to encounter a permit space. The training video's unique "risk control" approach draws employees into a compelling risk scenario, a dramatic enactment that helps improve attention and retention.

**CONFINED SPACES: RISK AND RESPONSIBILITIES (DVD)**

19 Minutes

YEAR

2009

TITLE #

81

This DVD teaches employees the risks and responsibilities when working in confined spaces. Topics include: Observers role, awareness of different potentially hazardous chemicals, and maintaining your role (for example it is not the observers responsibility to rescue, that job is for properly trained personnel).

**HIGH-IMPACT CONFINED SPACE ENTRY (VHS)**

19 Minutes

YEAR

2000

TITLE #

951

In this video, viewers will see how simple mistakes lead to major injuries and death during a confined space entry operation. The video opens with an emergency alarm indicating that something has gone wrong in the tank where two maintenance mechanics are working. It appears that an explosion has occurred and contact has been lost with the two workers. The attendant calls the rescue team and then makes the bad decision to go in after his buddies.

**SURVIVE INSIDE: EMPLOYEE SAFETY IN CONFINED SPACES (CONSISE VERSION DVD)**

10 Minutes

YEAR

2012

TITLE #

821

Confined spaces can be dangerous, but they don't have to be. No matter what role employees play in their organization's confined space entry program, they must understand their responsibilities and have the knowledge and skills to perform them properly. This program explains why entering confined spaces can be so hazardous and how those hazards can be controlled by following proper confined space entry procedures.

**SURVIVE INSIDE: EMPLOYEE SAFETY IN CONFINED SPACES (DVD)**

**TO THE POINT ABOUT: CONFINED SPACE ENTRY (EN/SP DVD)**

12 Min

YEAR

2015

TITLE #

530

Working in spaces such as manholes, tanks, ducts and pits is just a part of the job for the workers in many industries. No matter how familiar employees may be with a space, there will always be risks. The hazards in a confined space can be deadly. However, careful planning, the right equipment and thorough training will decrease the hazards inside confined spaces. This DVD comes with an Attendance Log, Completion Certificate and Quiz.

Topics covered also include:

- Confined Space Hazards
- Confined Space Protection
- Confined Space Ventilation
- Confined Space Entry

**CONSTRUCTION****CONSTRUCTION SAFETY ESSENTIALS (DVD)**

23 Minutes

YEAR

2003

TITLE #

576

This program highlights the main problem areas and provides effective and practical advice to help reduce construction site injuries. This program is ideal for site induction purposes and for use as a general safety refresher. Vital information is presented in an easy to understand manner and real life accident situations are graphically portrayed to help highlight specific safety hazards.

**CONTRACTOR SAFETY: IT'S EVERYBODY'S BUSINESS (DVD)**

20 Minutes

YEAR

2004

TITLE #

184

Keeping employees safe on a worksite with two or more employers can be challenging. This video will alert workers to the most common safety hazards, the best way to avoid those hazards and the requirements of the general contractor.

**CRANE SAFETY FOR THE CONSTRUCTION INDUSTRY (DVD)**

14 Minutes

YEAR

2008

TITLE #

542

Crane safety in construction environments reminds employees that over 90% of crane-related accidents are caused by human error... and that they are the key to preventing these incidents. Topics covered in these products include: equipment inspection, general and operational safety devices, general operating procedures, and working with boom cranes.

**CRANE SAFETY FOR THE CONSTRUCTION INDUSTRY (SP DVD)**

14 Minutes

YEAR

2008

TITLE #

965

Crane safety in construction environments reminds employees that over 90% of crane-related accidents are caused by human error... and that they are the key to preventing these incidents. Topics covered in these products include: equipment inspection, general and operational safety devices, general operating procedures, and working with boom cranes.

**DIGGING BAR/PICK SAFETY (VHS)**

7 Minutes

YEAR

1997

TITLE #

733

This video includes: types of digging bars, keeping tools sharp, using grinders, inspecting for splinters and loose heads, personal protective equipment and preventing strains and sprains.

**ELECTRICAL SAFETY FOR THE CONSTRUCTION WORKER (DVD)**

20 Minutes

YEAR

2007

TITLE #

106

This program enables field-level employees to recognize and promote safe electrical practices in and around the construction site. It addresses site-specific hazards and controls and provides real-world solutions.

**EXCAVATIONS: SAFE WORK ESSENTIALS (EN/SP DVD)**

15 Minutes

YEAR

2008

TITLE #

135

Cave-in prevention is the critical message of this comprehensive program. Several different forms of shoring in a variety of different work sites demonstrate best safety practices to follow on-the-job. This program will specifically cover protective systems, regulatory requirements and best safety practices. Complies with OSHA 29 CFR1926.652.

**EYE SAFETY FOR THE CONSTRUCTION INDUSTRY (DVD)**

15 Minutes

YEAR

2008

TITLE #

487

This presentation shows how many eye problems are caused by not paying attention to the work employees are doing, or not wearing the appropriate protective equipment. Topics covered in these products include: who is affected by eye problems and how, how the eye works, eyestrain, wearing contact lenses at work, physical and radiation hazards and personal protective equipment.

<b>EYE SAFETY FOR THE CONSTRUCTION INDUSTRY (SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>

<b>FIVE STEPS TO A SUCCESSFUL INCIDENT INVESTIGATION (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
23 Minutes	2012	950
<p>Companies need guidance on how to investigate a job site accident properly. This program helps you better prepare contractors for investigating accidents on their jobsite, including root cause analysis. Accidents occur on construction jobsites every day. The failure of people, equipment, supplies, or surroundings causes most of them. Incident investigations determine how and why these failures occur. By using the information gained through an investigation, a similar, or perhaps more disastrous, accident may be prevented.</p>		
<b>FLAGGER SAFETY (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
15 Minutes	2010	626
<p>This DVD provides training for anyone who is assigned the task of traffic control/flagger. Topics include proper use of equipment, operating rules and the importance of a professional attitude.</p>		
<b>FOR THE SAKE OF YOUR LOVED ONES (SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
30 Minutes	2008	18
<p>A factory foreman from Mexico and several others tell us about the impact of injury on a workers family, reasons for high injury rates among Latino workers, the importance of communication in the workplace, safety procedures in a variety of situations, importance of personal protective equipment and reporting dangerous conditions.</p>		
<b>FOR THE SAKE OF YOUR LOVED ONES (SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>

**HEIGHTENED AWARENESS: FALL PROTECTION & PREVENTION (EN/SP DVD)**

36 Minutes

**YEAR**  
2010**TITLE #**  
677

This program is designed to review the basics of OSHA's Fall Protection requirements. Understand the rules, know the available systems, and plan the work with proper fall protection in mind.

**HIGHWAY WORK ZONE SAFETY: THE BASICS (EN/SP DVD)**

14 Minutes

**YEAR**  
2005**TITLE #**  
651

Hundreds of people are killed every year in highway construction accidents. Learn about being safety conscious, traffic control devices, slowing down traffic, detours and closures and communication.

**HOUSEKEEPING ON THE JOBSITE: A PLAN FOR SUCCESS (EN/SP DVD)**

23 Minutes

**YEAR**  
2009**TITLE #**  
724

This DVD provides a realistic road map to planning, coordinating, and implementing a housekeeping plan, using logistics planning as a basis for overall site and personal housekeeping priorities. Use this video in orientations or tool box talks to help staff identify common hazards and prevent employee injuries associated with housekeeping.

**INDUSTRIAL CRANE SAFETY (CONSISE VERSION DVD)**

10 Minutes

**YEAR**  
2007**TITLE #**  
552

Cranes and lifting devices are powerful, rugged machines that are critical to many industrial and construction operations. Just as crucial to these processes is the crane operator, because an improperly rigged or hoisted load can have monumental and often deadly consequences. Crane operators must be committed to moving loads in a safe, controlled manner in order to avoid injuries and property damage. This video demonstrates the safe work practices and precautions necessary to keep these employees and their co-workers out of harm's way while cranes and hoists are being rigged or operated.

**INDUSTRIAL CRANE SAFETY (DVD)**

20 Minutes

**INSTALLING HYDRAULIC SHORING (EN/SP DVD)**

20 Minutes

**YEAR**  
2007**TITLE #**  
488

Hydraulic shoring supports your structures and prevents the collapse of trench walls. Truly an indispensable tool, but disastrous to misuse. Firm up construction safety rules and shore up your workers' knowledge on the safe use of this method. This video will cover: definition of vertical shores, benefits of vertical shores, what hydraulic walers are, and the benefits of hydraulic walers.

<b>JOB HAZARD ANALYSIS: A BLUEPRINT FOR SUCCESS (DVD)</b> 18 Minutes	<u>YEAR</u> 2010	<u>TITLE #</u> 412
This program explains and illustrates the need for thorough pre-task planning on a daily basis. By including "at risk" employees in the decision-making process, safety and productivity can be improved.		
<b>LADDER SAFETY IN CONSTRUCTION ENVIRONMENTS (SP DVD)</b> 13 Minutes	<u>YEAR</u> 2008	<u>TITLE #</u> 747
This presentation shows that many employees take ladders for granted, and do not take the appropriate precautions when using ladders. Topics covered in these products include: ladder selection, inspection before use, setting up and moving ladders, climbing on ladders and ladder accidents.		
<b>LOAD SECUREMENT: KNOW BEFORE YOU GO (DVD)</b> 18 Minutes	<u>YEAR</u> 2009	<u>TITLE #</u> 731
This program reviews applicable requirements for transporting equipment and materials over the road. Unsecured cargo can injure workers or worse. Make sure you have a plan for safety.		
<b>MAKE THE RIGHT MOVE: MATERIALS HANDLING SAFELY (DVD)</b> 14 Minutes	<u>YEAR</u> 2010	<u>TITLE #</u> 507
This video shows how to safely handle common construction materials and demonstrates the results of materials handled improperly.		
<b>ON THE GO: FORKLIFT SAFETY (DVD)</b> 17 Minutes	<u>YEAR</u> 2009	<u>TITLE #</u> 682
This video covers the safe operation of construction forklifts (rough terrain versions). (Spanish version # 742)		
<b>ON THE GO: FORKLIFT SAFETY (SP DVD)</b> 17 Minutes	<u>YEAR</u> 2009	<u>TITLE #</u> 742
This video covers the safe operation of construction forklifts (rough terrain versions). (English version # 682)		
<b>POWER &amp; HAND TOOL SAFETY (DVD)</b> 20 Minutes	<u>YEAR</u> 2008	<u>TITLE #</u> 982
Protect workers from common everyday hazards created by the use of the hand and power tools with this great DVD. It features practical, safe application of common hand and power tools, including: electrical, pneumatic, gasoline, power activated, hand, battery operated and hydraulics tools.		
<b>RIGGING SAFETY FOR THE CONSTRUCTION INDUSTRY (DVD)</b> 19 Minutes	<u>YEAR</u> 2008	<u>TITLE #</u> 446
This presentation reminds employees that over 90% of rigging-related accidents are caused by human error... and that they are the key to preventing these incidents. Topics covered include: physical and mental preparation, personal protective equipment, equipment inspection, hazard assessment, slings, hitches, hand signals and load angles.		
<b>RIGGING SAFETY FOR THE CONSTRUCTION INDUSTRY (SP DVD)</b> 19 Minutes	<u>YEAR</u> 2008	<u>TITLE #</u> 17
This presentation reminds employees that over 90% of rigging-related accidents are caused by human error... and that they are the key to preventing these incidents. Topics covered include: physical and mental preparation, personal protective equipment, equipment inspection, hazard assessment, slings, hitches, hand signals and load angles.		
<b>RIGHT-TO-KNOW BUILDING AND CONSTRUCTION COMPANIES - A REFRESHER (SP DVD)</b> 17 Minutes	<u>YEAR</u> 2008	<u>TITLE #</u> 424
Right-To-Know for building and construction companies introduces employees to the Right-To-Know regulations and provide training on the various types of chemicals found in building and construction environments. Topics covered include: chemical hazard concepts, the material safety data sheet (MSDS), types of hazardous chemicals, characteristics and effects of various types of chemicals, safe handling practices, container labeling, use of personal protective equipment (PPE), spills and cleanup.		
<b>RIGHT-TO-KNOW BUILDING AND CONSTRUCTION COMPANIES, A REFRESHER (DVD)</b> 17 Minutes	<u>YEAR</u> 2008	<u>TITLE #</u> 587
Right-To-Know for building and construction companies introduce employees to the Right-To-Know regulations and provide training on the various types of chemicals found in building and construction environments. Topics covered include: chemical hazard concepts, the material safety data sheet (MSDS), types of hazardous chemicals, characteristics and effects of various types of chemicals, safe handling practices, container labeling, use of personal protective equipment (PPE), spills and cleanup.		

<b>ROADWAY WORKER SAFETY: IN THE ZONE (EN/SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
24 Minutes	2008	516

Help reduce injuries and fatalities with this vital training program. This program will specifically go over roadwork hazards, flagging, night-work operations, PPE, special training, MSDS and traffic control pattern awareness.

<b>ROADWAY WORKER SAFETY: IN THE ZONE (EN/SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
24 Minutes	2008	703

Roadway work is full of potential hazards — from passing traffic and trenches to electrical wires and hearing loss. Help reduce injuries and fatalities with this vital training program. Topics include: roadwork hazards, flagging, night-work operations, PPE, special training, MSDS, and traffic Control Pattern Awareness.

<b>SAFETY BOB'S CONSTRUCTION SAFETY ORIENTATION (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
22 Minutes	2007	15

With over 25 years of experience as a construction safety professional, Bob Synnett is dedicated to teaching new and inexperienced workers how to stay safe on-the-job. In this program, Bob stresses that construction work is dangerous and that each person is responsible for his or her own safety on-the-job. He discusses a variety of safety issues that are vital in keeping construction workers from getting hurt on-the-job, including PPE, excavation & trenching safety, ladder & scaffolding safety, fall protection, electrical safety and the importance of a good safety attitude.

<b>SAFETY BOB'S CONSTRUCTION SAFETY ORIENTATION (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
22 Minutes	2007	874

With over 25 years of experience as a construction safety professional, Bob Synnett is dedicated to teaching new and inexperienced workers how to stay safe on-the-job. In this program, Bob stresses that construction work is dangerous and that each person is responsible for his or her own safety on-the-job. <b>SAFETY BOB'S CONSTRUCTION SAFETY ORIENTATION (SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
22 Minutes	2007	927

With over 25 years of experience as a construction safety professional, Bob Synnett is dedicated to teaching new and inexperienced workers how to stay safe on-the-job. In this program, Bob stresses that construction work is dangerous and that each person is responsible for his or her own safety on-the-job. He discusses a variety of safety issues that are vital in keeping construction workers from getting hurt on-the-job, including PPE, excavation & trenching safety, ladder & scaffolding safety, fall protection, electrical safety and the importance of a good safety attitude.

<b>SAFETY DURING RENOVATION &amp; DEMOLITION OPERATIONS (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
19 Minutes	2011	839

This DVD provides practical guidance ensuring employee safety during demolition and renovation operations of non-structural work. It addresses high-frequency/exposure hazards, and includes information on controlling moisture and dust hazards.

<b>SAFETY DURING RENOVATION &amp; DEMOLITION OPERATIONS (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
20 Minutes	2007	905

This presentation provides practical guidance, ensuring employee and public safety during demolition and renovation operations (non-structural work). It addresses high-frequency/exposure hazards, and includes information on controlling moisture and dust hazards.

<b>SAFETY FACTORS IN ARC WELDING OPERATIONS (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
11 Minutes	2010	324

This program is a guideline of basic safety measures, designed for safety awareness.

<b>SCISSOR LIFTS IN INDUSTRIAL AND CONSTRUCTION ENVIRONMENTS</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
13 Minutes	2013	656

Working off the ground can be challenging in both industrial and construction work environments. Often, lifting equipment such as Scissor Lifts is used to help workers get to hard to reach and previously unreachable places. However, Scissor Lifts bring their own set of hazards. This video is designed to safely work with these lifts. This program comes with a Leader's Guide, End of Course Quiz, Attendance Log, & Completion Certificate.

Topics covered also include:

- The types of lifts and the training required to operate them.
- The hazards associated with using lifts.
- Pre-start and "worksites" inspections.
- Setting up, operating and moving a scissor lift.
- Working on the ground near a scissor lift.

<b>SEEING IS BELIEVING: SAFELY EXPOSING BURIED UTILITIES (VHS)</b>	<b>YEAR</b>	<b>TITLE #</b>
30 Minutes	2001	326

Knowing the colors and meaning of utility markers is only part of the answer to safe, damage-free digging. Exposing buried utilities in a safe, efficient way is critical. This video covers one-call requirements, vacuum systems, damage response, open trenches and hand digging.

<b>SHAKE HANDS WITH DANGER (DVD)</b>	<b>YEAR</b>	<b>TITLE #</b>
20 Minutes	1970	170

Though produced in 1970, this film was added to our library because of multiple requests from members. This DVD portrays the dangers associated with earthmoving equipment operation, showing many great simulated accidents on construction sites. Some say this presentation is just as relevant today as it was when it was made.

<b>SILICOSIS (DVD)</b>	<b>YEAR</b>	<b>TITLE #</b>
80 Minutes	2004	458

This interactive DVD is a compilation of five previously produced programs. In this interactive DVD you will learn about the dangers and health concerns of silica. Some of the topics include: health effects of silica dust exposure, silicosis in the workplace, protection from silica dust, sources of respirable dust generation, and much more. This DVD contains more than just video; we have included tips for dusty jobs, an interactive quiz, a health hazard awareness section, and informative internet links.

<b>SKID STEER LOADERS: SAFETY IN AND OUT (EN/SP DVD)</b>	<b>YEAR</b>	<b>TITLE #</b>
16 Minutes	2011	572

Whether you're excavating at a job site, tending livestock, laboring indoors, or removing snow, the compact design and versatility of a skid-loader can undermine how dangerous this equipment is to operate when proper precautions aren't taken. This program covers the pre-start inspection, avoiding the biggest danger, preventing rollovers, and best work practices.

<b>SOIL CLASSIFICATION (DVD)</b>	<b>YEAR</b>	<b>TITLE #</b>
11 Minutes	2011	783

A person buried under only a couple of feet of soil can experience enough pressure to the chest to prevent the lungs from expanding and cause suffocation. Heavier soil and boulders can crush us in an instant. Of course we must remember that the average cave-in can drop five yards of soil or more. That's 13,500 pounds of dirt! How quickly can your co-workers dig through five or more yards of dirt to find you? Survival is unlikely. Topics included in this safety video are: competent person, inspections, soil classification, and manual testing.

<b>SOIL CLASSIFICATION (SP DVD)</b>	<b>YEAR</b>	<b>TITLE #</b>
11 Minutes	2011	780

A person buried under only a couple of feet of soil can experience enough pressure to the chest to prevent the lungs from expanding and cause suffocation. Heavier soil and boulders can crush us in an instant. Of course we must remember that the average cave-in can drop five yards of soil or more. That's 13,500 pounds of dirt! How quickly can your co-workers dig through five or more yards of dirt to find you? Survival is unlikely. <b>SUPPORTED SCAFFOLDING SAFETY A REFRESHER FOR THE CONSTRUCTION INDUSTRY (DVD)</b>	<b>YEAR</b>	<b>TITLE #</b>
17 Minutes	2008	646

This presentation helps employees understand the dangers of working with scaffolds, and how these risks can be minimized by knowing the correct ways to erect, maintain and use scaffolding equipment. Topics covered include: responsibilities of a scaffold expert, creating a level and stable foundation, platforms and planking, the danger of power lines, ramps and walkways, platform hazards, personal fall arrest systems and guarding against falling objects.

<b>SUPPORTED SCAFFOLDING SAFETY A REFRESHER FOR THE CONSTRUCTION INDUSTRY (SP DVD)</b>	<b>YEAR</b>	<b>TITLE #</b>
17 Minutes	2008	903

This presentation helps employees understand the dangers of working with scaffolds, and how these risks can be minimized by knowing the correct ways to erect, maintain and use scaffolding equipment. Topics covered include: responsibilities of a scaffold expert, creating a level and stable foundation, platforms and planking, the danger of power lines, ramps and walkways, platform hazards, personal fall arrest systems and guarding against falling objects.

<b>SUSPENDED SCAFFOLDING SAFETY IN CONSTRUCTION- A REFRESHER (DVD)</b>	<b>YEAR</b>	<b>TITLE #</b>
15 Minutes	2008	649

This presentation helps employees understand the dangers of working with scaffolds, and how these risks can be minimized by knowing the correct ways to erect, maintain and use scaffolding equipment. Topics covered include: responsibilities of a scaffold expert, platforms and planking, the danger of power lines, platform hazards, personal fall arrest systems and guarding against falling objects.

**SUSPENDED SCAFFOLDING SAFETY IN CONSTRUCTION- A REFRESHER (SP DVD)**

15 Minutes

YEAR  
2008TITLE #  
238

This presentation helps employees understand the dangers of working with scaffolds, and how these risks can be minimized by knowing the correct ways to erect, maintain and use scaffolding equipment. Topics covered include: responsibilities of a scaffold expert, platforms and planking, the danger of power lines, platform hazards, personal fall arrest systems and guarding against falling objects.

**TAKE THE STEPS: STAIRWAY & LADDER SAFETY (DVD)**

15 Minutes

YEAR  
2005TITLE #  
427

This DVD will help you understand the potential hazards of stairway and ladder use. It explains industry standards for stairway and ladder construction, and reviews techniques and practices for their safe use.

**THE COMPETENT PERSON AND SOIL TESTING (DVD)**

26 Minutes

YEAR  
1992TITLE #  
527

This program defines the Competent Person and his duties in accordance with the Soil Classification provisions in the Appendix of the OSHA Construction Standard for Excavation. Topics include the definition of a Competent Person and his duties, the different types of soil and how to test them, and what to do if a Compliance Officer visits the construction site.

**THE OSHA LEAD STANDARDS - A REFRESHER (SP DVD)**

15 Minutes

YEAR  
2008TITLE #  
929

The OSHA Lead Standard gives employees the information they need to refresh their knowledge of OSHA's regulation, as cost effectively as possible. Topics covered in this DVD include: how lead can affect the body, symptoms of lead exposure, permissible exposure limits and action levels, workplace exposure assessment and air monitoring, the written compliance program selection, use of respirators and other PPE, safe work practices and the medical surveillance program.

YEAR  
2008TITLE #  
582

The OSHA Lead Standard gives employees the information they need to refresh their knowledge of OSHA's regulation, as cost effectively as possible. Topics covered in this DVD include: how lead can affect the body, symptoms of lead exposure, permissible exposure limits and action levels, workplace exposure assessment and air monitoring, the written compliance program selection, use of respirators and other PPE, safe work practices and the medical surveillance program.

**TIPS FROM THE PROS: BACKHOE/LOADER (VHS)**

16 Minutes

YEAR  
2001TITLE #  
193

This video is for the next level of training for the operator with some experience. Topics include tips for planning the job, trenching/backfilling, efficient loader use and craning with backhoes.

**TIPS FROM THE PROS: CRAWLER EXCAVATOR (DVD)**

19 Minutes

YEAR  
2002TITLE #  
200

This video offers tips on how to effectively use and operate excavators. Topics include: inspecting the machine and jobsite, planning the job, maximizing power and motion, trench development and working with stone boxes.

**TO THE POINT ABOUT: LOCKOUT/TAGOUT (EN/SP DVD)**

13 Minutes

YEAR  
2014TITLE #  
767

Workplaces are full of hazards, hazards that can hurt or kill us. One such hazard is the unexpected starting of machines or other unplanned releases of hazardous energy. This program trains your employees in the proper methods to control hazardous energy to prevent injuries and save lives. This program quickly gets to the point about the important topic of Lockout/Tagout and explains OSHA's required training points to your employees. This DVD contains both English and Spanish versions.

Topics covered also include:

- Energy Control Program
- Why LOTO is required
- Affected Employees
- Authorized Employees
- Other Workers
- Lockout/Tagout Devices
- and more

**TRAFFIC CONTROL THRU WORK ZONES (DVD)**

21 Minutes

YEAR  
1995TITLE #  
679

Because drivers are either too busy or have difficulty seeing employees in work zones, workers must be protected through proper traffic control at these sites. This program explains safe work practices and the equipment that goes along with them for work zones close to traffic. The program also discusses the preparations for setting up a safe work zone and how local and national regulations protect workers.

<b>TRANSPORTING CONSTRUCTION EQUIPMENT (DVD)</b>	<b>YEAR</b>	<b>TITLE #</b>
34 Minutes	2007	159

Federal regulations adopted in the summer of 2006 affect everyone transporting construction equipment - whether it's cross country or cross-town. This presentation will help your organization meet these regulations.

<b>TRENCH EMERGENCY (EN/SP DVD)</b>	<b>YEAR</b>	<b>TITLE #</b>
14 Minutes	2006	337

Review the do's and don'ts of the job and save employees lives' and those of their rescuers. This program details: shoring and shielding, examines an actual cave-in and preparing for the rescue team.

<b>TRENCH SAFETY: DON'T DIG YOUR OWN GRAVE (VHS)</b>	<b>YEAR</b>	<b>TITLE #</b>
20 Minutes	1998	908

This program opens with the recreation of a dramatic trench cave-in, then it highlights two real-life accidents. One is a rescue that occurred in Howard County MD; the other a recovery that occurred in Mantua Township, New Jersey. The program features actual on-scene footage and interviews with rescue personnel who recount what the situation was, what they did and how they felt.

<b>TRENCHING &amp; EXCAVATION SAFETY: THE SCOTT MAY STORY (DVD)</b>	<b>YEAR</b>	<b>TITLE #</b>
19 Minutes	2010	503

Trenching and excavation work--it's the starting point of most construction projects. Before you dig, there's a lot you need to know, because the risks, just like the weight of the soil, are too great to take a chance. This type of work is dangerous, with more than 100 workers killed in trench accidents each year. So if you work in a trench or excavation, no matter what your job, you need to know the safety requirements and that's the purpose of this program. Construction Safety Professional Bob Synnett returns to discuss the safety rules for trenching operations and when they apply as well as to share the lessons learned from the story of Scott May, a young worker who was killed in a tragic excavation accident. (Spanish Version # 708)

<b>TRENCHING &amp; EXCAVATION SAFETY: THE SCOTT MAY STORY (SP DVD)</b>	<b>YEAR</b>	<b>TITLE #</b>
19 Minutes	2010	708

Trenching and excavation work--it's the starting point of most construction projects. <b>TRENCHING &amp; SHORING SAFETY (DVD)</b>	<b>YEAR</b>	<b>TITLE #</b>
29 Minutes	2011	691

Topics included in this safety video are: causes of fatalities, soil, causes of cave-ins, what is a trench, OSHA standards, what the competent person must do, inspections, hazardous atmospheres, water control, soil classification, manual testing, and the pocket penetrometer.

<b>TRENCHING &amp; SHORING SAFETY (SP DVD)</b>	<b>YEAR</b>	<b>TITLE #</b>
29 Minutes	2011	569

Topics included in this safety video are: causes of fatalities, soil, causes of cave-ins, what is a trench, OSHA standards, what the competent person must do, inspections, hazardous atmospheres, water control, soil classification, manual testing, and the pocket penetrometer.

<b>TRENCHING AND SHORING: MEETING THE REQUIREMENTS (DVD)</b>	<b>YEAR</b>	<b>TITLE #</b>
14 Minutes	2006	579

This DVD covers OSHA requirements on trenching, shoring and excavation.

<b>WORK ZONE SAFETY FOR CONSTRUCTION &amp; UTILITY EMPLOYEES (VHS)</b>	<b>YEAR</b>	<b>TITLE #</b>
10 Minutes	2001	398

This video discusses work zone hazards, applicable regulations and standards, traffic control, equipment inspection and maintenance, channeling devices, flaggers, PPE and warning signs.

**CRANES & RIGGING**

<b>AERIAL LIFT WORK PLATFORM (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
15 Minutes	2011	531

Aerial work platforms provide access to work areas that are difficult or impossible to reach, but there are potential hazards involved. That is why anyone operating an aerial work platform must be trained and authorized before using the equipment. This program covers a broad range of topics including: Pre-Shift Inspections, Operating Controls, Safe Operating Procedures, Driving and Steering, Speed Control, Fall Protection and others.

<b>BUCKET TRUCKS EXTENDING YOUR SAFETY (EN/SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
15 Minutes	2006	500

Bucket trucks make jobs at high elevations easier, but if they're not operated safely, major accidents can occur. Bucket Truck Safety is a vital program that will keep your bucket truck users safe.

<b>CRANE OPERATIONS: HAND SIGNALS (EN/SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
13 Minutes	2011	441

Crane operations are an integral part of any worksite, employing and potentially endangering approximately 250,000 operators and workers. Signaling plays a critical role in safe crane operations, giving the operator a second pair of eyes on the ground. This program covers the signal persons role, best work practices, and standard hand signals.

<b>CRANE SAFETY (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
20 Minutes	2010	459

While there are many different types of cranes, they all have the ability to make many jobs much easier by lifting enormous weight. They also share the potential for disaster when they are not operated safely. Crane-related accidents can often be deadly. Once a load or a crane falls, not much can be done to stop it, and there is little time for people to move safely out of the way. OSHA recently revised their crane safety regulations for the first time in almost 40 years. This program includes: recent changes in the OSHA crane regulations, operator certification, equipment inspection and hazard assessment, boom, jib and overhead cranes, crane operations and hand signals and working around power lines. (Spanish version #615)

<b>CRANE SAFETY (SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
20 Minutes	2010	615

While there are many different types of cranes, they all have the ability to make many jobs much easier by lifting enormous weight. They also share the potential for disaster when they are not operated safely. Crane-related accidents can often be deadly. Once a load or a crane falls, not much can be done to stop it, and there is little time for people to move safely out of the way. OSHA recently revised their crane safety regulations for the first time in almost 40 years. This program includes: recent changes in the OSHA crane regulations, operator certification, equipment inspection and hazard assessment, boom, jib and overhead cranes, crane operations and hand signals and working around power lines. (English Version #459)

<b>CRANE SAFETY IN CONSTRUCTION ENVIRONMENTS (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
16 Minutes	2010	175

Crane-related accidents can often be deadly, due to the heavy loads that are lifted. Once a load or a crane itself falls, not much can be done to stop it, and there is little time for people to move safely out of the way. This training program discusses the keys to preventing these incidents.

<b>CRANE SAFETY: THE NEW REGULATION (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
22 Minutes	2010	186

This program addresses and outlines the changes of OSHA's new crane safety standard in a clear, concise manner. Your employees will learn about: important provisions in the new standards, training regarding overhead power lines for operators and crew members, training for dedicated spotters, operator certification, requirements for ground condition inspections and crane inspections.

<b>CRANES IN CONSTRUCTION (EN/SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
23 Minutes	2012	741

According to the Center for Construction Research and Training, 323 construction workers died over a recent 14-year period due to crane incidents. That's an average of 22 construction crane related deaths per year! Help motivate your employees to work safely around these massive machines with vital information on the different types of cranes used in construction, the roles and responsibilities of crew members and hazards associated with working with and around cranes. This program helps your organization comply with OSHA's revised standard 29CFR1926 Subpart CC.

<b>CRANES, CHAINS, SLINGS &amp; HOISTS SAFETY (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
12 Minutes	2001	972

This video is designed for anyone operating hoists or cranes. The program explains sling angles, safety techniques and inspection procedures. Anyone operating this equipment must be trained. This video meets OSHA training requirements.

<b>ELEVATED WORK PLATFORM SAFETY (DVD)</b> 19 Minutes	<b>YEAR</b> 2008	<b>TITLE #</b> 12
Electrocution, falls, crushed body parts and tip-overs are just a few examples of incidents that often result from unsafe operations of elevated work platforms. This program discusses the procedures lift operators must follow to prevent these types of incidents.		
<b>HAND SIGNAL COMMUNICATION (DVD)</b> 20 Minutes	<b>YEAR</b> 1995	<b>TITLE #</b> 683
Since the operator is required to respond to signals given by the signal person, they must be correct. This program shows how to effectively and accurately direct the crane using the hand signals required by OSHA and ASME.		
<b>HANDLING STRUCTURAL STEEL: UNLOADING, SORTING, RIGGING (VHS)</b> 28 Minutes	<b>YEAR</b> 2001	<b>TITLE #</b> 977
This video provides a fresh look at the safe way to rig and move structural steel. Topics include: loading for transport, Christmas Tree lifts, safe binder release and unloading, sorting, selecting and inspecting the rigging and making the lift.		
<b>HIGH-IMPACT CRANE SAFETY (VHS)</b> 18 Minutes	<b>YEAR</b> 1998	<b>TITLE #</b> 867
Use this video to show employees that understanding and practicing safe work procedures around indoor cranes is mandatory! Six accident reenactments reinforce these crane safety topics: proper rigging, operator training & authorization, standing beneath lifted loads, pre-operational equipment check out, lifting, moving Y releasing loads, exceeding capacities of cranes & rigging, and giving hand signals to operator.		
<b>HOW TO PROPERLY INTERPRET A LOAD CHART (DVD)</b> 25 Minutes	<b>YEAR</b> 1995	<b>TITLE #</b> 454
This presentation guides the viewer step by step in how to find gross capacity, determine capacity deductions, calculate net capacity and determine parts of a line. Also included is a dramatic reenactment of an accident involving a two-crane lift.		
<b>OVERHEAD &amp; GANTRY CRANES (EN/SP DVD)</b> 21 Minutes	<b>YEAR</b> 2011	<b>TITLE #</b> 686
From ancient times, civilizations have used crane technology to advance and improve their quality of life. Unfortunately, when operated incorrectly these powerful tools can result in expensive damage to products, serious injury, and even death. This program will help increase your employees' awareness of the hazards of working with or around cranes and will help your organization comply with OSHA standard 29 CFR 1910.179. Show maintenance crews, operators and riggers specific ways they can work safely around these hazardous machines, including pre-operational and periodic inspections. It also covers the proper way to rig and move a load.		
<b>OVERHEAD CRANE SAFETY (DVD)</b> 20 Minutes	<b>YEAR</b> 1995	<b>TITLE #</b> 85
Inspection, operating practices, operator qualification requirements and when to lock-out and tag-out overhead cranes are thoroughly covered in this presentation. It uses a hands-on approach to provide practical safety instruction for those working with and around overhead cranes.		
<b>OVERHEAD CRANES: SAFE OPERATION (VHS)</b> 18 Minutes	<b>YEAR</b> 1998	<b>TITLE #</b> 910
This comprehensive program focuses on the basic procedures for the safe operation overhead cranes. Operators are provided with the information needed to conduct daily walk around and operational checks, prior to using the crane. Special considerations are addressed, such as working in less than ideal situations and communication with a signal person.		
<b>PRE OP INSPECTION FOR LATTICE BOOM CRANES (DVD)</b> 20 Minutes	<b>YEAR</b> 1995	<b>TITLE #</b> 481
The pre-operational inspection is the cornerstone of all safe crane operations. Using OSHA and ASME as a guide, this presentation covers the inspection of control functions, operational aids, booms and jibs, wire rope, and other critical components of lattice boom cranes.		
<b>PRE OP INSPECTION FOR TELESCOPING BOOM CRANES (DVD)</b> 20 Minutes	<b>YEAR</b> 1995	<b>TITLE #</b> 32
Pre-operational inspection is the first job of the day and maybe the most important. Following OSHA and ANSI guidelines, this presentation covers the inspection of control functions and operational aids, booms, jibs, wire rope, and other critical components of telescoping boom cranes.		
<b>RIGGING &amp; LIFTING WITH SMALL HYDRAULIC CRANES (VHS)</b> 24 Minutes	<b>YEAR</b> 2001	<b>TITLE #</b> 978
This video explains the various types of rigs and time is spent helping the viewer understand hitch angles and their effect on sling, chain or wire rope ratings. Topics include: inspecting the rigging, inspection records requirements and unacceptable rigging hardware.		

**RIGGING SAFETY (DVD)**

21 Minutes

YEAR

2010

TITLE #

470

How a load is attached to a crane can make the difference between a successful lift and an unfortunate accident. And rigging-related accidents can often be deadly, due to the large and heavy loads that are lifted. Once a load or a crane falls not much can be done to stop it, and there is little time for people to move safely out of the way. Topics covered in this program includes: recent changes in the OSHA crane safety regulations, qualified/competent riggers and signalers, personal protective equipment, equipment inspection, slings and hitches, and hand signals and load angles. (Spanish version # 721)

**RIGGING SAFETY (DVD)**

19 Minutes

YEAR

1998

TITLE #

830

This presentation covers how to properly attach a load to a crane. A small miscalculation or a brief moment of inattention, and tragedy could strike. Once a load falls not much can be done to stop it, and there is little time for people to move safely out of the way. A coworker could be injured or expensive equipment and materials could be damaged or destroyed... even the crane itself.

**RIGGING SAFETY (SP DVD)**

21 Minutes

YEAR

2010

TITLE #

721

How a load is attached to a crane can make the difference between a successful lift and an unfortunate accident. A coworker could be injured or expensive equipment and materials could be damaged or destroyed... even the crane itself.

**RIGGING SAFETY IN CONSTRUCTION ENVIRONMENTS (DVD)**

21 Minutes

YEAR

2010

TITLE #

167

When it comes to crane operations, rigging can often be the weak link that causes an accident. How a load is attached to a crane can make the difference between a successful lift and an unfortunate accident. Rigging-related accidents can often be deadly, due to the large and heavy loads lifted. This training program discusses the keys to prevent incidents from occurring.

**RIGGING: SPECIALIZED IN SAFETY (EN/SP DVD)**

16 Minutes

YEAR

2011

TITLE #

729

From equipment maintenance and selection, understanding safe load capacity and wearing the correct PPE to properly moving the load, this program teaches riggers how to incorporate safety into everything they do. Topics include: slings and equipment selection, planning the lift, and best work practices.

**SAFE OPERATION OF SCISSOR & BOOM LIFTS (DVD)**

19 Minutes

YEAR

2006

TITLE #

363

Scissor and boom lifts allow us to safely perform various tasks and maintenance. This video will discuss procedures such as protecting against falls and from platforms, factors that affect stability, safe driving procedures, checking for overhead hazards, and inspecting work areas and travel routes.

**SAFE OPERATION OF SCISSOR & BOOM LIFTS (DVD)**

19 Minutes

YEAR

2006

TITLE #

270

This presentation will discuss procedures such as protecting against falls from platforms, factors that affect stability, safe driving procedures, checking for overhead hazards, and inspecting work areas and travel routes.

**SAFE OPERATION OF SCISSOR & BOOM LIFTS (SP DVD)**

19 Minutes

YEAR

2006

TITLE #

This presentation will discuss procedures such as protecting against falls and from platforms, factors that affect stability, safe driving procedures, checking for overhead hazards, and inspecting work areas and travel routes.

**SKID STEER: PRE-OPERATION INSPECTION (DVD)**

12 Minutes

YEAR

2001

TITLE #

857

This program explains how to complete an inspection, what to inspect, skid steer capacities and work situations with other workers.

<b>SKID STEER: SAFE OPERATING TECHNIQUES (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
14 Minutes	2001	719

This program explains discusses the safe operation of skid steers. Topics include: safe operation, blind spots and backing, weather, safe hauling and ten tips from experienced operators.

<b>WORKING CRANES NEAR POWER LINES (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
30 Minutes	1995	426

Starting with the pre-lift meeting, the viewer is taken through the procedures necessary to avoid the lethal results that often occur when cranes contact power lines. A personal account of a worker who lost three limbs when his crane contacted a power line will leave the viewer emotionally charged to do the things necessary to avoid contact.

<b>WORKING WITH CRANES SAFELY (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
21 Minutes	1999	962

This video provides viewers with a basic understanding of several safety topics including: mental preparation, inspection of crane and operating area, different types of cranes, use of hand signals, and lifting, moving and landing loads.

### **ELECTRICAL SAFETY**

<b>LOCKOUT FOR LIFE! (EN/SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
20 Minutes	2004	455

Review the proper procedures with this multi-award-winning program, which re-enacts lockout/tagout accidents, so that your workers won't become the next tragic example.

<b>2012 NFPA 70E: ELECTRICAL SAFETY IN THE WORKPLACE (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
25 Minutes	2012	144

The most recent 2012 NFPA 70E standard has many changes and updates as compared to the outdated 2009 edition. In this program, the dual hazards of electric shock and arc flash are clearly explained and highlighted with dramatic arc flash footage, full-scale explosions and realistic reenactments of flammable clothing ignition due to arc flash incidents. While convincing your workers of the importance of wearing proper PPE, the video also explains the critical parts of the 2012 70E standard in detail. Topics include qualified electrical worker requirements, creating an electrically safe working condition, confirming a zero energy state, energized electrical work permits, approach boundaries, incident energy level, arc flash boundaries, hazard risk categories and how to properly dress for arc flash protection. (Spanish Version #818)

<b>2012 NFPA 70E: ELECTRICAL SAFETY IN THE WORKPLACE (SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
25 Minutes	2012	818

The most recent 2012 NFPA 70E standard has many changes and updates as compared to the outdated 2009 edition. In this program, the dual hazards of electric shock and arc flash are clearly explained and highlighted with dramatic arc flash footage, full-scale explosions and realistic reenactments of flammable clothing ignition due to arc flash incidents. While convincing your workers of the importance of wearing proper PPE, the video also explains the critical parts of the 2012 70E standard in detail. Topics include qualified electrical worker requirements, creating an electrically safe working condition, confirming a zero energy state, energized electrical work permits, approach boundaries, incident energy level, arc flash boundaries, hazard risk categories and how to properly dress for arc flash protection. (English Version #144)

<b>2012 NFPA 70E: ELECTRICAL SAFETY IN THE WORKPLACE CONCISE (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
13 Minutes	2012	816

The most recent 2012 NFPA 70E standard has many changes and updates as compared to the outdated 2009 edition. In this program, the hazards of arc flash are highlighted with dramatic arc flash footage, full-scale explosions and realistic reenactments of flammable clothing ignition due to arc flash incidents. While convincing your workers of the importance of wearing proper PPE, the video also explains the critical parts of the 2012 70E standard in detail. Topics include qualified electrical worker requirements, creating an electrically safe working condition, energized electrical work permits, approach boundaries, arc flash boundaries and hazard risk categories.

<b>ARC FLASH: LIVE TO TELL (EN/SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
16 Minutes	2009	214

Did you know that in the extreme temperatures of an arc flash blast metal vaporizes? The sound can reach 160 decibels causing permanent severe hearing damage. Make sure your workers never experience the devastation of an arc flash explosion. This life-saving training program will bring you and your workers up to speed on the 2009 version of NFPA70E. Get the latest information on arc flash prevention.

<b>ARC FLASH: SAFETY AWARENESS (EN/SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
18 Minutes	2006	402

Teach your workers how to stay safe while keeping their co-workers and the workplace safe with the information in this program drawn from NFPA 70E. This program covers the three hazards encountered by those who work with or near electricity : electrical shock, arc flash and arc blast.

**BASIC ELETRICAL SAFETY (DVD)**

10 Minutes

YEAR

2007

TITLE #

25

This program is designed to make employees aware of basic electrical safety in the workplace. Review of safety requirements on plugs, cords, cables, disconnect switches, hand/power safety and other electrical safety equipment.

**BASIC TRAINING SERIES: CONTROLLING HAZARDOUS ENERGY SOURCES (VHS)**

19 Minutes

YEAR

2004

TITLE #

102

This video stresses that understanding and controlling hazardous energy sources in the workplace is critical to remaining safe while performing many tasks each day. Topics include: types of energy sources, proper use of locks and tags and special lockout situations.

**CIRCLE OF SAFETY (VHS)**

8 Minutes

YEAR

2001

TITLE #

5

This video outlines several safety procedures that should be followed while working around power lines. Topics include: the ten-foot rule, use of heavy equipment and tools around power lines and having a high personal commitment to safety. This program serves as an excellent training video for new employees as well as a great refresher for seasoned employees.

**DANGER ZONE: LOCKOUT TRAGEDY (VHS)**

16 Minutes

YEAR

2001

TITLE #

224

This high-impact program retells the story of Michael Fitch who lost his life because he failed to use proper lockout/tagout procedures. This video places emphasis on the importance of safe work practices. Topics include: interviews with Michael's family and friends, details about how the incident occurred and how to avoid this situation in your facility.

**DANGER: HIGH VOLTAGE (VHS)**

5 Minutes

YEAR

2000

TITLE #

282

This video urges employees to use extreme caution when working on or near high voltage electrical lines or equipment. Topics include: shock hazards, electric arc hazards, minimum approach distances and safe work practices.

**ELECTRICAL ARC FLASH SAFETY (DVD)**

17 Minutes

YEAR

2007

TITLE #

605

This presentation covers NFPA -70E, compliance with OSHA standards.

**ELECTRICAL SAFETY (DVD)**

17 Minutes

YEAR

2012

TITLE #

801

A lot of safety training is directed at electricians and other qualified workers. But what about the rest of us? Electricity is something that we use every day and sometimes ignore its hazards. This program will present information on how electricity works, what it can do to the human body and how to use electricity safely. This information is presented at a level for everyone who works with electrically powered tools, equipment and appliances and presents what everyone should know to stay safe.

**ELECTRICAL SAFETY (DVD)**

18 Minutes

YEAR

2010

TITLE #

696

This program reminds employees about electrical hazards they may face in their jobs, and provides the information they need to work safely around electricity. This program will also assist in satisfying the OSHA training requirements under 29 CFR Part 1910.331 (Electrical Safety Standard) for "non-qualified" employees. Topics covered in these products include: basic terms and definitions, circuits and flow of electricity, recognizing and avoiding electrical hazards, special environments, dealing with an electrical accident, and more.

**ELECTRICAL SAFETY BEWARE THE BITE! (EN/SP DVD)**

20 Minutes

YEAR

2004

TITLE #

295

This DVD shows workers how to protect themselves from electrical shock and what to do if danger strikes. It includes topics such as conductivity, lockout/tagout, safe work practices, PPE and emergency response.

**ELECTRICAL SAFETY FOR EVERYONE**

20 Minutes

YEAR

2014

TITLE #

948

Because electricity is so important to our everyday lives, it is surprising that many of us know very little about it or the hazards it presents. Many workers don't understand the dangers of electricity and don't follow safe work practices when working with or around electricity or electrical equipment. You don't have to be a qualified electrical worker or electrician to have a need to understand electrical safety. In fact, all workers should know and practice basic electrical safety. This program provides viewers with a general understanding of how electricity works while showing them the actions they can take to prevent becoming part of an energized electrical circuit.

Topics covered also include:

- why electricity is dangerous
- resistance and Ohm's law
- two electrical safety concepts
- avoiding electrical contact and grounding
- safe work practices
- use of double-insulated tools and GFCIs
- response to a shock event

**ELECTRICAL SAFETY FOR EVERYONE- CONCISE**

11 Minutes

YEAR

2014

TITLE #

886

Because electricity is so important to our everyday lives, it is surprising that many of us know very little about it or the hazards it presents. Many workers don't understand the dangers of electricity and don't follow safe work practices when working with or around electricity or electrical equipment. You don't have to be a qualified electrical worker or electrician to have a need to understand electrical safety. In fact, all workers should know and practice basic electrical safety. This program provides viewers with a general understanding of how electricity works while showing them the actions they can take to prevent becoming part of an energized electrical circuit.

- response to a shock event

**ELECTRICAL SAFETY FOR THE QUALIFIED WORKER (EN/SP DVD)**

18 Minutes

YEAR

2007

TITLE #

717

This program helps workers avoid tragedies by training them to wear proper PPE, test circuits and equipment properly, take proper protective measures and follow the National Electric Code guidelines.

**ELECTRICAL SAFETY IN THE WORKPLACE (VHS)**

27 Minutes

YEAR

1998

TITLE #

491

This program provides a basic knowledge of how electricity works, effects of electric current on the human body, common hazards associated with electricity and ways to control them.

**ELECTRICAL SAFETY: BASIC PRINCIPLES (EN/SP DVD)**

15 Minutes

YEAR

2004

TITLE #

866

Anyone working with electricity must know and apply basic safety principles and proper emergency procedures. This popular program defines common electrical terms and explains housekeeping and circuit protection devices

**ELECTRICAL SAFETY: KNOW YOUR GROUND (DVD)**

25 Minutes

YEAR

2007

TITLE #

3

This program is designed to train employees on electrical hazard recognition and safe work practices. It dramatizes a workplace scenario that shows consequences of disregarding safe work practices. This presentation covers electrical safety practices for all employees, and distinguishes between "qualified" and "unqualified" employees.

**ELECTRICAL SAFETY: NFPA 70E (DVD)**

18 Minutes

YEAR

2010

TITLE #

670

Every year in the United States electrical contact causes 3,600 disabling injuries and kills an average of one worker per day, making electrocution the fourth leading cause of industrial fatalities. Summit's Electrical Safety: NFPA 70E in Video/DVD to train employees on the hazards of working with electrical currents. This program covers electrical hazard, energized equipment, approach boundaries and personal protective equipment. Make sure your employees understand and can apply the strengthened safeguards in NFPA 70E that can prevent electrical injuries and deaths.

<b>ELECTRICAL SAFETY: WHAT EVERYONE SHOULD KNOW (DVD)</b> 17 Minutes	<u>YEAR</u> 2011	<u>TITLE #</u> 882
A lot of safety training is directed at electricians and other qualified workers. But what about the rest of us? Electricity is something that we use every day and sometimes ignore its hazards. This program will present information on how electricity works, what it can do to the human body and how to use electricity safely. This information is presented at a level for everyone who works with electrically powered tools, equipment and appliances and presents what everyone should know to stay safe. (Spanish version #591)		
<b>ELECTRICAL SAFETY: WHAT EVERYONE SHOULD KNOW (SP DVD)</b> 17 Minutes	<u>YEAR</u> 2011	<u>TITLE #</u> 591
A lot of safety training is directed at electricians and other qualified workers. But what about the rest of us? Electricity is something that we use every day and sometimes ignore its hazards. This program will present information on how electricity works, what it can do to the human body and how to use electricity safely. <b>GENERAL ELECTRICAL PRINCIPLES (SP VHS)</b> 15 Minutes	<u>YEAR</u> 2002	<u>TITLE #</u> 984
This video is designed to provide basic electrical safety training for employees who work around electrical equipment but aren't qualified electricians. Featured are several injury reenactments that illustrate the consequences of committing unsafe acts with and around electricity. Training topics include: electrical insulators and conductors, circuits and circuit-breaking devices, how electricity is measured, basic terminology, safe work practices, and responding to electrical injuries.		
<b>GENERAL ELECTRICAL PRINCIPLES (VHS)</b> 15 Minutes	<u>YEAR</u> 2002	<u>TITLE #</u> 947
This program is designed to provide basic electrical safety training for employees who work around electrical equipment but aren't qualified electricians. Featured are several injury reenactments that illustrate the consequences of committing unsafe acts with and around electricity. Training topics include: electrical insulators and conductors, circuits and circuit-breaking devices, how electricity is measured, basic terminology, safe work practices and responding to electrical injuries.		
<b>HIGH-IMPACT LOCKOUT/TAGOUT (VHS)</b> 19 Minutes	<u>YEAR</u> 1999	<u>TITLE #</u> 410
Meet OSHA CFR 1910.147 and make "lockout believers" of your employees with eight accident re-enactments. Covers employee complacency, training and authorization, use of lockout devices, lockout/tagout written procedure, isolating energy sources and certification of lock-out procedures.		
<b>HIGH-IMPACT LOCKOUT/TAGOUT (VHS)</b> 19 Minutes	<u>YEAR</u> 1999	<u>TITLE #</u> 973
Meet OSHA CFR 1910.147 and make "lockout believers" of your employees with eight accident re-enactments. Covers employee complacency, training and authorization, use of lockout devices, lockout/tagout written procedure, isolating energy sources and certification of lock-out procedures.		
<b>HIGH-IMPACT SAFETY TRAINING FOR QUALIFIED ELECTRICAL EMPLOYEES (VHS)</b> 20 Minutes	<u>YEAR</u> 2002	<u>TITLE #</u> 634
This video covers most of the training requirements and safe work practices for qualified workers outlined in OSHA 29 CFR1910 Subpart (S). Featured are several incidents involving electricity in which unsafe acts by employees have resulted in serious injury or death. Topics of this program include: qualified worker status, electrical arcing and arc blasts, protective clothing requirements, use of voltage-rated gloves, performing live work and de-energizing equipment.		
<b>LASER SAFETY: THE BLINK OF AN EYE (EN/SP DVD)</b> 20 Minutes	<u>YEAR</u> 2007	<u>TITLE #</u> 128
This DVD aims to provide basic laser safety awareness. While your workers do abide by your safety guidelines, this program supplements your accident-prevention efforts. The program, based on the current and up-to-date American National Standards Institute (ANSI) standard focuses on hazardous situation, air contaminants, classification of lasers, engineering and administrative controls, how to protect your eyes, and in the importance of safety training.		
<b>LESSONS LEARNED FROM AN ARC FLASH TRAGEDY (EN/SP DVD)</b> 20 Minutes	<u>YEAR</u> 2006	<u>TITLE #</u> 268
Mark Standifer received 2nd and 3rd degree burns over 40 percent of his body and was nearly killed when he was engulfed in an arc blast while performing an electrical task at a wastewater treatment plant. In this powerful program viewers will see the lessons learned from the incident.		
<b>LOCKOUT FOR LIFE (ENGLISH/SPANISH DVD)</b> 20 Minutes	<u>YEAR</u> 2009	<u>TITLE #</u> 219
Review the proper procedures with this multi-award-winning program, which re-enacts lockout/tagout accidents, so that your workers won't become the next tragic example.		

**LOCKOUT/TAGOUT (SP VHS)**

15 Minutes

YEAR

1999

TITLE #

29

This video contains information specifically for training authorized employees to carry out your energy control program procedures and recognize and control potentially hazardous energy sources in the workplace. This video takes viewers through lockout/tagout procedures and complies with OSHA Standard No. 29CFR Part 1910.147.

**LOCKOUT/TAGOUT AFFECTED EMPLOYEES (DVD)**

7 Minutes

YEAR

2006

TITLE #

143

This program is easy-to-follow and includes a clear outline of each step in the lockout/tagout procedure. Your employees will learn: lockout/tagout definitions, the most common forms of energy sources, situations that require lockout/tagout procedures, the various types of lockout devices, proper lockout/tagout procedures, safe startup procedures, examples and tips for special situations.

**LOCKOUT/TAGOUT AFFECTED EMPLOYEES (SPANISH DVD)**

7 Minutes

YEAR

2006

TITLE #

This program is easy-to-follow and includes a clear outline of each step in the lockout/tagout procedure. Your employees will learn: lockout/tagout definitions, the most common forms of energy sources, situations that require lockout/tagout procedures, the various types of lockout devices, proper lockout/tagout procedures, safe startup procedures, examples and tips for special situations.

**LOCKOUT/TAGOUT AUTHORIZED EMPLOYEES (SP DVD)**

16 MINUTES

YEAR

2006

TITLE #

528

This program is easy-to-follow and includes a clear outline of each step in the lockout/tagout procedure. Your employees will learn: lockout/tagout definitions, the most common forms of energy sources, situations that require lockout/tagout procedures, the various types of lockout devices, proper lockout/tagout procedures, safe startup procedures, examples and tips for special situations.

**LOCKOUT/TAGOUT LIGHTNING IN A BOTTLE (EN/SP DVD)**

15 Minutes

YEAR

2006

TITLE #

182

Fatal injuries have occurred in workplaces when hazardous energy was released and lockout/tagout procedures weren't in place. This valuable program will help prevent such incidents in your work place.

**LOCKOUT/TAGOUT SAFETY FOR AUTHORIZED EMPLOYEES (DVD)**

16 Minutes

YEAR

2009

TITLE #

227

This DVD is designed for anyone who would ever work on or near heavy machinery. It covers the different types of machinery to be locked out and goes over proper tagging procedure. Any employee who is experienced in being authorized to cut off an energy source will receive a comprehensive refresher in this program.

**LOCKOUT/TAGOUT TRAINING FOR EMPLOYEES (DVD)**

18 Minutes

YEAR

2008

TITLE #

517

This program reviews the procedures used to control this energy, commonly known as lockout/tagout. Topics include types of energy sources, the energy control plan, situations requiring lockout/tagout, lockout/tagout devices, energy control procedures and special lockout situations.

**LOCKOUT/TAGOUT WOULD HAVE SAVED HIS LIFE (DVD)**

17 Minutes

YEAR

2008

TITLE #

871

This presentation immediately grabs the viewer's attention with the true story of a man killed in a workplace mishap that would have been prevented by lockout/tagout. The video provides a comprehensive overview of the purpose of lockout/tagout, employee roles and responsibilities and the purpose and contents of an energy control plan.

**LOCKOUT/TAGOUT WOULD'VE SAVED HIS LIFE (SP DVD)**

Your employees will learn: lockout/tagout definitions, the most common forms of energy sources, situations that require lockout/tagout procedures, the various types of lockout devices, proper lockout/tagout procedures, safe startup procedures, examples and tips for special situations.

**LOCKOUT/TAGOUT: MAKE NO MISTAKE (DVD)**

17 Minutes

YEAR

2012

TITLE #

642

Very simply, energy is the power for doing work. Sometimes, when uncontrolled, it can be hazardous, even deadly. As you know, the lockout/tagout process is designed to help protect workers from this type of dangerous uncontrolled energy. In fact, compliance with the lockout/tagout standard prevents an estimated 120 fatalities and 50,000 injuries each year. Lockout/Tagout: Make No Mistake addresses OSHA's General Industry Standard for Lockout/Tagout. It will help your employees understand the seven steps of lockout/tagout, how to complete them and why they are important. It also covers the different forms of energy, safe practices for controlling hazardous energy and limitations of using tagout only.

**LOCKOUT/TAGOUT: SAFETY TRAINING FOR EMPLOYEES (VHS)**

15 Minutes

YEAR

2000

TITLE #

394

This video provides an overview of OSHA's lockout/tagout requirements and gives employees the critical information that they need to help prevent injuries.

**LOCKOUT-TAGOUT PROCEDURES (DVD)**

14 Minutes

YEAR

2005

TITLE #

359

This program covers the purpose of lockout-tagout procedures for attaining zero energy state, proper startup procedures and special situations. Your workers will know the best practices to prevent accidents and ensure their safety.

**MARK STANDIFER'S ELECTRICAL SAFETY BRIEFING (DVD)**

19 Minutes

YEAR

2009

TITLE #

554

With nearly 40 years of experience as an electrician, Mark Standifer delivers powerful seminars on the shock and burn hazards associated with electrical work. As a survivor of an arc flash incident, Mark knows the pain and suffering associated with electrical and arc flash injuries. In this live presentation, he stresses the importance of thinking about what we are doing and being aware of all shock and burn hazards when performing electrical job tasks. Mark also makes the point that we must always wear the PPE and FR rated clothing required by the NFPA 70E to protect ourselves from any mistakes that we may make. Viewers will also learn unforgettable lessons about electrical safety from stories about Mark's incident and his friend's electrocution.(Spanish Version #218 )

<b>MORE HIGH IMPACT LOCKOUT/TAGOUT SAFETY TRAINING (SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
21 Minutes	2012	467

Nearly 200 employees are killed and thousands of others injured each year when they are exposed to the sudden, unexpected release of hazardous energy. To protect workers from such incidents, a set of procedures known as lockout/tagout is used to disconnect and isolate all of the hazardous energy sources to a machine, piece of equipment or other device. This program stresses the importance of controlling hazardous energy in all required situations while providing viewers with a basic understanding of the key elements in the lockout/tagout process. Also featured are six workplace injury reenactments that illustrate the devastating consequences of improper lockout/tagout operations. Topics include situations that require lockout/tagout, authorized, affected and other employees, proper use of locks and tags, steps involved in performing a lockout procedure, verifying a zero energy state, returning equipment to service and group lockout procedures.

<b>SAFE ELECTRICAL WORK PRACTICES &amp; 2015 NFPA 70E</b>	<u>YEAR</u>	<u>TITLE #</u>
26 Minutes	2014	960

Every year, electrical workers are seriously injured or killed by contacting energized parts or being subjected to an electrical arc flash. To prevent these types of incidents, these workers and the organizations for which they work must understand and follow up-to-date electrical safety-related electrical work practices, maintenance requirements and administrative controls. One of the leading authorities on electrical safety is the National Fire Protection Association, the NFPA. Their document number 70E is recognized by many regulatory authorities and organizations as the "best practices" for electrical safety. This program provides an overview of the 2015 edition of NFPA 70E and shows how following its guidelines helps keep electrical workers safe. The changes from the 2012 edition are also explained. Topics include approach boundaries, skills required of qualified electrical workers, selecting arc-rated clothing and protective equipment, arc flash PPE categories, creating an electrically safe working condition, when energized work is permitted and energized electrical work permits.

<b>STORED ENERGY: THE HIDDEN HAZARD (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
18 Minutes	2007	104

This program is designed to raise your employees awareness of all types of stored energy hazards in the work environments where they can be found. This program also explains the precautions viewers must take to protect themselves from these hazards. Topics include receiving area hazards, bulk storage dangers, loaded pallets and other warehouse hazards and stored energy in maintenance areas.

<b>UNDERSTANDING AND WORKING SAFELY WITH ELECTRICITY (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
16 Minutes	2009	230

This presentation is a good fit for maintenance workers, machine operators and anyone else who works with or around electrical tools and equipment. Provides information employees need to work safely, while satisfying the OSHA training requirements under 1910.331 for "non-qualified" employees.

<b>WHAT YOU NEED TO KNOW ABOUT LOCKOUT/TAGOUT (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
7 Minutes	2001	988

This video identifies the various types of employees who need to understand lockout/tagout programs, why and when lockout/tagout procedures are required and outlines proper steps for applying and removing lockout/tagout devices.

### EMERGENCY PREPAREDNESS

<b>ARE YOU READY? DISATER PREPAREDNESS (EN/SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
46 Minutes	2012	710

In order to encourage citizens to prepare themselves, their families, and their communities, this instructional video includes five different safety shorts, and has been developed to help educate and empower everyone to prepare for and respond to all kinds of emergencies. The video is designed to detail how families can make a family emergency plan, build an emergency supply kit, and be informed about the different types of emergencies in the community.

**ARE YOU READY? DISATER PREPAREDNESS (EN/SP DVD)**

46 Minutes

YEAR  
2012TITLE #

**DROP, COVER & HOLD: EARTHQUAKE PREPAREDNESS (DVD)**

10 Minutes

YEAR  
2010TITLE #  
746

This DVD stresses the importance of being prepared for the next big earthquake while showing detailed instruction and visual demonstration of the Drop, Cover and Hold procedure. Managers and supervisors should encourage their employees to become familiar with these procedures and know what to do in the event of a major earthquake.

**EARTHQUAKE SAFETY (DVD)**

12 Minutes

YEAR  
2008TITLE #  
118

Being properly prepared for an earthquake can make all the difference in how you and your workplace are affected. This presentation teaches you how to prepare for the emergencies from storing supplies, earthquake-proofing your environment, and training your employees in emergency and evacuation procedures.

**EARTHQUAKE SAFETY (SP DVD)**

12 Minutes

YEAR  
2008TITLE #  
124

Being properly prepared for an earthquake can make all the difference in how you and your workplace are affected. This presentation teaches you how to prepare for the emergencies from storing supplies, earthquake-proofing your environment, and training your employees in emergency and evacuation procedures.

**EMERGENCY EVACUATIONS FROM MULTI-STORY BUILDINGS (VHS)**

5 Minutes

YEAR  
2001TITLE #  
162

Emergency evacuations from multi-story buildings pose special hazards to occupants and visitors. This video prepares viewers for an evacuation by outlining procedures to follow in the event of a fire, bomb threat, significant chemical spill or other emergency.

**EMERGENCY PREPAREDNESS (DVD)**

14 Minutes

YEAR  
2004TITLE #  
629

This program provides viewers with an understanding of the different types of emergencies and how to be prepared to deal with them.

**EMERGENCY PREPAREDNESS (DVD)**

13 Minutes

YEAR  
1994TITLE #  
535

This program explains how to prepare for earthquakes, tornadoes, hurricanes, and other emergencies at work. Designed to reduce property damage and prevent injuries during emergencies.

**EMERGENCY PREPAREDNESS (DVD)**

14 Minutes

YEAR  
2004TITLE #  
600

This program provides viewers with an understanding of the different types of emergencies and how to be prepared to deal with them.

**EMERGENCY PREPAREDNESS: A SUPERVISOR'S ROLE (VHS)**

20 Minutes

YEAR  
2002TITLE #  
296

This video discusses steps to take as a supervisor to identify, plan, prepare and implement emergency preparedness procedures. It focuses specifically on emergencies involving fire, flood, winter preparedness, earthquakes, tornado, hurricane, terrorism and workplace violence.

**EMERGENCY PREPAREDNESS: AN EMPLOYEE'S RESPONSIBILITY (VHS)**

20 Minutes

YEAR  
2002TITLE #  
297

his video discusses steps to take as an employee to identify, plan, prepare and inform when an emergency occurs. It focuses specifically on emergencies involving fire, flood, winter preparedness, earthquakes, tornado, hurricane, terrorism and workplace violence.

**HIGH IMPACT EMERGENCY ACTION PLANS (VHS)**

19 Minutes

YEAR  
2002TITLE #  
957

This video shows workers reacting to five emergencies: a fire, workplace violence, a tornado, a chemical release and a possible exposure to bloodborne pathogens. Topics include: fire alarms, designated meeting places, hazardous weather conditions, universal precautions and a hazard communication plan.

**PUBLIC BUILDING SAFETY: IT'S EVERYONE'S CONCERN (VHS)**

17 Minutes

YEAR

2002

TITLE #

278

This video examines some security measures that may be encountered in public buildings and discusses why they are necessary. Topics include: terrorism, criminal activity, workplace violence and communication of important information.

**SURVIVING AN ACTIVE SHOOTER SITUATION (DVD)**

18 Minutes

YEAR

2007

TITLE #

279

This instructional DVD training system is designed to empower people with knowledge and strategies for preventing and surviving an active shooter situation. This production provides the individual employee, staff member, and/or associate with critical guidance on how to recognize and survive an active shooter situation.

**WHEN DISASTER STRIKES ARE YOU READY? (VHS)**

21 Minutes

YEAR

2002

TITLE #

490

This video discusses how to design and implement an emergency disaster plan for your worksite or office. Subjects covered include communication modes, bomb threats, chemical and biological agents, evacuation procedures and basic first aid.

**FALL PREVENTION**

**A PRACTICAL APPROACH TO LADDER SAFETY (CONCISE DVD)**

9 Minutes

YEAR

2006

TITLE #

782

This program discusses the basic precautions that will keep employees safe when using ladders. Viewers will also see the consequences of failing to follow these safe work practices.

**A PRACTICAL APPROACH TO LADDER SAFETY CONCISE VERSION (DVD)**

9 Minutes

YEAR

2009

TITLE #

566

While ladder manufacturers strive to produce the safest ladders possible, a well-made ladder is not enough. Our safety while climbing or working on a ladder depends on following safe work practices: choose the correct ladder for the job; inspect the ladder before use; set up the ladder properly; and, use the ladder in a safe and proper manner. This new program discusses the basic precautions that will keep employees safe when using ladders. Viewers will also see the consequences of failing to follow these safe work practices. Concise version of #90.

**A PRACTICAL APPROACH TO LADDER SAFETY (DVD)**

19 Minutes

YEAR

2006

TITLE #

90

This program discusses the basic precautions that will keep employees safe when using ladders. Viewers will also see the consequences of failing to follow these safe work practices.

**FALL ARREST SYSTEMS (DVD)**

15 Minutes

YEAR

2008

TITLE #

263

This program will cover the basics ABC's of the fall arrest system, how to properly select and inspect equipment, how to calculate the fall distance, and why it is important to choose a safe and legal tie-off point.

**FALL FACTORS: UNDERSTANDING & PREVENTING SLIPS, TRIPS & FALLS (DVD)**

12 Minutes

YEAR

2011

TITLE #

762

Concise version. Slips, trips and falls result in more than 15 million workplace injuries each year, and injuries related to falls are the second leading cause of on-the-job fatalities. Falls are also the third leading cause of disability among employees. Fortunately these mishaps can be prevented by understanding how "fall factors" such as balance, gravity, friction and momentum contribute to these incidents. This program provides viewers with an understanding of the factors involved in every fall as well as the common hazards and unsafe actions that make a fall much more likely. Also reviewed are the techniques and safe work practices that we can use to control the factors that contribute to slips, trips and falls.

**FALL FACTORS: UNDERSTANDING & PREVENTING SLIPS, TRIPS & FALLS (SP DVD)**

20 Minutes

YEAR

2011

TITLE #

791

Slips, trips and falls result in more than 15 million workplace injuries each year, and injuries related to falls are the second leading cause of on-the-job fatalities. **FALL PREVENTION FOR GENERAL INDUSTRY (VHS)**

20 Minutes

YEAR

2002

TITLE #

395

This video will show your employees the right way to deal with fall hazards in the workplace. This video uses true-to-life enactments and includes: the types of falls, ramps, different surfaces, elevated work areas, personal protective equipment and stair use.

<b>FALL PROTECTION: ELEVATED PLATFORMS (EN/SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
15 Minutes	2007	222
This training program will ensure that your workers are aware and alert to the risks when working at any elevated height. It will cover: flatbed trucks, scissor lifts, loading process, overhead crane bridges, and proper lanyard use.		
<b>FALL PROTECTION: THE RIGHT CONNECTION (EN/SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
17 Minutes	2007	275
This program focuses on potentially life-saving training in proper use of fall protection in general industry. It also provides valuable information about rescue after falls. It also covers: guardrails, personal fall arrest systems, positioning devices, proper use and maintenance, and rescue from height.		
<b>HEIGHT SAFETY ESSENTIALS (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
21 Minutes	2006	716
This presentation includes eleven case studies covering common heights accidents recreated by professional stunt men.		
<b>HIGH-IMPACT FALL PREVENTION (SP VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
19 Minutes	1997	388
The ten accidents shown in this video review shortcuts and other common safety mistakes. Please keep in mind that this video uses graphic footage.		
<b>HIGH-IMPACT FALL PREVENTION (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
19 Minutes	1997	662
The ten accidents shown in this video review shortcuts and other common safety mistakes. This video uses graphic footage.		
<b>LADDER SAFETY (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
9 Minutes	2009	247
This DVD guides the viewer through the proper selection and use of many different types of ladders, including: step ladders, "A" ladders, extension ladders, straight ladders and platform ladders.		
<b>LADDER SAFETY (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
9 Minutes	2008	235
This short program covers the safe use of stepladders, straight ladders, and general safety measures and is designed to help reduce the risk of a ladder-related accident or injury.		
<b>LADDER SAFETY (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
9 Minutes	2007	139
Designed for step and straight ladders. Defines safety requirements, belt buckle rule, 4:1 ratio of straight ladders, how to reduce ladder injuries, and unsafe behavior.		
<b>LADDER SAFETY (SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
9 Minutes	2008	236
This short program covers the safe use of stepladders, straight ladders, and general safety measures and is designed to help reduce the risk of a ladder-related accident or injury.		
<b>LADDER SAFETY (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
6 Minutes	1997	672
Give employees clear guidelines for making safe choices when using ladders: choosing the right ladder for the job, inspection and prohibition of defective ladder use, use of different ladder types, placement/use for straight ladders and safe use tips.		
<b>LADDER SAFETY: EVERY STEP COUNTS (EN/SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
16 Minutes	2005	133
This DVD will go over the best safety practices, such as weight-bearing capacity, proper height for the job, and how to set-up a ladder correctly.		
<b>PREVENTING SLIPS TRIPS AND FALLS (SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
17 Minutes	2009	277
Employees should realize that it doesn't take falling from a high place to be injured, it could be a simple slip on a wet floor or trip over a small object. This DVD presents the fundamentals preventing slips, trips and falls. Topics include factors that affect the body's stability, the common causes of slips, trips and falls, types of walking surfaces, importance of wearing proper footwear and how to respond to a fall injury.		

**PREVENTING SLIPS, TRIPS, & FALLS (DVD)**

17 Minutes

YEAR

2006

TITLE #

407

Employees should realize that it doesn't take falling from a high place to be injured; it could be a simple slip on a wet floor or trip over a small object. This DVD stresses to maintain our balance, watch where we are going and avoid all hazards that are in our paths.

**SCAFFOLD SAFETY (SP VHS)**

11 Minutes

YEAR

1999

TITLE #

142

Training program for anyone working on or near scaffolding. Basic safety rules, operating procedures and how to use scaffolds safely without injury. This program meets training requirements for scaffold safety.

**SCAFFOLD SAFETY (VHS)**

11 Minutes

YEAR

1999

TITLE #

129

This training program is for anyone working on or near scaffolding. It covers basic safety rules, operating procedures and how to use scaffolds safely without injury. Meets OSHA training requirements for scaffold safety.

**SCAFFOLDING SAFETY/SAFE WORK PRACTICES (VHS)**

11 Minutes

YEAR

1997

TITLE #

655

Ideal for all employees who work on scaffolds, this program identifies potential hazards and safe use requirements. Subjects include electrical, fall & falling object hazards, load carrying capacity & material handling, using ladders, good housekeeping and other safe work practices. Meets current OSHA regulations (OSHA 29 CFR 1926 Subpart L).

**SLIPS TRIPS AND FALLS (DVD)**

10 Minutes

YEAR

2009

TITLE #

291

Real work scenes are used to create awareness and respect for the hazards associated with slips, trips and falls in the workplace and motivates your workers to use best practices to prevent injuries.

**SLIPS TRIPS AND FALLS: KEEPING YOUR WORKPLACE SAFE (DVD)**

21 Minutes

YEAR

2009

TITLE #

221

Slips, trips and falls are among the leading causes of disabling accidents in the workplace, yet the vast majority of these injuries can be prevented with a commitment to certain basic but very important principals that begin with awareness.

**SLIPS, TRIPS & FALLS IN CONSTRUCTION ENVIRONMENTS (DVD)**

9 Minutes

YEAR

2012

TITLE #

846

Most employees don't give much thought to the prospect of slipping, tripping or even falling on the job. Yet these types of incidents account for more workplace injuries annually than any other category. Many of these injuries can be disabling or fatal. Construction sites house many tools and pieces of equipment, making them a virtual maze of slip, trip and fall hazards. This DVD show employees the types of situations on construction sites that can lead to slips, trips and falls, and what they can do to avoid or prevent these incidents. Topics include: center of gravity and balance, trips and slips, walking surfaces, housekeeping and maintenance, footwear, and personal protective equipment.

**SLIPS, TRIPS AND FALLS (DVD)**

17Minutes

YEAR

2010

TITLE #

756

Slips, Trips, and Falls, shows employees the situations that can lead to slips, trips and falls, and what they can do to avoid or prevent these accidents. Topics covered in these products include: why slips, trips and falls occur, common causes of accidents, potential health effects of resulting injuries, techniques used to avoid injury, the importance of safety shoes, how to fall safely, and more.

**SLIPS, TRIPS AND FALLS (DVD)**

10 Minutes

YEAR

2008

TITLE #

250

This program will motivate your employees to recognize and respect the common causes of slips, trips, and falls, and teach them procedures and techniques to prevent them from occurring and causing injury.

**SLIPS, TRIPS AND FALLS: SPLIT SECOND SAFETY (DVD)**

18 Minutes

YEAR

2013

TITLE #

758

Slips, trips and falls hurt companies with tens of billions of dollars in medical costs. Eighty percent of workers who trip and fall on the stairs will suffer long-term injuries like brain damage and paralysis and fatal falls due to slips and trips kill over seven hundred workers each year. This program reminds employees that a split second lapse of awareness can lead to a life-long injury. Showing such slim margins, the program guides employees to be more mindful of their surroundings. It helps them understand how, why, and even where slips, trips, and falls occur; develop a safety mindset; and adopt safer practices at work. Through engaging narration, lively language, compelling re-enactments, and concrete examples, the program covers: definitions of slips, trips, and falls, causes of slips, trips, and falls, housekeeping, workplace design solutions, safe walking and working practices.

**SLIPS, TRIPS AND FALLS: STRANGER THAN FRICTION (SP DVD)**

20 Minutes

YEAR  
2009TITLE #  
56

Jim is an ordinary guy who lives in an ordinary house and works at an ordinary job. This comprehensive production points out an incredible amount of opportunities for slips, trips and falls while also giving guidance on how to avoid them. Film covers proper footwear, seasonal conditions, worksite housekeeping and more. A comical parody of the popular movie "Stranger than Fiction", this DVD is not only educational, but also enjoyable to watch.

**SLIPS, TRIPS AND FALLS: TAKING THE RIGHT STEPS (EN/SP DVD)**

16 Minutes

YEAR  
2010TITLE #  
588

Slips, trips and falls cause injuries in the workplace, and you have to smooth out the risks through this high-impact training program that advocates solid safety measures: awareness, good housekeeping and proper equipment use. Safety can take you a long way! Topics include: prevention techniques, wet surfaces and poor weather conditions, stairs and ladders and housekeeping.

**SLIPS, TRIPS AND FALLS: TAKING THE RIGHT STEPS (EN/SP DVD)**

19 Minutes

YEAR  
2009TITLE #  
283

This high-impact program trains employees to prevent slips, trips and falls by being aware of their surroundings, practicing good housekeeping and using equipment properly. After illustrating the common causes of slips, trips and falls, this training program explains the steps that can be taken to avoid them like detouring around wet floors that cause slips, keeping work areas clutter-free to prevent trips and climbing ladders one step at a time to avoid falls.

**SLIPS, TRIPS, AND FALLS (SP DVD)**

17 Minutes

YEAR  
2010TITLE #  
826

Slips, Trips, and Falls, shows employees the situations that can lead to slips, trips and falls, and what they can do to avoid or prevent these accidents. Topics covered in these products include: why slips, trips and falls occur, common causes of accidents, potential health effects of resulting injuries, techniques used to avoid injury, the importance of safety shoes, how to fall safely, and more.

**SMALL FALLS ARE A BIG DEAL (DVD)**

19 Minutes

YEAR  
2005TITLE #  
371

Some of the worst falls result from incidents like a trip over an unsecured rug or a slip on a wet substance. In this video, Martin Lesperance uses his experience as a firefighter and EMT to stress the point that small falls are a big deal. Topics include the importance of wearing proper footwear, recognizing and controlling slip and trip hazards, transitional areas and changing walking surface conditions, correcting fall hazards, situational awareness and moving from one level to another.

**SMALL FALLS ARE A BIG DEAL CONSISE VERSION (DVD)**

10 Minutes

YEAR  
2005TITLE #  
57

OSHA has mandated that workers be trained on how to safely erect and use these work platforms. This program will help employers meet the training requirements of OSHA's Scaffolding regulation.

**SURVIVING THE FALL: THE PROPER USE OF YOUR PERSONAL FALL ARREST SYSTEM (DVD)**

20 Minutes

YEAR  
2012TITLE #  
828

Falling just a short distance can generate huge forces and cause injury, even if you don't hit the ground. The proper use of fall protection equipment reduces these forces and prevents injuries. In this program, viewers will see fall protection equipment deployed in actual fall events and learn the proper selection and use of these devices. In addition to safe work practices, emphasis is placed on having a rescue plan in place should a fall occur. Topics include selecting an anchor point, inspecting the harness and lanyard, proper calculation of fall distance, specialized connection devices and the pros and cons of lanyards vs. retractable lifelines.

<b>SURVIVING THE FALL: THE PROPER USE OF YOUR PERSONAL FALL ARREST SYSTEM CONCISE(DVD)</b>	<u>YEAR</u> 2012	<u>TITLE #</u> 832

<b>TO THE POINT ABOUT: PREVENTING SLIPS, TRIPS, &amp; FALLS (EN/SP DVD)</b> 11 Minutes	<u>YEAR</u> 2015	<u>TITLE #</u> 865
---	---------------------	-----------------------

Our workplace is full of hazards, hazards than can hurt us; or kill us. Controlling these hazards and preventing injuries is the point of a Company's safety and health program. One such hazard is the risk of falling due to a slip or trip. Workplace falls are a leading cause of injury and even a small fall can have very serious consequences. Identifying and correcting fall hazards combined with paying close attention to our paths of travel can prevent these injuries and save lives. That is the point of training your employees to prevent slips, trips and falls, and that is the point of this program. This DVD contains both and English and Spanish version, and comes with a Leader's Guide, End of Course Quiz, and Completion Certificate.

<b>UNDERSTANDING AND PRVENTING SLIPS TRIPS AND FALLS (CONCISE DVD)</b> 12 Minutes	<u>YEAR</u> 2011	<u>TITLE #</u> 896
--	---------------------	-----------------------

Slips, trips and falls result in more than 15 million workplace injuries each year, and injuries related to falls are the second leading cause of on-the-job fatalities. Falls are also the third leading cause of disability among employees. Fortunately these mishaps can be prevented by understanding how "fall factors" such as balance, gravity, friction and momentum contribute to these incidents. This program provides viewers with an understanding of the factors involved in every fall as well as the common hazards and unsafe actions that make a fall much more likely. Also reviewed are the techniques and safe work practices that we can use to control the factors that contribute to slips, trips and falls.

<b>UNDERSTANDING AND PRVENTING SLIPS TRIPS AND FALLS (DVD)</b> 20 Minutes	<u>YEAR</u> 2011	<u>TITLE #</u> 66

**USING LADDERS SAFELY (EN/SP DVD)**

16 Minutes

<u>YEAR</u>	<u>TITLE #</u>
2011	795

Ladders bring portability and flexibility to any job that extends above the ground. But if not used correctly, ladders can be dangerous. The program includes information on step ladders, extension ladders and articulated or multi-purpose ladders. Viewers will learn proper selection for the job, inspection techniques, how to set up a ladder properly, and how to work on a ladder safely.

**WALKING & WORKING SURFACES**

18 Minutes

<u>YEAR</u>	<u>TITLE #</u>
2015	712

Employee slips, trips and falls continue to be the leading source of accidents and injuries in the workplace. Many of these accidents can be prevented with the proper training. This program, for construction and general industry environments focuses on specific slip, trip and fall hazards and what employees can do to avoid them. Train your employees about the hazards of improperly maintained walking and working surfaces. Included on the DVD is a Leader's Guide, End of Course Quiz, Completion Certificate, and Attendance Log

Topics covered also include:

- Fundamentals of safe surfaces
- Walkways and floors
- Stairs and fixed ladders
- Portable Ladders
- Scaffolding

**WHAT YOU NEED TO KNOW ABOUT STAIRWAYS AND LADDERS (VHS)**

7 Minutes

<u>YEAR</u>	<u>TITLE #</u>
2002	392

Using stairways and ladders properly can reduce the chance of incidents and injuries. This video covers: the proper way to use ladders, recognition of hazards, ways to minimize hazards and inspection methods.

**FIRE****FIRE EXTINGUISHER BASIC TRAINING (SP DVD)**

14 Minutes

<u>YEAR</u>	<u>TITLE #</u>
2009	356

It is important to know what to do when a fire starts--know when and how to fight it and when not to. This program will provide viewers with the basic information they need to react safely in a potentially dangerous situation involving a fire. Topics include when to use an extinguisher, using the PASS method to put out a fire and extinguisher inspection, maintenance and storage.

**FIRE EXTINGUISHER BASIC TRAINING SHORT VERSION (DVD)**

10 Minutes

<u>YEAR</u>	<u>TITLE #</u>
2009	357

It is important to know what to do when a fire starts--know when and how to fight it and when not to. This program will provide viewers with the basic information they need to react safely in a potentially dangerous situation involving a fire. Topics include when to use an extinguisher, using the PASS method to put out a fire and extinguisher inspection, maintenance and storage.

**FIRE EXTINGUISHERS: CLASSIFICATION (VHS)**

5 Minutes

<u>YEAR</u>	<u>TITLE #</u>
2003	352

Portable fire extinguishers are classified according to their ability to handle specific types and sizes of fires. This video describes the importance of using the right extinguisher for the job and reading all labels to ensure safety.

**FIRE EXTINGUISHERS: READY TO RESPOND (DVD)**

13 Minutes

<u>YEAR</u>	<u>TITLE #</u>
2006	298

Extinguishing a fire is a tricky thing; you must first know what's burning, how it burns, how you can control it and how to put it out safely. This program shows viewers how to calmly and effectively deal with fires and correctly use a fire extinguisher. Topics include five classes of fire, types of extinguishers (including K), extinguisher inspection and deciding whether to fight a fire.

**FIRE EXTINGUISHERS: SAFE USE (VHS)**

5 Minutes

<u>YEAR</u>	<u>TITLE #</u>
2003	351

When used properly, portable fire extinguishers can minimize personal and property damage if a fire occurs. This video outlines when and how to use a fire extinguisher correctly.

**FIRE EXTINGUISHERS: WHEN AND HOW TO USE THEM (DVD)**

15 Minutes

<u>YEAR</u>	<u>TITLE #</u>
2009	320

This program stresses to viewers the importance of making the right decisions when a workplace fire breaks out. Employees must know how to use the appropriate fire extinguisher and if the fire is in its beginning stages. More importantly, they must be confident in their ability to evacuate the facility safely should they be unable to extinguish the fire.

**FIRE EXTINGUISHERS: WHEN AND HOW TO USE THEM (SP DVD)**

15 Minutes

YEAR  
2009

TITLE #  
332

This program stresses to viewers the importance of making the right decisions when a workplace fire breaks out. They must know how to use the appropriate fire extinguisher and if the fire is in its beginning stages. More importantly, they must be confident in their ability to evacuate the facility safely should they be unable to extinguish the fire.

**FIRE EXTINGUISHERS: WHEN AND HOW TO USE THEM, SHORT VERSION (DVD)**

7 Minutes

YEAR  
2009

TITLE #  
336

This program stresses to viewers the importance of making the right decisions when a workplace fire breaks out. They must know how to use the appropriate fire extinguisher and if the fire is in its beginning stages. More importantly, they must be confident in their ability to evacuate the facility safely should they be unable to extinguish the fire.

**FIRE PREVENTION (VHS)**

12 Minutes

YEAR  
2004

TITLE #  
339

This video uses dramatic, real fire-fighting situations to teach employees how to identify potential fire sources as well as taking steps to prevent fires from happening in your workplace. Topics covered include: common causes of fires, recognizing fire hazards, choosing the right fire extinguisher, proper use of fire extinguishers and fire prevention best safety practices.

**FIRE PREVENTION AND SAFETY IN INDUSTRIAL FACILITIES (VHS)**

20 Minutes

YEAR  
2003

TITLE #  
110

This video reviews the causes of industrial fires and what employees should do in case of a fire emergency. Topics include: classes of fire, use of fire extinguishers, handling flammable materials and evacuation procedures.

**FIRE PREVENTION IN THE OFFICE (DVD)**

16 Minutes

YEAR  
2003

TITLE #  
377

This program reviews fires in office environments and discusses what employees should do in a fire emergency. Topics include: common causes of workplace fires, the concept of "flashpoint", classes of fires, the importance of good housekeeping, fire extinguishers, evacuation and first aid.

**FIRE SAFETY & EVACUATION KEEPING YOUR WORKPLACE SAFE (DVD)**

16 Minutes

YEAR  
2009

TITLE #  
308

It's one thing to understand the importance of fire safety and another to be prepared when a fire emergency strikes. Knowing how to prevent fires, keep a clear head during evacuation, even the skills to put out a small fire using a fire extinguisher, can save lives and property.

**FIRE SAFETY (SP VHS)**

19 Minutes

YEAR  
2000

TITLE #  
485

This fire prevention video focuses on identifying different types of fires and how to extinguish potential fire hazards. Other topics include identification of different types of fire extinguishers and how to use them, using good housekeeping methods to prevent fires, building evacuations and first aid methods for smoke inhalation and radiant heat.

**FIRE SAFETY (VHS)**

16 Minutes

YEAR  
2000

TITLE #  
2

This fire prevention video focuses on identifying different types of fires and how to extinguish potential fire hazards. Other topics include: identification of different types of fire extinguishers, and how to use them, using good housekeeping methods to prevent fires, building evacuations and first aid methods for smoke inhalation and radiant heat.

**FIRE SAFETY (VHS)**

18 Minutes

YEAR  
1997

TITLE #  
387

This program provides a general understanding of basic principles associated with fire, fire prevention and managing fire situations. It explains how fires start, describes and illustrates two categories of fire prevention methods, discusses common workplace evacuation procedures and explains how to select and use common types of portable fire extinguishing equipment.

**FIRE SAFETY FOR INDUSTRIAL WORKERS (CONCISE DVD)**

10 Minutes

YEAR  
2010

TITLE #  
286

This DVD will help ensure your employees are well-informed about the hazards of various chemicals in the workplace. This program will look at hazard communication issues, and will familiarize workers with physical and health hazards, how exposure can occur, exposure limits and material safety data sheets.

HAZARD COMMUNICATION ELEMENTS OF SAFETY (EN/SP DVD) NOT COMPLIANT AS OF 2013

**FIRE SAFETY FOR INDUSTRIAL WORKERS (DVD)**

19 Minutes

YEAR

2010

TITLE #

636

Due to the hazardous and flammable materials often used or stored at industrial facilities, fires at these locations can have disastrous consequences. In fact, 3,000 workers are injured and another 150 die each year in industrial fires. The good news is that almost all workplace fires can be prevented. That's the purpose of this program: to show the safe work practices employees should follow to reduce the risk of a workplace fire and to review things that should be done if a fire should break out. Topics include five classes of fire, good housekeeping, handling and storing hazardous materials, static electricity, the emergency action plan, evacuation procedures, fire extinguishers and treating fire-related injuries.

**FIRE SAFETY FOR INDUSTRIAL WORKERS (SP DVD)**

**FIRE SAFETY FOR OFFICE WORKERS CONCISE VERSION (DVD)**

10 Minutes

YEAR

2010

TITLE #

645

While office workers often don't think much about the potential for fire while performing their jobs, there are more than 1,000 fires in office environments each year. Such factors as employee complacency, office equipment and appliances that generate heat and large amounts of paper and other combustible materials can all contribute to office fires resulting in major property damage, serious injuries and fatalities. This program discusses how to prevent these and other factors from contributing to the ignition of fires and how to respond if a fire were to break out. Topics include good housekeeping, controlling electrical fire hazards, emergency action plans, evacuation procedures and using the PASS system to extinguish a fire.

**FIRE SAFETY FOR SCHOOLS: SOUND THE ALARM! (EN/SP DVD)**

15 Minutes

YEAR

2005

TITLE #

506

In the last several years, firefighters responded to one fire in an educational facility every hour. With knowledge and teamwork, damaged property and most importantly human lives can be saved. You will learn about what to do in a fire, how to work together to get everyone out safely, how a fire starts, and how to prevent fires.

**FIRE SAFETY: ALERT, AWARE, ALIVE (DVD)**

15 Minutes

YEAR

2004

TITLE #

187

This DVD will teach your employees life-saving information about the different types of fires, how they can be prevented and what to do in the event of a fire. Other topics include, elements that a fire needs to burn, prevention and fire extinguisher use.

**PORTABLE FIRE EXTINGUISHERS: PROTECTING PEOPLE AND PROPERTY (DVD)**

16 Minutes

YEAR

2012

TITLE #

684

If a fire broke out in your workplace, would your employees know what to do? Do they know where the nearest fire extinguisher is? Or how to use it? When it comes to fires, time is of the essence. Help your employees identify when they should fight and when they should flee a fire, and if they fight, how to properly operate the fire extinguisher. Topics include: Classes of fires, four elements needed to produce a fire, types of portable fire extinguishers, inspection and maintenance of extinguishers, steps to take when a fire occurs and what to do after the fire is extinguished.

**USING FIRE EXTINGUISHERS SAFELY (DVD)**

9 Minutes

YEAR

2007

TITLE #

156

Portable fire extinguishers provide a handy and reliable way to put out small fires before they get out of control, but to be safe, employees need to know how and when to use them. This program reminds employees how fire works and reviews the major causes of fire. It also examines fire prevention techniques and the use of fire extinguishers.

**USING FIRE EXTINGUISHERS SAFELY (SP DVD)**

Portable fire extinguishers provide a handy and reliable way to put out small fires before they get out of control, but to be safe, employees need to know how and when to use them. This program reminds employees how fire works and reviews the major causes of fire. It also examines fire prevention techniques and the use of fire extinguishers.

**FOOD SAFETY**

**A RECIPE FOR FOOD SAFETY SUCCESS (VHS)**

20 Minutes

YEAR

2002

TITLE #

288

This training video can help your employees understand food safety requirements, why they exist and the consequences of not following those requirements. Presented in a television news format with anchors and on-location interviews, this lively video will keep your employees' attention from start to finish. Topics include: the role of the FDA and USDA, food borne illness, sanitation and pest control, personal hygiene, temperature controls and personal protective equipment.

**BUS PERSON SAFETY (DVD)**

10 Minutes

YEAR

2007

TITLE #

73

This program addresses some of the more common hazards bus persons face during the course of their work and teaches viewers how to take the necessary steps to help minimize the risk of injury to themselves, guests and co-workers. Topics include: preventing cuts and burns, how to handle broken glass, working safely with chemicals, slip and fall prevention, and safe lifting/back injury prevention.

**FOOD SAFETY & SANITATION (EN/SP DVD)**

22 Minutes

YEAR

2006

TITLE #

109

This motivating training presentation teaches your workers the proper procedures and laws to follow to ensure food is handled safely.

**GOOD MANUFACTURING PRACTICES: FOOD SAFETY'S IN YOUR HANDS (EN/SP DVD)**

16 Minutes

YEAR

2005

TITLE #

126

This presentation focuses on proper food handling procedures so that your employees can avoid endangering the lives of others such as personal hygiene, personal protective equipment, and healthy and sanitized work environments.

**RESTAURANT SANITATION AND PERSONAL HYGIENE (SP VHS)**

14 Minutes

YEAR

1999

TITLE #

122

This video emphasizes personal hygiene, cleanliness, food temperature requirements and controlling pests, rodents, and bacteria. Covers general restaurant health and cleanliness procedures, food storage, FIFO, and food sanitation practices.

**RESTAURANT SANITATION AND PERSONAL HYGIENE (VHS)**

14 Minutes

YEAR

1999

TITLE #

121

This video emphasizes personal hygiene, cleanliness, food temperature requirements and controlling pests, rodents, and bacteria. Covers general restaurant health and cleanliness procedures, food storage, FIFO and food sanitation practices.

**SAFE FOOD HANDLING (DVD)**

24 Minutes

YEAR

2011

TITLE #

532

According to the CDC, every year in the US, 48 million people are infected with a food borne illness, 128,000 are hospitalized and 3,000 people die. Nobody wants this to happen; and it doesn't have to. Food borne illnesses can be prevented. This program provides basic, introductory instruction on the six major elements of food handler safety including: Food-borne illnesses, Time and temperature control, Personal hygiene, Preventing contamination, Cleaning and sanitizing equipment and utensils and Housekeeping and maintenance. Other topics include temperature control, preventing cross-contamination. This is a great program for both new and experienced staff.

**SANITATION AND HYGIENE (VHS)**

11 Minutes

YEAR

2000

TITLE #

956

Employees working in food or beverage services must have adequate training in sanitation, bacteria growth, temperature controls, personal hygiene, food handling and insect/rodent control. This program outlines steps employees can take to comply with laws and regulations and provides them with a common sense approach to maintaining a safe and healthy work environment.

<b>CONSTRUCTION FORKLIFTS: EXTENDING YOUR REACH (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
14 Minutes	1999	206
This important training resource will help you comply with OSHA's Final Powered Industrial Truck Standard (29 CFR1910.178). Topics include: lifting principles, start-up walk around inspections, moving and loading and safe work practices.		
<b>ELECTRIC PALLET JACK (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
13 Minutes	2002	460
Examines proper safety procedures for operating and maintaining powered pallet jacks. Topics include operator safety rules, daily maintenance procedures, and general safety procedures.		
<b>FORKLIFT BASICS SAFE FROM THE START (EN/SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
22 Minutes	2006	489
This presentation provides up-to-date OSHA compliance and details on the powered industrial truck, from the way it's constructed to the way it works. It will help your operators understand the factors that affect forklift balance and maneuverability.		
<b>FORKLIFT MANEUVERS ALL THE RIGHT MOVES (EN/SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
26 Minutes	2006	259
This program reviews the most important forklift safety issues - from operating conditions to load manipulation. With this important information, your forklift drivers will be equipped to operate safely and avoid accidents. This video is ideal for new and experienced forklift operators.		
<b>FORKLIFT MANEUVERS ALL THE RIGHT MOVES (EN/SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
26 Minutes	2006	354
This program reviews the most important forklift safety issues - from operating conditions to load manipulation. With this important information, your forklift drivers will be equipped to operate safely and avoid accidents. This video is ideal for new and experienced forklift operators.		
<b>FORKLIFT OPERATION &amp; SAFETY: KEEPING YOUR WORKPLACE SAFE (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
18 Minutes	2009	211
Every driver of a powered industrial truck needs to understand certain mechanical truths, including center of gravity, balancing the load properly and special driving requirements from inclined surfaces to confined spaces. This DVD emphasizes awareness of forklift driving hazards and promotes best practices.		
<b>FORKLIFT OPERATION SAFETY DRIVEN (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
17 Minutes	2009	501
This DVD trains forklift operators on best operating practices. Employers can prevent costly accidents and injuries by teaching drivers to recognize hazards and follow proper operating procedures. Complies with OSHA 29 CFR 1910.178		
<b>FORKLIFT OPERATOR TRAINING (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
18 Minutes	2011	819
This program meets the new OSHA forklift operator training requirements. Safe operating procedures and engineering principles are covered in depth. The information is presented in a manner that is clear and easy to understand and is a great tool for training new or experienced lift truck operators. (Spanish version #115).		
<b>FORKLIFT OPERATOR TRAINING (SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
19 Minutes	2011	115
This program meets the new OSHA forklift operator training requirements. Safe operating procedures and engineering principles are covered in depth. The information is presented in a manner that is clear and easy to understand and is a great tool for training new or experienced lift truck operators. (English version #819).		

**FORKLIFT SAFETY ESSENTIALS HIGH IMPACT (DVD)**

28 Minutes

YEAR

2006

TITLE #

725

This DVD is the A-Z of Forklift Safety complete with graphic recreations of common accidents by professional stunt men. A particular emphasis is placed on pedestrian safety in the workplace. This forklift training title is the perfect induction tool for new employees and as a refresher for experienced personnel.

**FORKLIFT SAFETY: REAL ACCIDENTS, REAL STORIES (DVD)**

12 Minutes

YEAR

2009

TITLE #

561

Throughout this training session, viewers will be introduced to the OSHA standard 1910.178, which governs powered industrial trucks, including forklifts -- the focus of this presentation. Viewers will hear thought-provoking stories of real forklift incidents and the far-reaching effects such incidents can have. In the midst of these stories, this DVD will discuss preventing injuries, accidents and property damage during the use of forklifts, why this is necessary -and most of all how to stay safe and in compliance with the corresponding OSHA PIT standard.

**FORKLIFT SAFETY: REAL LIFE (EN/SP DVD)**

20 Minutes

YEAR

2005

TITLE #

269

The information on this DVD will help you and your employees avoid permanent life-threatening injuries. Topics include: the walk-through inspection, forklift physics, loading safety and balancing a load.

**FORKLIFT SAFETY: THE EXPERIENCED OPERATOR (DVD)**

14 Minutes

YEAR

2006

TITLE #

43

In this program, we will discuss the importance of safe operation at your site, expectations and responsibilities of a professional lift truck operator and the skills and techniques you can use to ensure safe operation and incident prevention.

**FORKLIFT SAFETY: THE TRIANGLE OF STABILITY (DVD)**

10 Minutes

YEAR

2009

TITLE #

562

This training presentation educates forklift operators on how to safely maneuver their vehicles. It focuses on all aspects of forklift stability, including the stability triangle, working with different surfaces, carrying loads properly, proper braking techniques, preventing property damage, and how to move through any environment safely. After watching this presentation, operators will know what to be aware of when they operate their forklift, and how to avoid dangers in their working environments.

**FORKLIFT STABILITY ESSENTIALS (DVD)**

18 Minutes

YEAR

2008

TITLE #

486

Forklift stability is a major factor in many accidents. Collisions, rollovers and damaged goods are just some of the results of forklift operators not understanding forklift stability. This DVD covers topics such as the stability triangle, load capacity and more.

**FORKLIFT/POWERED INDUSTRIAL TRUCK SAFETY (DVD)**

28 Minutes

YEAR

2000

TITLE #

372

This program is designed to provide fundamental information to train employees about the safe operation of powered industrial trucks. Topics include: equipment inspection, surveying the work area, safe operation procedures, forklift stability, tip-overs and equipment maintenance.

**FORKLIFTS: INSPECT RECHARGE REFUEL (DVD)**

15 Minutes

YEAR

2012

TITLE #

46

A forklift can be a dangerous piece of equipment. Performing the job safely not only requires lifting, lowering and traveling safely, but also inspecting your forklift before every shift and knowing the correct procedures for refueling and recharging. Proper training can help prevent forklift injuries and deaths and as you know, employees are not authorized to operate a forklift unless they are trained. This program goes beyond operational forklift training to give employees an in-depth look at the importance of and steps for performing a pre-operational inspection. It also outlines the hazards associated with refueling gas, diesel or LPG engines and shows how to charge and change a battery.

**HANDLE WITH CARE: FORKLIFT SAFETY (DVD)**

20 Minutes

YEAR

2008

TITLE #

381

This program is designed to provide your employees with the equipment specific training needed to comply with OSHA's powered industrial truck standard. Handle with Care: Forklift Safety Training will educate your employees on the most common type of equipment - the sit down, counter balanced forklift.

**HANDLE WITH CARE: FORKLIFT SAFETY (SP DVD)**

20 Minutes

YEAR

2008

TITLE #

366

This program is designed to provide your employees with the equipment specific training needed to comply with OSHA's powered industrial truck standard. This presentation will educate your employees on the most common type of equipment - the sit down, counter balanced forklift.

**HIGH-IMPACT FORKLIFT OPERATOR TRAINING (VHS)**

18 Minutes

YEAR  
2000TITLE #  
323

The eight forklift incidents re-created in this video will show your employees the life-threatening consequences of incorrect and unsafe lift truck operation. Topics include common causes of forklift incidents, lift truck stability and safe driving procedures. Pre-operational inspection, types of forklifts, lifting/moving loads and operation in hazardous areas are also covered in this program.

**INSPECTION AND MAINTENANCE OF FORKLIFTS (VHS)**

7 Minutes

YEAR  
2001TITLE #  
985

This video reviews the importance of inspecting forklift vehicles routinely and maintaining them in safe operating condition. Provides a list of essential parts of the vehicle that should be inspected and maintained, who can perform inspections and maintenance, where and what to inspect and how to perform maintenance.

**MORE HIGH IMPACT: FORKLIFT SAFETY (DVD)**

20 Minutes

YEAR  
2008TITLE #  
625

This presentation shows viewers that a commitment to forklift safety is the key to maintaining an injury-free workplace or even saving one's life. Filled with re-creations of actual accidents from OSHA files, this film has proven to be a highly effective training tool through its scared-straight, non-graphic nature.

**MORE HIGH-IMPACT FORKLIFT SAFETY (EN/SP DVD)**

22 Minutes

YEAR  
2004TITLE #  
264

This program examines some tragic lift truck incidents and shows how similar scenarios can be avoided by following safe operating practices. Topics include: Understanding & anticipating driving hazards, preventing injuries to pedestrians, lifting capacity & stability characteristics, trailers & railcars.

**MORE HIGH-IMPACT FORKLIFT SAFETY CONCISE VERSION (DVD)**

10 Minutes

YEAR  
2009TITLE #  
609

Unsafe and improper forklift operation can lead to injury and property damage, but following safe work practices can prevent many needless incidents. This program examines some tragic lift truck incidents and shows how similar scenarios can be avoided by following safe operating practices. Topics include operator training and authorization, understanding and anticipating driving hazards, preventing injuries to pedestrians, lifting capacity, stability characteristics and working in and around trailers and railcars are other issues covered.

**OPERATING ELECTRIC PALLET JACKS SAFELY (DVD)**

9 Minutes

YEAR  
2006TITLE #  
981

This program discusses how to safely operate electric-powered pallet jacks so operators can deliver their loads while avoiding injury and property damage.

**OPERATING ORDER SELECTORS SAFELY (DVD)**

18 Minutes

YEAR  
2005TITLE #  
213

This program examines some common hazards posed by the operation of order selectors and how to control those hazards through safe operating techniques.

**OPERATING REACH TRUCKS SAFELY (DVD)**

18 Minutes

YEAR  
2005TITLE #  
627

This DVD will cover common hazards presented by the operation of reach trucks and how to control those hazards through safe operating techniques.

**REACH TRUCK SAFETY (DVD)**

15 Minutes

YEAR  
2010TITLE #  
856

Reach trucks, also known as narrow aisle trucks, are designed to operate in warehouses with narrow aisles. These trucks have some things in common with standard sit down forklifts, but also have some unique features that need to be taken into account in order to operate safely. This program covers pre-shift inspections, load capacities, basic safe operating procedures, turning and lifting and engineering principles.

**REACH TRUCK SAFETY (SP DVD)**

15 Minutes

YEAR  
2010TITLE #  
653

Reach trucks, also known as narrow aisle trucks, are designed to operate in warehouses with narrow aisles. These trucks have some things in common with standard sit down forklifts, but also have some unique features that need to be taken into account in order to operate safely. This program covers pre-shift inspections, load capacities, basic safe operating procedures, turning and lifting and engineering principles.

**SAFE OPERATION OF SCISSOR & BOOM LIFTS (DVD)**

15 Minutes

YEAR

2008

TITLE #

39

Scissor and boom lifts allow us to safely perform various tasks and maintenance. This video will discuss procedures such as protecting against falls and from platforms, factors that affect stability, safe driving procedures, checking for overhead hazards, and inspecting work areas and travel routes.

**SLIDING BOOM FORKLIFT OPERATING TECHNIQUES (DVD)**

18 Minutes

YEAR

2007

TITLE #

963

Operators of this equipment are subject to some difficult conditions. From rough terrain and people on-the-jobsite to proper hand signals and avoiding power lines, this presentation is a great summary of ten rules to live by: Importance of load charts, center of gravity - avoiding tip overs, handling the forklift on hills, steering options and leveling the load.

**SLIDING BOOM FORKLIFT OPERATING TECHNIQUES (VHS)**

18 Minutes

YEAR

2001

TITLE #

27

Telescopic forklift operators are subject to some difficult conditions. These include working conditions, jobsite personnel, proper use of hand signals and avoiding power lines. This video summarizes ten rules to live by including the importance of load charts, center of gravity, loading the forklift and hills, steering options and leveling the load.

**TELEHANDLERS: SAFE OPERATION (DVD)**

15 Minutes

YEAR

2011

TITLE #

804

The Telehandler Class 7 rough terrain PIT can lift up to 10,000 lbs. and extend up to 40 feet. It's maneuverability allows the operator to choose from 4 types of steering. There are also many optional accessories available and in use in with telehandlers. These topics, as well as How to Conduct a Pre-shift Inspection, ANSI Hand Signals, How to safely lift a load, Safe Lifting Capacities, How to prevent rollovers, Minimum Safe Approach Distance (MSAD), Driving on Inclines and many more are addressed.

**TELESCOPIC FORKLIFTS: STABILIZE YOUR SAFETY (EN/SP DVD)**

16 Minutes

YEAR

2011

TITLE #

833

With far more reach and lifting capacity than a standard forklift, the advantage of the telescopic forklift is also its biggest limitation. This training program covers the additional risks that must be taken into account when working around or operating telescopic forklifts, pre-use inspections, maintaining stability, and best work practices.

**TIPS FROM THE PROS: BACKHOE LOADER (DVD)**

16 Minutes

YEAR

2001

TITLE #

714

With a focus on increased productivity this program covers: planning the job, trenching/backfilling, efficient loader use and craning with backhoes.

**TO THE POINT ABOUT: SAFE FORKLIFT OPERATION (EN/SP DVD)**

11 Minutes

YEAR

2015

TITLE #

338

Our workplace is full of hazards, hazards than can hurt us, or kill us. Controlling these hazards and preventing injuries is the point of a Company's safety and health program. One such hazard is the one presented by the unsafe operation of powered industrial trucks commonly called forklifts or lift trucks. Ensuring that drivers operate forklifts in a safe manner can prevent injuries and save lives. That is the point of our training your employees on forklift safety, and that is the point of this program. This DVD contains both an English and Spanish version, and comes with a Leader's Guide, End of Course Quiz, and Completion Certificate.

**GENERAL OCCUPATIONAL SAFETY**

**AN EMPLOYEE'S VIEW OF OSHA RECORD KEEPING (VHS)**

18 Minutes

YEAR

2004

TITLE #

95

This video reminds employees that it is important to adhere to OSHA's recordkeeping standard and reviews the responsibilities of management in the recordkeeping process. Topics include: specific OSHA requirements and protocols, types and details of recordkeeping forms and distinguishing recordable incidents.

**AN INTRODUCTION TO WORKPLACE SAFETY (DVD)**

13 Minutes

YEAR

2007

TITLE #

511

This presentation provides an overview of the roles and responsibilities of both the company and the employee in regard to safety and how these elements fit together to form a comprehensive safety program. Topics include identifying workplace hazards, controlling hazards, personal protective equipment, safety responsibilities of the company and employees, unsafe acts and how the company's safety culture works to protect employees.

<b>CELL PHONES IN THE WORKPLACE: A DANGEROUS DISTRACTION CONCISE VERSION (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
8 Minutes	2011	616
Our cell phones are powerful tools that allow us to have instant access to information and communication. When used appropriately, these devices can make our lives easier and more enjoyable, but when used at the wrong time and in the wrong manner, these same devices can get us in trouble at work and cause serious injury. This program discusses how sending and receiving text messages can cause us to lose focus on doing our jobs safely and efficiently as well as the importance of always following your company's policy regarding cell phone use. Also featured are workplace scenarios that illustrate the tragic consequences of ignoring these policies in order to text when it is unsafe or prohibited. Concise version of title #618.		
<b>CLOSE CALLS AND NEAR MISSES (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
19 Minutes	2000	508
This video helps employees better understand the importance of complacency, unreported incidents, correcting hazards, unsafe conditions, controlling emotions and emergency response.		
<b>COMPRESSED GAS: SAFETY AWARENESS (EN/SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
18 Minutes	2008	493
This program details safe and proper handling of compressed gas cylinders, classifications and labeling, flammable/nonflammable and toxic gases, handling cylinders and valves.		
<b>CONVEYOR SAFETY IN THE WORKPLACE (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
17 Minutes	2002	958
This video demonstrates the work practices employees must follow to stay safe when working with and around conveyors. Topics include: types of conveyor guarding, operator training, shear points, nip points, pinch points, and dangers of sitting or standing on conveyors.		
<b>EGRESS AND EXIT SAFETY (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
5 Minutes	2010	564
Standard Operating Procedures of many companies require Egress and Exit Safety be taught to their employees to enhance their safety program. Topics include: Types of hazards, definition of egress and exit, exit routes, exit signs, exit markings, employer responsibilities and egress and exit standards.		
<b>EMPLOYEE ORIENTATION SUPERMARKET SERIES (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
21 Minutes	2011	751
The supermarket/grocery environment presents a broad range of safety training challenges. This program touches on many of the most common hazards and examines ways to minimize risk. Viewers receive brief, overview training on a variety of topics including: preventing slips & falls, back injury prevention, preventing cuts & burns, food safety, hazard communication, machinery safety and more.		
<b>EMPLOYEE WELLNESS: TAKING CARE OF YOU (EN/SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
16 Minutes	2011	919
Employee wellness: taking care of you, explores the concept of wellness, the state of being at your physical, mental, emotional and spiritual best. It shows practical, every day steps employees can take towards achieving wellness. Topics covered are health screenings, smoking, drug and alcohol abuse, vaccinations, diet, exercise, shift work and more. Help your employees understand the why's, how's and importance of being well with this informative program.		
<b>FATIGUE MANAGEMENT ESSENTIALS (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
18 Minutes	2008	333
Shift work can increase the fatigue levels of personnel and can increase the risk of serious accidents. When well managed however, shift work can bring about major improvements in productivity and job satisfaction.		
<b>FLUID POWER SAFETY: THE LETHAL STRIKE (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
15 Minutes	2008	694
Pressurized fluids travel at bullet speed and can penetrate deep under the skin. What looks like a simple puncture wound is, in fact, life threatening. High-pressure injection injuries are becoming increasingly prevalent. This DVD covers the typical cause of injection injuries, what to do if you suffer an injection injury, how to properly manage the victim of an injection injury and what not to do, so that a victim receives the proper medical treatment.		
<b>GET THE DIRT (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
12 Minutes	2001	241
Whether it is a simple weekend home improvement project or a major excavation, the dig safely process will help ensure the timely completion of your project without injuries, service interruption or creating environmental hazards. Topics discussed include: call before you dig, wait the required time, respect the marks and dig with care.		

<b>GOOD HOUSEKEEPING, KEEPING YOUR WORKPLACE SAFE (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
10 Minutes	2009	389
<p>This presentation teaches the importance of keeping a clean, organized, uncluttered workplace and how to prevent injuries, illness, allergies, and even fires through good housekeeping practices. It contains a number of methods to achieve a consistently clean and safe work environment, including the well-known 5 S's method. Additional topics include proper footwear, ventilation, handling electrical hazards, safety in the presence of combustible dust, and how to properly store hazardous materials. The video trains on compliance with OSHA'S regulation: CFR 1910.22.</p>		
<b>HANDLING A SEXUAL HARASSMENT INVESTIGATION (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
20 Minutes	2005	445
<p>This program is designed to help managers prevent sexual harassment and if it does occur, understand how to handle an investigation including knowing your companies legal responsibilities, the proper steps to take, conducting an investigation, documenting, and interviewing the harasser and potential witnesses.</p>		
<b>HAZARD RECOGNITION AND CONTROL (POWERPOINT)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
18 Minutes	2004	108
<p>This PowerPoint teaches employees how to recognize and control hazards. This program uses hazard scenarios to point out the direct, indirect and root causes of incidents. Topics include: hazard recognition, spotting unsafe conditions and responsibilities of supervisors, team leaders and employees.</p>		
<b>HEALTH AND HYGIENE ESSENTIALS FOR INDUSTRY (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
19 Minutes	2005	62
<p>The consequences of poor health and hygiene practices in industry can result in the spread of infectious diseases and increased sick days for personnel. This video shows employees how to minimize the spread of disease. Topics include: how infections spread, infectious diseases, cleanliness at work and personal and food hygiene.</p>		
<b>HIGH-IMPACT (SP VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
8 Minutes	1999	116
<p>This program shows graphic pictures of industrial injuries to illustrate the need for compliance with safety procedures. Viewers should be warned that this video contains extremely graphic pictures.</p>		
<b>INTRODUCTION TO SAFETY: WAREHOUSE INDUSTRY (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
5 Minutes	2000	285
<p>Warehouses can be dangerous because there is so much activity. Common injuries include back injuries related to heavy lifting and accidental injuries involving powered industrial trucks. This video urges employees to stay incident free by always using safe work practices. Topics include: back injuries, forklift injuries, safety rules and regulations and safe work practices.</p>		
<b>JUST ANOTHER DAY (EN/SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
20 Minutes	2009	384
<p>Are your veteran employees getting complacent about safety? Do they skip the safety procedures at times assuming that since they've done something dozens of times, they can skip them without consequences? In this DVD your employees will keep score as they follow the five main characters through a typical work day. Count how many hazards they miss as they encounter one risky situation after another until the sobering ending.</p>		
<b>KNIFE SAFETY IN THE WORKPLACE (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
16 Minutes	2004	165
<p>A blade cannot tell the difference between cutting work material or slicing a hand or finger. This video teaches viewers how to follow industrial knife safety rules and includes the importance of keeping blades sharp, proper cutting procedures, changing and disposing of blades, keeping body parts out of the blade's path of travel and first aid for knife wounds.</p>		
<b>KNIFE SAFETY IN THE WORKPLACE CONSISE VERSION (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
10 Minutes	2004	921
<p>A blade cannot tell the difference between cutting work material or slicing a hand or finger. This video teaches viewers how to follow industrial knife safety rules and includes the importance of keeping blades sharp, proper cutting procedures, changing and disposing of blades, keeping body parts out of the blade's path of travel and first aid for knife wounds.</p>		
<b>LEADING INDICATORS: IT'S THE LITTLE THINGS (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
27 Minutes	2009	787
<p>Jeff "Odie" Espenship is an Air Force A-10 Warthog fighter pilot and also an international airline pilot. As a flight leader, he knows what it takes to operate safely in a high-risk and sometimes dangerous work environment. In this dynamic presentation, Odie discusses his experiences involving shortcuts, snap decisions and complacency as a pilot and how they relate to common workplace situations. Because these leading indicators tend to snowball and contribute to accidents, he stresses that employees must always be aware of the "little things" and take action when they tempt us or our co-workers to perform unsafe acts. While pointing out common safety errors often made by fighter pilots and regular employees alike, Odie emphasizes the lessons all workers can learn from these mistakes.</p>		

**LEADING INDICATORS: IT'S THE LITTLE THINGS CONCISE VERSION (DVD)**

12 Minutes

YEAR  
2011TITLE #  
457

Jeff "Odie" Espenship is a United States Air Force A-10 Warthog fighter pilot and also an international airline pilot. As a flight leader, he knows what it takes to operate safely in a high-risk and sometimes dangerous work environment. In this dynamic presentation, Odie discusses his experiences involving shortcuts and complacency as a pilot and how they relate to common workplace situations. Because these leading indicators tend to snowball and contribute to accidents, he stresses that employees must always be aware of the "little things" and take action when they tempt us or our co-workers to perform unsafe acts. Concise version of title #787.

**LONG HAIR AND LOOSE CLOTHING SAFETY (VHS)**

13 Minutes

YEAR  
1999TITLE #  
251

Allowing long hair, loose clothing and jewelry to get tangled in moving parts and machinery causes many injuries and deaths each year. This video will show viewers how they can reduce the chance of such an injury by discussing topics such as: bulky clothing, gloves and shoes, jewelry, long hair and basic safety concerns.

**MAINTAINING YOUR SAFETY (DVD)**

20 Minutes

YEAR  
2009TITLE #  
33

Maintenance workers maintain all aspects of operations and equipment. They are such an important part of the process that they feel pressure to get all repairs done fast! In this program, maintenance workers learn how to overcome pressure and redouble their efforts to always follow safe work procedures. Also featured are reenactments of common maintenance incidents, testimonials and examples of safe work practices. Other topics include job hazard analysis, lockout/tagout, ladder safety, aerial lifts, fall protection, using tools properly and electrical safety.

**MAINTAINING YOUR SAFETY (SP DVD)**

**NEW EMPLOYEE SAFETY ORIENTATION AND TRAINING (SP DVD)**

13 Minutes

YEAR  
2005TITLE #  
417

Designed for the purpose of helping new employees to acclimate to workplace safety and OSHA guidelines, this DVD is packed with OSHA-friendly terms and safety procedures for new employees. It includes information on the use of personal protective equipment, hazard communication, the need and right to know of all possible hazardous substances on site, good housekeeping and proper labeling and handling of hazardous substances in the workplace.

<b>PALLET &amp; SKID SAFETY (EN/SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
14 Minutes	2008	92

There are many potential dangers when pallets and skids are misused. This program will address: types of wooden skids and pallets, weight capacities, wood quality and safe handling practices.

<b>REMEMBER CHARLIE (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
56 Minutes	2009	855

Charlie's journey from death's door following a refinery explosion, to his position as the world's leading presenter on why we all should follow safety procedures precisely.

<b>SAFETY'S TOP 10 (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
19 Minutes	2009	650

While the top 10 lists you see in magazines and on late night talk shows are created to get laughs, the list in this program focuses on a subject that is no laughing matter: causes of workplace injuries. With disturbing regularity, thousands of employees and contractors are injured or killed while on the job each year. Some people make the mistake of calling these types of incidents "accidents" and chalk them up to just "bad luck" or just being "in the wrong place at the wrong time, but safety professionals know better. Injury statistics show that the same types of incidents continue to occur over and over again. Viewers will see the top 10 causes of these incidents listed from 10 to one, but more importantly, they will learn how workplace injuries can be prevented. Topics include the prevention of the following causes of workplace injuries: workplace violence, repetitive motion injuries, body parts being caught in or crushed by equipment, motor vehicle collisions, the body being struck by objects, the body striking against objects, falls to lower levels, same-level slips and falls, overexertion and unsafe acts. (Spanish Version # 918)

<b>SAFETY'S TOP 10 (SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
19 Minutes	2009	918

<b>SECURITY AWARENESS FOR WORK, TRAVEL, AND HOME (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
16 Minutes	2001	570

The purpose of this presentation is to increase awareness of security issues and help us understand what we can do to remain secure at work, while traveling, and at home. Topics include: workplace security, harmful materials such as Anthrax in the mail, security tips for hotel guests, tourists, and automobile drivers, and finally security in the home.

<b>SHIFT WORK, SLEEP AND ALERTNESS (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
27 Minutes	1998	899

This program takes a close look at shift work and how it relates to sleep and on-the-job alertness. Among the topics covered are diet, exercise, what to do if you feel yourself sleepy on-the-job, the effects of light and darkness on sleep, the sun-up effect, white noise, and self-monitoring to improve your lifestyle and job performance.

<b>SPILL PREVENTION AND CONTROL: INSURING A SAFER WORLD (EN/SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
17 Minutes	2008	943

Spill prevention control and countermeasures, or SPCC, was enacted by the EPA to protect our waterways and shorelines from oil spills. The rule considers many substances other than petroleum to be "oil". For instance, animal-based oil, vegetable oil and biofuel are covered by the rule. Make sure your employees are familiar with the prevention and control measures they must take in the event of a spill at your facility.

<b>TAKE TIME FOR SAFETY (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
16 Minutes	2010	589

In our busy lives, we are often faced with time-management choices. When given the chance, we must always choose safety over time savings, because rushing causes us to lose focus, skip steps, and make bad decisions. In fact, the time we spend staying safe is time well spent. In this program, workers learn the very real hazards associated with rushing and being in a hurry. Through various examples, viewers will learn to recognize the symptoms of becoming rushed, why "hurried working" is so dangerous and what steps they can take to stay safe. The program also makes the point that being in a hurry is not the real cause of incidents and injuries, but rather a symptom of poor planning, poor choices and poor time-management--all of which can be prevented by proper preparation and organization.

**THINK AND BE SAFE (DVD)**

18 Minutes

YEAR

2007

TITLE #

127

While working as a paramedic and firefighter, Martin Lesperance frequently hears injury victims say "I just wasn't thinking" or "I didn't think." If not thinking causes their pain and suffering, then thinking about safety could prevent their pain, suffering and possibly even death. In this live presentation, Martin uses his on-the-job experiences to show that taking a moment to think and act on safety can make a huge difference in our lives and the lives of our families.

**UNDERSTANDING SAFETY AT WORK (DVD)**

24 Minutes

YEAR

2006

TITLE #

482

This presentation is an ideal induction program for new personnel and contractors and a great refresher for experienced staff. Topics covered in this title include: risk assessment, housekeeping, slips, trips & falls, hazardous substances, electrical hazards, work equipment safety, personal protective equipment, noise, material handling, fire, confined spaces and outdoor work.

<b>UTAH LABOR COMMISSION - KTVX SPECIAL PROGRAM (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
30 Minutes	1999	302

This video tells the story of Utahans who have either been injured or killed in industrial accidents and encourages workers to follow safety guidelines.

<b>WAREHOUSE SAFETY</b>	<u>YEAR</u>	<u>TITLE #</u>
18 Minutes	2015	574

Warehouses play a critical role in our economy. They tend to be fast-paced and busy environments which can give rise to many different types of hazards. As a result, more employee fatalities occur in warehouses than in most other workplaces, and thousands of injuries occur there every year. This training program makes sure employees are informed about warehouse hazards and how to avoid them. Included on the DVD is a Leader's Guide, End of Course Quiz, Completion Certificate, and Attendance Log

- Topics covered also include:
- Warehouse safety fundamentals
  - Materials handling basics
  - Pallets, storing and stacking
  - Working safety with forklifts
  - Working safely on a loading dock

<b>WHY SAFETY IS IMPORTANT (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
5 Minutes	2007	67

Safety has a profound impact on a company's profitability. If you have been looking for a way to help your management team see the need to strengthen your company's commitment to safety, this is the DVD for you.

<b>WORKPLACE HARASSMENT IN INDUSTRIAL FACILITIES (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
17 Minutes	2007	93

This presentation discusses the various types of harassment that are found in the workplace, how they can affect an employee's work situation and what employees themselves can do to help prevent workplace harassment.

<b>WORKPLACE HARASSMENT IN INDUSTRIAL FACILITIES (SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
17 Minutes	2007	492

This presentation discusses the various types of harassment that are found in the workplace, how they can affect an employee's work situation and what employees themselves can do to help prevent workplace harassment.

<b>WORKPLACE HARASSMENT IN THE OFFICE (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
17 Minutes	2007	475

This presentation discusses the various types of harassment that are found in the workplace, how they can affect an employee's work situation and what employees themselves can do to help prevent workplace harassment.

<b>WORKPLACE HARRASSMENT IN THE OFFICE (SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
17 Minutes	2007	150

This presentation discusses the various types of harassment that are found in the workplace, how they can affect an employee's work situation and what employees themselves can do to help prevent workplace harassment.

### GROUNDS & MAINTENANCE

<b>GOLF CART AND LSV SAFETY (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
17 Minutes	2011	992

Golf carts aren't just for the links anymore. Many industries are taking advantage of these and other low-speed vehicles (LSVs) for easy transportation. But, with the increase of usage comes an increase of incidents. In fact, thousands of golf cart incidents happen every year, many which are serious and sometimes even fatal. This program shows drivers how to properly identify potential dangers and hazards associated with operating a golf cart or utility vehicle. It presents ten basic safety rules for golf cart operation and further suggests common sense operating tips.

<b>GROUNDSKEEPING SAFETY (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
19 Minutes	2010	732

Viewers will learn about the hazards of exposure to the various machinery and elements of outdoor work environments. An emphasis is placed on working in the elements and how to recognize, prevent and handle heat stress situations.

<b>GROUNDSKEEPING SAFETY: BE A PRO (SP VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
17 Minutes	1997	419

This program covers topics such as: personal protective equipment, general checklist for safety, tractors, riding mowers, push mowers, trim and brush-cutting equipment and a checklist for hazardous materials.

<b>GROUNDSKEEPING SAFETY: DEALING WITH BUGS AND CRITTERS (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
15 Minutes	1999	974
This video is designed especially for public works, utility workers, government employees or anyone whose job function includes grounds maintenance or outdoor responsibilities. Topics include: basic PPE, snakes, wasps, bees, fire ants, ticks, rodents & the hantavirus, poison ivy/oak and first aid.		
<b>LANDSCAPING EQUIPMENT: SAFETY AND MAINTAINANCE (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
14 Minutes	2009	423
Covers commonly used equipment and safe landscaping practices like personal protective equipment and proper footwear. Also discusses the latest types of professional lawnmowers.		
<b>LANDSCAPING EQUIPMENT: SAFETY AND MAINTAINANCE (SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
14 Minutes	2009	433
Covers commonly used equipment and safe landscaping practices like personal protective equipment and proper footwear. Also discusses the latest types of professional lawnmowers.		
<b>NYESTRA ESPERANZA / OUR HOPE (SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
37 Minutes	2012	429
In this engaging program, viewers meet farm workers who relate their personal experiences working in high-risk situations. The program also presents other vital topics, including: working safely with tractors, power take-off devices, hydraulic systems and other machinery. Safety with livestock, fall protection, safety with pesticides and other chemicals, importance of communication, and reporting unsafe conditions and injuries.		
<b>TREE TRIMMING (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
15 Minutes	2011	834
This program demonstrates safety and maintenance methods for working with chain saws, chippers, high lift trucks, and general tree trimming safety. (Spanish Version # 797)		
<b>TREE TRIMMING (SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
15 Minutes	2011	797
This program demonstrates safety and maintenance methods for working with chain saws, chippers, high lift trucks, and general tree trimming safety. (English Version #834)		
<b>UTILITY CART SAFETY (SP VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
10 Minutes	2002	994
This video focuses on operating safety, inspections, safe driving techniques and basic safety requirements. Allowing operators to drive these vehicles without proper training increases a company's liability in the event anyone is injured as a result.		
<b>UTILITY CART SAFETY (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
10 Minutes	2002	975
This video is designed to address the many situations that are sometimes overlooked by operators of a utility cart. The following points are covered: daily inspections, general safe operating procedures and rules for riders.		
<b>WORKING OUTDOORS: MOSQUITOES AND TICKS (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
15 Minutes	2004	154
This video will teach outdoor workers proven methods for avoiding dangerous bites and the early warning signs of Lyme Disease, Encephalitis and West Nile Virus. Topics include: basic personal protective equipment, where mosquitoes breed, how to prevent tick bites and the early signs of infection.		
<b>WSI: GROUNDSKEEPING SAFETY (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
19 Minutes	2010	434
After a frightening incident, expert workplace investigators are called to crack the case. In the midst of the story, viewers will learn about the hazards of exposure to the various machinery and elements of outdoor work environments. An emphasis is placed on working in the elements and how to recognize, prevent and handle heat stress situations.		

**HOME & COMMUNITY SAFETY**

<b>101 DAYS OF SUMMER (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
20 Minutes	2008	10
From Memorial Day weekend through Labor Day, we enjoy all types of warm-weather events, but summer is also a critical time for injuries. In fact, more mishaps occur during these 101 days than they do the rest of the entire year. The key to preventing summertime injuries is to utilize the same safe work practices and attitude we use on-the-job and apply them to our off-job activities. This program provides a variety of safety tips that will help protect employees from common hazards of the season.		
<b>A BURNING ISSUE: IS YOUR FAMILY SAFE? (EN/SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
30 Minutes	2009	373
Three different segments are included in this DVD program: home fire prevention, smoke alarms & escape plans, and home fire sprinkler systems.		
<b>CARBON MONOXIDE INVISIBLE KILLER (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
15 Minutes	2008	451
Filmed in the style of a TV how-to program, this presentation uses live action scenes and thought provoking commentary to deliver critical facts about carbon monoxide exposure and how to drastically reduce the risk of injury or death from exposure to this dangerous gas.		
<b>HOLIDAY SAFETY (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
23 Minutes	2003	78
This video suggests certain things to be aware of to ensure the safety of your family and home during the holiday season. Topics include: fire prevention, carbon monoxide poisoning, driver safety and the abuse of alcohol.		
<b>HOW TO PREVENT HOME FIRES (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
12 Minutes	2008	461
This presentation demonstrates that everyday things, if not used properly, can become dangerous and even life-threatening, but that following simple precautions can head off fires before they start.		
<b>I CAN BE SAFE! (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
13 Minutes	1999	502
In a clever non-threatening way, potential safety hazards are pointed out at home, school, and other places in the neighborhood. This video shows how planning ahead can be helpful if an emergency strikes for example, knowing what to do when lightning strikes, having an exit plan if your home catches on fire, and knowing when to dial 911. For children grades K-4.		
<b>INJURIES DON'T TAKE HOLIDAYS (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
19 Minutes	2001	565
While the holiday season should be a joyous time enjoyed with family, all too often needless tragedies occur because holiday hazards are ignored. In this video firefighter and paramedic Martin Lesperance discusses safety topics such as fire, Christmas trees, candles, smoke detectors, driving safely in wintry conditions and alcohol abuse.		
<b>PLAYGROUND SAFETY: MAKING THE GRADE (EN/SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
12 Minutes	2005	505
Supervision is a key element to ensuring safety out on a playground. How you supervise has a big impact on safety as well. This program will show you some common issues that will help you as a supervisor.		
<b>RECREATIONAL SAFETY (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
13 Minutes	1997	757
Most of us don't realize recreational activities pose the same types of hazards found in the work environment. We must know what personal protective equipment is appropriate for each activity, along with basic safety practices, such as having access to a first aid kit.		
<b>RIDE SMART: IT'S TIME TO START (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
9 Minutes	2002	225
This video uses humor and real-life examples to teach children and youth about the life-saving benefits of wearing a bicycle helmet. This video explains how to purchase an approved bicycle helmet and briefly discusses the rules of the road.		
<b>TAKE SAFETY HOME: PREVENTING OFF THE JOB INJURIES (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
10 Minutes	2009	443
After working 25 years as a firefighter and paramedic, Martin Lesperance has treated thousands of injuries and medical emergencies. Now retired, Martin is a popular safety speaker, sharing his experiences with workers in order to prevent injuries. Martin knows that the majority of injuries occur off-the-job and conducted this presentation in front of a live audience to encourage all workers to "take safety home."		

<b>TAKE SAFETY HOME: PREVENTING OFF THE JOB INJURIES (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
20 Minutes	2009	452

After working 25 years as a firefighter and paramedic, Martin Lesperance has treated thousands of injuries and medical emergencies. Now retired, Martin is a popular safety speaker, sharing his experiences with workers in order to prevent injuries. Martin knows that the majority of injuries occur off-the-job and conducted this presentation in front of a live audience to encourage all workers to "take safety home."

<b>TAKE SAFETY HOME: PREVENTING OFF THE JOB INJURIES (SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
20 Minutes	2009	453

After working 25 years as a firefighter and paramedic, Martin Lesperance has treated thousands of injuries and medical emergencies. Now retired, Martin is a popular safety speaker, sharing his experiences with workers in order to prevent injuries. Martin knows that the majority of injuries occur off-the-job and conducted this presentation in front of a live audience to encourage all workers to "take safety home."

### **HOUSEKEEPING AND CUSTODIAL SAFETY**

<b>HOUSEKEEPING (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
11 Minutes	2009	548

The importance of keeping your facility neat and clean is often overlooked. This program reinforces the importance of proper housekeeping methods and illustrates the multiple benefits of keeping your work site in order from increasing safety, to improving your image, to better utilizing your space. Topics include: the importance of housekeeping, major causes of housekeeping hazards, and the three major housekeeping methods.

<b>HOUSEKEEPING IN MANUFACTURING (SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
12 Minutes	2012	50

An important aspect of safety is good housekeeping. The importance of good housekeeping is often overlooked. Proper housekeeping prevents injuries, fires and other safety hazards. This program emphasizes everyone's cooperation and effort in keeping their workplace clean, orderly, and safe. English Version #793

<b>HOUSEKEEPING IN MANUFACTURING (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
12 Minutes	2012	793

An important aspect of safety is good housekeeping. The importance of good housekeeping is often overlooked. Proper housekeeping prevents injuries, fires and other safety hazards. This program emphasizes everyone's cooperation and effort in keeping their workplace clean, orderly, and safe. Spanish Version #50

<b>SAFETY HOUSEKEEPING AND ACCIDENT PREVENTION (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
15 Minutes	2010	941

Good safety housekeeping can significantly reduce accidents and injuries in any type of work environment. By developing good safety habits, and by being aware of their work environment and any hazards associated with it, employees can help to create a much safer workplace. This program demonstrates to employees how to prevent workplace accidents by paying attention to safety housekeeping considerations including: developing a good "safety attitude," maintaining your work environment, using tools and equipment, hazardous materials: recognition and storage, hazardous materials: spill clean-up and disposal, Personal Protective Equipment and more.

<b>SAFETY HOUSEKEEPING AND ACCIDENT PREVENTION (SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
15 Minutes	2010	945

Good safety housekeeping can significantly reduce accidents and injuries in any type of work environment. By developing good safety habits, and by being aware of their work environment and any hazards associated with it, employees can help to create a much safer workplace. This program demonstrates to employees how to prevent workplace accidents by paying attention to safety housekeeping considerations including: developing a good "safety attitude," maintaining your work environment, using tools and equipment, hazardous materials: recognition and storage, hazardous materials: spill clean-up and disposal, Personal Protective Equipment and more.

### **INCIDENT PREVENTION & INVESTIGATION**

<b>ACCIDENT INVESTIGATION (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
23 Minutes	2006	422

This program will help everyone involved in an investigation-management, employees and investigators - understand their roles in the process. Viewers will also learn how to recognize common mistakes made during investigations and how to make the right changes that can prevent injuries and improve workplace safety.

<b>ACCIDENT INVESTIGATION FOR EVERYONE (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
23 Minutes	2007	888

All too often the focus of an investigation is to find someone responsible for an incident when it should really be about finding the facts and fixes that will prevent the incident from happening again. For an investigation to be successful it must lead to proactive safety improvements.

<b>ACCIDENT INVESTIGATION: THE BIG PICTURE (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
19 Minutes	2002	949

This innovative program discusses unsafe working conditions and will help your workers explore creative solutions that prevent future incidents. Topics include gathering facts and information, evaluating accidents and writing accident reports.

<b>ACCIDENT REPORTING (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
5 Minutes	2010	146

Employers are required to make accident reporting part of their written safety program. Observing details of an accident and accurately reporting them can save lives. Once the course of an accident is understood, measures can be taken for future prevention. Topics include: Eyewitness, observation, reporting and correcting hazards.

<b>ACCIDENTS AREN'T JUST ONE OF THOSE THINGS (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
20 Minutes	2003	4

With 20 years of experience as a firefighter and paramedic, Martin Lesperance has treated thousands of injuries and medical emergencies that have resulted from the poor choices and decisions people make everyday. In this program, Martin shares his experiences and stories with a live audience. He addresses many important safety issues such as: the injuries that we call "accidents" can be prevented, reasons to work safely, personal protective equipment and the repercussions of unsafe actions.

<b>IN THE LINE OF FIRE (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
14 Minutes	2005	216

This video discusses many workplace hazards and outlines general principles that can help employees prevent serious injury and death. This video features several incidents that illustrate the consequences of being in harm's way. Topics include: moving machinery, flying debris, automated equipment and the importance of observation and feedback.

<b>IN THE LINE OF FIRE CONSISE VERSION (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
9 Minutes	2005	754

The first 24 hours of a chemical spill are often the most critical. In a spill, employees should avoid exposure, assess the situation, and put the proper response plan into action. In fact, all employees having the potential to be exposed to a spill should be trained as first responders. This video discusses these points, along with the purpose of a spill contingency plan.

<b>INCIDENT INVESTIGATION (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
18 Minutes	2007	583

This presentation will help reinforce the importance of an incident investigation, the skills and techniques required to conduct an effective investigation, how to identify the true root causes of an incident and develop corrective actions and the importance of communication and follow up.

<b>IT ONLY TAKES A SECOND (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
3 Minutes	1995	7

This DVD is a series of powerful accident re-enactments showing injuries that catch the viewer's attention. It's a great meeting opener and emphasizes the importance of taking the extra time for safety.

<b>IT'S UP TO ME (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
14 Minutes	2002	764

This video is based on a poem by Don Merrell and brings its powerful safety message to life through the combination of video and poetry. Through several injury scenarios, meshed with stanzas from the poem, viewers will see both the right way and the wrong way to respond to unsafe conditions.

<b>LEADING INDICATORS: THE TENERIFE TRAGEDY (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
16 Minutes	2011	736

The worst aviation accident in history occurred in 1977 when two 747 jets collided on the island of Tenerife, killing 583 people. Just like hazardous situations that lead to injuries in the workplace, there were several "leading indicators" or warning signs preceding the collision that warned of impending danger. In this presentation, fighter pilot and safety speaker Jeff "Odie" Espenship discusses the three leading indicators that led to this tragedy and encourages viewers to slow down, re-plan and refocus when these warnings appear in our workplaces.

<b>OSHA'S INSPECTION AND CITATION PROCESS (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
14 Minutes	2004	161

This video prepares contractors and supervisors for an OSHA inspection. The video covers vital information on employer rights and responsibilities during and after the inspection process.

<b>PEDESTRIAN SAFETY IN INDUSTRY (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
14 Minutes	2001	555

This presentation shows pedestrians the precautions they must take to avoid these injuries. Topics include: awareness of walking hazards, understanding and obeying workplace signs, and avoiding danger in parking lots.

<b>RECOGNITION, EVALUATION AND CONTROL OF HAZARDS (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
13 Minutes	2003	997

This program examines hazards and suggests strategies that should be used in all workplaces. Topics discussed are: recognition, evaluation, control, elimination, substitution, engineering controls and personal protective equipment.

<b>WHEEL OF MISFORTUNE (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
8 Minutes	1997	777

This video reminds us that for every action there is a set of prescribed outcomes. Many times we "luck out", however, there is always the chance of an ultimate loss - death.

<b>WHEN YOU LEAST EXPECT IT (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
14 Minutes	1997	705

This program points out to employees that no matter how much you know about your job, things can go wrong if you don't follow good safety practices. Topics include unsafe conditions, labels and tags, personal protective equipment, tool and equipment safety, working with electricity, ladders, materials handling, lifting and back safety, hazardous chemicals and gases and more.

### MACHINE GUARDING

<b>MACHINE GUARD SAFETY (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
20 Minutes	2000	641

Machine Guard Safety is designed to help employees understand the dangers of working with machinery and how those risks can be minimized by proper installation and use of safety guards and devices. Topics covered in this presentation include: basic machine operations, fixed guards, adjustable and self-adjusting guards, interlock devices and several more.

<b>MACHINE GUARDING: PROTECTING YOU FROM HAZARDS (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
15 Minutes	2003	513

This video discusses common types of machine hazards, how they can be controlled and what actions must be taken to stay safe around moving equipment and machinery. Featured is testimony from workers who have been injured after removing or bypassing guards. Other topics include: potential machine hazard areas, controlling machine hazards, fixed guarding, electrical interlocks, photoelectric devices, pressure-sensitive trips and restraint devices.

<b>MACHINE GUARDING: PROTECTING YOU FROM HAZARDS (CONCISE DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
10 Minutes	2003	709

This video discusses common types of machine hazards, how they can be controlled and what actions must be taken to stay safe around moving equipment and machinery. Featured is testimony from workers who have been injured after removing or bypassing guards. Other topics include: potential machine hazard areas, controlling machine hazards, fixed guarding, electrical interlocks, photoelectric devices, pressure-sensitive trips and restraint devices.

<b>MACHINE GUARDING: SAFEGUARD YOUR FUTURE (EN/SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
14 Minutes	2008	558

This DVD will focus on safety guards, safety devices, lockout/tagout and PPE.

<b>MACHINES, OPERATORS AND GUARDS: REAL ACCIDENTS, REAL STORIES (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
15 Minutes	2008	307

This DVD is specifically designed to address the safe use of machine guards in compliance with OSHA 29 CFR 1910.212. The DVD introduces stories of workers whose lives were affected by overlooking machine guard safety.

### MEDICAL AND FIRST AID

<b>BASIC TRAINING SERIES: PREVENTING EXPOSURE TO BLOODBORNE PATHOGENS (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
20 Minutes	2001	597

This presentation details actions your workers can take to prevent contracting serious diseases. Topics include company's exposure control plans, methods of protecting against exposures and handling potentially contaminated items.

<b>BLOODBORNE AND AIRBORNE PATHOGENS (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
21 Minutes	2005	258
This video focuses on teaching how to protect employees from blood and airborne pathogens and what to do if there is an exposure. This video covers protection from hepatitis viruses, HIV and tuberculosis. Other topics include: OSHA standards, universal precautions and personal protective equipment.		
<b>BLOODBORNE PATHOGENS (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
29 Minutes	2001	265
This video covers the basics of bloodborne pathogen protection and explains how disease is transmitted, how to control exposure through precautions, personal protective clothing and equipment.		
<b>BLOODBORNE PATHOGENS (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
7 Minutes	2001	245
Train workers to respect the hazards associated with bloodborne pathogens with this one-of-a-kind video. This presentation explains what bloodborne pathogens are, modes of transmission, proper protective measures and misconceptions about exposure.		
<b>BLOODBORNE PATHOGENS FOR CUSTODIANS (EN/SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
16 Minutes	2004	624
This presentation teaches employees about the effective cleaning and disposal of potentially infectious material to keep them safe from the transmission of dangerous blood borne pathogens.		
<b>BLOODBORNE PATHOGENS IN COMMERCIAL AND LIGHT INDUSTRIAL FACILITIES (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
26 Minutes	1999	939
This video has been created to assist facilities that are endeavoring to educate their employees regarding exposure to, or contact with Bloodborne Pathogens.		
<b>BLOODBORNE PATHOGENS IN HEALTHCARE FACILITIES (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
26 Minutes	1999	940
This video covers the OSHA Bloodborne Pathogens Standard and how to reduce or eliminate exposure to Bloodborne Pathogens in healthcare facilities.		
<b>BLOODBORNE PATHOGENS UNIVERSAL PRECAUTIONS (EN/SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
14 Minutes	2011	699
This program will keep workers informed about situations where infections from blood and other body fluids are a risk factor. This program uses real life scenarios, on-site footage, and high-end animation to provide employees with the knowledge and training necessary to protect themselves and their co-workers. No matter the occupation, the risk of encountering a bloodborne pathogen is present. Teach your workers the hazards of bloodborne pathogens and how to reduce the risk of exposure. This program covers: diseases that could be transmitted, potential exposure routes, how to protect yourself, and what to do if exposure does occur.		
<b>BLOODBORNE PATHOGENS: ALWAYS PROTECT YOURSELF (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
16 Minutes	2012	858
This program is designed to educate your employees on how to protect themselves from bloodborne pathogens. The training video presents the circumstances of an exposure situation from three perspectives: the victim, the responder and the co-worker. Each tells their story and how it relates to how the viewer needs to protect themselves any time they are potentially exposed to an incident involving blood. Topics include what bloodborne pathogens are, universal precautions, and proper work practices for cleanup and exposure. (Spanish Version # 728)		
<b>BLOODBORNE PATHOGENS: ALWAYS PROTECT YOURSELF (SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
16 Minutes	2012	728
This program is designed to educate your employees on how to protect themselves from bloodborne pathogens. The training video presents the circumstances of an exposure situation from three perspectives: the victim, the responder and the co-worker. Each tells their story and how it relates to how the viewer needs to protect themselves any time they are potentially exposed to an incident involving blood. Topics include what bloodborne pathogens are, universal precautions, and proper work practices for cleanup and exposure. (English Version # 858)		
<b>BLOODBORNE PATHOGENS: CONTROL YOUR EXPOSURE (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
13 Minutes	2000	438
This program is designed to heighten awareness about the dangers of bloodborne pathogens in the workplace. Topics include: most common bloodborne diseases, universal precautions and PPE, clean-up and disinfection of contaminated equipment, and emergency procedures.		

<b>BLOODBORNE PATHOGENS: EXPOSURE IN THE WORKPLACE (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
60 Minutes	2007	730

OSHA's Bloodborne Pathogens Standard (29 CFR 1910.1030) requires organizations to provide training to general industry employees who could be exposed to bloodborne pathogens as part of their job duties. They are also responsible for developing an Exposure Control Plan. However, the possibility of exposure to bloodborne pathogens is a risk to all employees, making awareness-level training a good practice. This video will cover: what are bloodborne pathogens and how are they spread, info on the exposure control plan, engineering, work , and practice controls, PPE, how to respond to emergencies involving BBP, Hepatitis B vaccine, exposure evaluation and follow up, signs and labels used to warn of potential hazards.

<b>BLOODBORNE PATHOGENS: EXPOSURE IN THE WORKPLACE (SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
60 Minutes	2007	478

This presentation discusses what bloodborne pathogens and how they are spread, information on the exposure control plan, engineering, work and practice controls, PPE, how to respond to emergencies involving BBP, Hepatitis B vaccine, exposure evaluation and follow up and signs and labels used to warn of potential hazards.

<b>BLOODBORNE PATHOGENS: FIRST RESPONDER (EN/SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
17 Minutes	2005	876

This award winning program will help you protect industrial emergency responders from bloodborne pathogens with detailed information about the danger of exposure on-the-job.

<b>BLOODBORNE PATHOGENS: JUST THE FACTS (EN/SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
16 Minutes	2008	498

This program will help you meet the annual training requirements for employees who can be expected to be exposed to blood or bodily fluid on-the-job. This will give all viewers a complete picture of the risks of exposure, the kinds of diseases potentially present in blood and bodily fluids and the best practices to implement in order to stay safe in the event of exposure.

<b>BLOODBORNE PATHOGENS: SAFETY IN THE WORKPLACE</b>	<u>YEAR</u>	<u>TITLE #</u>
23 Minutes	2015	976

Bloodborne pathogens exposure can be a serious risk to all employees and one that companies cannot afford to take. This video trains employees (with or without occupational exposure) to recognize potential hazards and their own roles and responsibilities in safeguarding themselves at work. The DVD covers all of the critical aspects of bloodborne pathogens training.

Topics covered also include:

- What bloodborne pathogens are
- How these microorganisms are transmitted
- Who is at risk
- Nine standard preventative and control measures
- Steps to take if an employee should suffer an exposure incident
- What to do when an injury is observed
- Assessing your company's exposure control plan as a source of more information

<b>BLOODBORNE PATHOGENS: TAKE PRECAUTIONS (EN/SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
13 Minutes	2008	643

Your employees can never be too careful when it comes to the risks of deadly bloodborne pathogens. The program covers the three main types of these organisms including the symptoms and routes of transmission. It discusses methods to avoid infection and ways to deal with mishaps at work. Topics include HIV, HBV and HCV, transmission, accidents and injuries, and common sense safety precautions.

<b>CHEMICAL BURNS (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
5 Minutes	2004	872

The human body is amazing resistant to disease and infections – as long as the skins stays intact. But if we damage our skin, our survival can be threatened. Certain chemicals are capable of dissolving our skin. Therefore, unlike victims of other types of burns, chemical burn victims require special treatment. This program covers the basics of treating chemical burns.

<b>CPR &amp; AED AWARENESS TRAINING (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
31 Minutes	2012	806

Included in this video is a step by step approach on what to do for an adult cardiac emergency, calling 911, and a comprehensive description and demonstration section on how to perform CPR for the adult age group. This program also covers a brief introduction to the AED (Automated External Defibrillator), including how to operate one. (Spanish Version #924 )

<b>CPR &amp; AED AWARENESS TRAINING (SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
33 Minutes	2012	924

Included in this video is a step by step approach on what to do for an adult cardiac emergency, calling 911, and a comprehensive description and demonstration section on how to perform CPR for the adult age group. This program also covers a brief introduction to the AED (Automated External Defibrillator), including how to operate one. (English Version # 806)

**CPR AND AED: THE CHAIN OF SURVIVAL (EN/SP DVD)**

12 Minutes

YEAR

2009

TITLE #

930

Every two minutes, someone dies of sudden cardiac arrest. When it happens to someone in your workplace, can he or she survive such an event? This program covers the four links in the chain of cardiac survival including early access to care, early CPR, early defibrillation or electric shock, and early advanced cardiac life support. Give your employees knowledge to act safely and save a life.

**ELECTRICAL BURNS (DVD)**

5 Minutes

YEAR

2004

TITLE #

689

Using electricity to perform many everyday tasks has become a way of also be very dangerous. Electrical burns can result from unsafe electrical equipment or poor safety practices. This program also describes the proper treatment for electrical burns.

**FIRST AID (SP DVD)**

15 Minutes

YEAR

2008

TITLE #

533

This presentation show's employees that knowing basic first aid can often limit the severity of any type of injury, or even prevent a death. Topics covered include cuts and bleeding, muscle pulls and sprains, burns, broken bones, shock, artificial respiration and CPR, AEDs (Automated External Defibrillators) and more.

**FIRST AID (SP VHS)**

62 Minutes

YEAR

1999

TITLE #

111

This is an instructor's video program, designed for training others in first aid. This program meets standards for training persons in basic first aid by: Red Cross, American Heart Association and OSHA. Topics include bleeding, animal bites, stings, shock, fainting, strokes and all other topics necessary for first aid training. Each topic is separated by a stop sign, allowing the instructor to stop the video and provide hands-on demonstrations or testing.

**FIRST AID FOR COMMON INJURIES (DVD)**

42 Minutes

YEAR

2008

TITLE #

155

This DVD is in the format of a narrated PowerPoint presentation. It explains how to recognize the symptoms and provide first aid for various common injuries and illnesses including concussions, eye injuries, burns, fractures, dislocations, bites and environmental emergencies.

**FIRST AID FOR EMERGENCIES (DVD)**

28 Minutes

YEAR

2008

TITLE #

623

This DVD is in the format of a narrated PowerPoint Presentation. It explains how to recognize the symptoms of and provide first aid in various life threatening situations, including cardiac emergencies, shock, stroke, poisoning and more.

**FIRST AID: PREPARED TO HELP (EN/SP DVD)**

18 Minutes

YEAR

2009

TITLE #

397

Being first on the scene of a workplace accident can be cause for panic. But with the training provided in this program, you can be confident that your employees can keep their cool, respond swiftly and apply life-saving measures. Get first-aid tips and learn these emergency response principles: Survey the scene, send someone to call for emergency response help, calm yourself and gain the confidence of the victim and assess the victim's condition.

**FIRST AID: UNTIL HELP ARRIVES (DVD)**

20 Minutes

YEAR

2008

TITLE #

94

In this program, best-selling author/EMT Martin Lesperance shares experiences and tips he's learned from 25 years of working in emergency services while showing viewers how to respond in a variety of emergency situations.

**FIRST RESPONSE: BLEEDING AND SOFT TISSUE INJURIES (VHS)**

26 Minutes

YEAR

2004

TITLE #

96

This video prepares the viewer to recognize various injuries and reduce their risks quickly and safely. Types of wounds are analyzed along with first aid techniques, applying bandages and reducing the risk of infection.

**FIRST RESPONSE: HEAD, SPINAL AND MUSCULOSKELETAL INJURIES (VHS)**

24 Minutes

YEAR

2004

TITLE #

101

This program reviews how to help a victim who may have sustained such an injury. The video covers how to recognize symptoms, ways of lessening pain and splinting the injured body part. Using the acronym RICE, viewers learn how to help a victim rest, to immobilize the injury, put on cold compresses and elevate the injured area.

**FIRST RESPONSE: MEDICAL CONDITIONS AND POISONING (VHS)**

28 Minutes

YEAR

2004

TITLE #

105

This video shows how to handle crisis situations than can arise from allergies, diabetes, seizures and excessive heat or cold while outlining what triggers them. This program reviews signs of poisoning, heat stroke and hypothermia. Viewers will gain confidence in handling emergencies as they learn to provide necessary lifesaving measures to those in need.

**FIRST RESPONSE: THE ABCD'S OF CPR (VHS)**

32 Minutes

YEAR

2004

TITLE #

103

This video covers techniques such as rescue breathing, cardiopulmonary resuscitation (CPR) and clearing airway obstructions for adult patients. Heart attack and stroke recognition, treatment as well as the principles and implementation of the automated external defibrillator (AED) are also described. This program is designed to provide community and non-professional rescuers with the knowledge and skills required to deal with life-threatening emergencies.

**FIRST STEPS IN ALL FIRST AID SITUATIONS (DVD)**

32 minutes

YEAR

2008

TITLE #

873

This DVD is in the format of a narrated PowerPoint presentation. It explains the importance of quickly calling 911, the first five steps of providing emergency first aid, how to perform artificial respiration and CPR and how to use an automated external defibrillator.

**H.I.D.E. & S.E.E.K.! 8 STRATEGIES TO PREVENT THE SPREAD OF INFECTIONS (VHS)**

28 Minutes

YEAR

2001

TITLE #

35

Controlling disease requires knowledge, awareness and a willingness to change old habits. H.I.D.E. stands for Hand washing, Immunization, Drug Safety and Eating Safety. S.E.E.K. stands for Safe Personal Practices, Environment, Elderly and Kids. This video covers all of these topics and shows viewers ways to prevent the spread of infection.

**HANDWASHING: AVOIDING GERMS AND VIRUSES AT WORK (EN/SP DVD)**

8 Minutes

YEAR

2004

TITLE #

685

A simple step can save lost work days. Remind your employees of the importance of washing their hands to stop the spread of germs and viruses.

**HEALTHCARE ASSOCIATED INFECTIONS: PREVENTION AND CONTROL (EN/SP DVD)**

19 Minutes

YEAR

2010

TITLE #

792

According to CDC statistics, healthcare associated infections have endangered more than 1 million patients resulting in 99,000 deaths annually. The costs the healthcare facilities can be staggering! With this new program, your staff will learn the common healthcare associated infections causes and detailed prevention measures which include: PPE, CDC Standard Precautions, and transmission methods.

**HEAT ILLNESS (VHS)**

5 Minutes

YEAR

1999

TITLE #

120

Working in high temperatures and humidity can lead to a heat-related illness, which, if not treated, may cause permanent injury or even death. This video stresses that early recognition and proper treatment can prevent a medical emergency.

**HIPPA COMPLIANCE (EN/SP DVD)**

10 Minutes

YEAR

2010

TITLE #

229

This program will help you understand what the HIPPA rulings mean, what your company must do and the steps that must be taken to bring your organization into compliance.

**PANDEMIC INFLUENZA: THE FACTS (DVD)**

10 Minutes

YEAR

2009

TITLE #

942

This program is a great way to raise awareness in your workplace and give your associates the tools they need to act and react in a calm, confident manner in the event of an outbreak or potential outbreak situations.

**PREVENTING THE SPREAD OF CONTAGIOUS ILLNESS (DVD)**

20 Minutes

YEAR

2009

TITLE #

802

This program, which includes information about seasonal flu, avian flu, SARS and MRSA in addition to swine flu, explains the origins and symptoms of these illnesses as well as the general hygiene and prevention measures required to prevent spreading and contracting all contagious illnesses. The video stresses prevention and the personal responsibility required to avoid spreading an illness or infection. Other topics include decontaminating work areas, special MRSA precautions, responding to a potential infection, medical diagnosis and treatment of contagious illnesses, measures to take at home once you are infected and how to prepare for and respond to a pandemic of an illness. (Spanish Version #810)

**PREVENTING THE SPREAD OF CONTAGIOUS ILLNESS (DVD)**

20 Minutes

YEAR

2009

TITLE #

383

The purpose of this program is to help employees understand how to prevent becoming infected by and transmitting these contagious illnesses. This DVD describes symptoms and warning signs of these illnesses and how to respond to a suspected infection. It also covers the use of face masks to prevent infection, precautions to take in areas suspected of contamination, how illnesses are diagnosed and treated and how to prepare for and respond to a pandemic.

<b>PREVENTING THE SPREAD OF CONTAGIOUS ILLNESS (SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
20 Minutes	2009	284

The purpose of this program is to help employees understand how to prevent becoming infected by and transmitting these contagious illnesses. This DVD describes symptoms and warning signs of these illnesses and how to respond to a suspected infection. It also covers the use of face masks to prevent infection, precautions to take in areas suspected of contamination, how illnesses are diagnosed and treated and how to prepare for and respond to a pandemic.

<b>PREVENTING THE SPREAD OF CONTAGIOUS ILLNESS (SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
20 Minutes	2009	810

This program, which includes information about seasonal flu, avian flu, SARS and MRSA in addition to swine flu, explains the origins and symptoms of these illnesses as well as the general hygiene and prevention measures required to prevent spreading and contracting all contagious illnesses. The video stresses prevention and the personal responsibility required to avoid spreading an illness or infection. <b>PREVENTING THE SPREAD OF CONTAGIOUS ILLNESS CONCISE (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
10 Minutes	2009	827

This program, which includes information about seasonal flu, avian flu, SARS and MRSA in addition to swine flu, explains the origins and symptoms of these illnesses as well as the general hygiene and prevention measures required to prevent spreading and contracting all contagious illnesses. The video stresses prevention and the personal responsibility required to avoid spreading an illness or infection.

<b>PREVENTING THE SPREAD OF CONTAGIOUS ILLNESS SHORT VERSION (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
10 Minutes	2009	695

The purpose of this program is to help employees understand how to prevent becoming infected by and transmitting these contagious illnesses.

<b>PROTECTING YOURSELF AND YOUR COMMUNITY FROM WEST NILE VIRUS (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
20 Minutes	2003	418

This video was produced for use by community groups, health departments, work sites and others to educate citizens about West Nile Virus.

<b>PROTECTING YOURSELF AND YOUR COMMUNITY FROM WEST NILE VIRUS (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
20 Minutes	2003	484

This video was produced for use by community groups, health departments, work sites and others to educate citizens about West Nile Virus.

<b>RESISTING THE FLU: HOW TO MINIMIZE YOUR RISK (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
13 Minutes	2009	807

In this program from Stanford you will learn how to reduce the likelihood of infection from both regular seasonal flu and the H1N1 virus. This training film offers straight talk from Dr. Eric A. Weiss, Medical Director of Disaster Planning and Associate Professor at Stanford University School of Medicine.

<b>STRESS MANAGEMENT: A PRACTICAL APPROACH (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
18 Minutes	1997	652

Outlining the ways that stress affects a person's mind and body, this presentation shows employees how to recognize the symptoms of stress in themselves and others while providing them with simple stress relieving techniques.

<b>SUDDEN CARDIAC ARREST (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
60 Minutes	2006	14

There are five chapters in this production consisting of: Introduction to sudden cardiac arrest, survival stories, the importance of CPR and AED training, AED's in the home and AED's in the workplace.

<b>THERMAL BURNS (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
5 Minutes	2004	980

Working around gasoline and volatile fumes can be dangerous. Even a small spark may produce an explosive fire which can result in first, second or degree burns. Proper treatment of these burns is essential to the victim's survival. Proper first aid procedures are demonstrated.

<b>TO THE POINT ABOUT: BLOODBORNE PATHOGENS (EN/SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
12 Minutes	2014	701

Workplaces are full of hazards, hazards that can kill us. One such hazard is Bloodborne Pathogens. This program trains your employees on the dangers of Bloodborne Pathogens and how to control exposure that will prevent diseases and save lives. This program quickly gets to the point about the important topic of Bloodborne Pathogens and explains OSHA's required training points to your employees. This DVD contains both English and Spanish versions.

Topics covered also include:

- Diseases
- Exposure Control Plan
- Occupations
- Routes of Entry
- Proper Disposal
- Action after exposure
- and more

<b>TUBERCULOSIS AWARENESS (EN/SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
16 Minutes	2005	449

Anyone can contract TB and its drug-resistant strains, including your employees. Protect them with this valuable program that helps employees understand TB and how to fight it.

<b>WORKING WITH STRESS (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
17 Minutes	2002	343

This video provides a basic overview of stress caused each day by the working environment. Topics include physical and psychological effects of stress, stress and disease, stress management programs, and outlines the NIOSH Model of Job Stress. The video also includes case studies of stress management programs.

### **METAL CUTTING & FORMING**

<b>HIGH IMPACT METAL WORKING SAFETY (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
19 Minutes	2006	472

This presentation covers: saws, press brakes, metal cutting shears, grinders, sanding, hoists and cranes, welding and cutting.

<b>HIGH-IMPACT WELDING SAFETY (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
19 Minutes	1997	319

This powerful program uses six incident re-creations to remind viewers that welding and cutting operations are inherently dangerous and that workers who weld must follow all the safety rules to protect themselves from serious injury or death. The video also illustrates positive welding and cutting points on a variety of topics including gas welding, arc welding, fire prevention, handling/storage of gas cylinders, confined space and personal protective equipment.

<b>MECHANICAL POWER PRESSES &amp; POWER TRANSMISSION APPARATUS (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
5 Minutes	2000	966

Machine power drives industry, but it also poses hazards to workers. To ensure safety, the machine operator must respect the power of the machine as well as the source of the power. Key training points include: mechanical power presses, machine hazards, machine guards and mechanical power transmission.

<b>OXYACETYLENE SAFETY (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
25 Minutes	1998	909

This program shows the importance of following basic safety rules when working with oxyacetylene mixtures. Ten rules of oxyacetylene safety are given and illustrated. This program also demonstrates the serious dangers and effects of misuse of oxyacetylene equipment.

<b>WELDING AND CUTTING SAFETY (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
10 Minutes	1997	790

This video involves viewers by reviewing basic safety procedures associated with welding and cutting. Topics include personal protective equipment, understanding the hazards, MSDSs and emergency procedures.

<b>WELDING SAFETY (EN/SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
13 Minutes	2007	690

This program teaches employees to recognize and respect the potential hazards and motivates them to use best safety practices to prevent property damage and injury. Topics include: Types of welding, Potential hazards, Purpose and importance of ventilation, Proper personal protective equipment, Purpose and procedures of a hot work permit, Fire prevention techniques, and Special welding situations.

<b>WELDING: SECURITY MEASURES FOR HOT WORK (SP VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
18 Minutes	1999	51

This program details various types of welding and discusses vital safety precautions. Topics include personal hazards, hazardous fumes and substances and equipment safety.

**MINING**

<b>AGGREGATE TRAINING FOR THE SAFETY IMPAIRED (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
35 Minutes	2002	436

This video follows two new hires through their first week on-the-job. In the course of the week, Ted and Slick are fired from four different mines and learn the hard way what can happen if the dangers of surface mining are ignored. This video uses humor to present 15 different hazards, as well as safety tips on how to avoid these hazards.

<b>ARC FLASH AWARENESS (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
25 Minutes	2009	8

This DVD provides information on the causes and prevention of arc flash and safety recommendations.

<b>BLAST AREA SECURITY (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
5 Minutes	2006	637

The objective of this program and interactive DVD is to improve blast safety by providing information about blast area security to those working around blast sites.

<b>CHEMICAL HAZARD INFORMATION (EN/SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
17 Minutes	2002	292

This program is intended to train miners to understand how chemicals can enter the body. It also teaches the contents of chemical labels and MSDSs as well as how to interpret the technical terms found on MSDSs. It can be shown to miners as part of your training program, explaining a critical HazCom provision.

<b>CONDUCTING A CHEMICAL HAZARD DETERMINATION (SP VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
16 Minutes	2002	255

MSHA's HazCom requires mine operators to inventory the chemicals at their mines and determine which are hazardous. This video helps mine operators conduct that inventory by explaining HazCom and how it applies to the most common mine chemicals. The video walks the viewer through HazCom's decision process of chemical hazard determination. It can also be shown to miners as part of your training program, explaining a critical HazCom provision.

<b>CONDUCTING A CHEMICAL HAZARD DETERMINATION (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
12 Minutes	2002	254

MSHA's HazCom requires mine operators to inventory the chemicals at their mines and determine which are hazardous. This video helps mine operators conduct that inventory by explaining HazCom and how it applies to the most common mine chemicals. The video walks the viewer through HazCom's decision process of chemical hazard determination. It can also be shown to miners as part of your training program, explaining a critical HazCom provision.

<b>CUSTOMER DELIVERY AND TRUCK DRIVERS HAZARD TRAINING (EN/SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
10 Minutes	1997	305

This program provides hazard information for truckers who frequent mine sites. Covered are safe work behaviors that will help truck drivers avoid the dangers of ground, electrical, transportation, slip and fall, and numerous other hazards that are common in and around mine sites.

<b>DAWN OF A NEW DAY: CONTINUOUS HAULAGE SAFETY (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
23 Minutes	1998	304

This video addresses the hazards associated with continuous face haulage systems.

<b>DEISEL POWERED VEHICLES (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
55 Minutes	2005	415

This interactive DVD covers various topics concerning Diesel Powered Vehicles. The topics include the final phase of the diesel regulations, Sections 75.1909, 75.1910, and 75.1911 of the Code of Federal Regulations, as well as adjusting and maintaining a diesel-powered engine, and defining what is an approved diesel-powered engine. We will also look at how a fire suppression system works. (Diesel Regulations: Light Duty Vehicles: 11 min. Diesel Regulations: Heavy Duty Vehicles: 16 min, Maintaining Diesel Engines 13 min, Fire Suppression: How It Works 15 min).

**ELIMINATING SILICOSIS (VHS)**

25 Minutes

<u>YEAR</u>	<u>TITLE #</u>
1998	551

Silicosis is a serious lung disease that results from exposure to silica dust which is often generated in the process of mining. Silicosis can be prevented. How bad can it be? How quickly can it be contracted without preventive steps? This video answers these questions, as well as discusses some of the historical steps taken to reduce the exposure to silica.

**EQUIPMENT GUARDING (DVD)**

150 Minutes

<u>YEAR</u>	<u>TITLE #</u>
2005	280

This is a two-disc, inter-related series of video segments on an interactive DVD that explore equipment guarding in-depth. It discusses types of guards, guard construction, qualities, materials, attachment, and applications of new technology, with an emphasis on hazard analysis and risk assessment. A variety of mining equipment is shown with guards of all types and qualities. Also included are PowerPoint presentations with photographs illustrating guarding principles and practices. The focus is on training and improving guards toward "best practice" quality.

**EQUIPMENT GUARDING (EN/SP DVD)**

17 Minutes

<u>YEAR</u>	<u>TITLE #</u>
2006	267

SLAM is a tool that every miner should use before every task, during the task, and after the task, regardless of the size or complexity. Simply Stop to think about the task; take a few seconds to Look around the area and identify the hazards for each step; Analyze whether you have the proper knowledge, training, and tools; and Manage the hazards by removing or controlling them and using proper equipment. On the other hand, SMART is a tool that is used by mine management that involves miners at all levels of the process. The first key step is to develop a team or teams where the members are comprised of management and miners.

**FALL PROTECTION IN MINING (SP VHS)**

14 Minutes

<u>YEAR</u>	<u>TITLE #</u>
2002	249

This video provides an overview of the hazards associated with doing work at elevated locations and the importance of fall protection. Common types of fall protection systems are presented, including personal fall arrest and restraint devices. Special emphasis is placed on the development of site specific policies and procedures, with regard to fall protection regulations in the mining industries.

**FALL PROTECTION: YOUR LIFELINE TO SAFETY (EN/SP DVD)**

14 Minutes

<u>YEAR</u>	<u>TITLE #</u>
2000	404

This program provides an overview of the hazards associated with doing work at elevated locations and the importance of fall protection. Common types of fall protection systems are presented, including personal fall arrest and restraint devices. Special emphasis is placed on the development of site-specific policies and procedures, with regard to fall protection regulations in the mining industries.

**FIRE IN THE HOLE: MINING DISASTERS (VHS)**

50 Minutes

<u>YEAR</u>	<u>TITLE #</u>
1999	330

This video takes you deep beneath the earth for a chilling look at three of the worst mining disasters in history. You will examine the explosion in West Virginia in 1907, a methane gas explosion in Illinois, and a fire in a South African gold mine. This video provides an in depth look at the history of mining.

**GOOD BERMS SAVE LIVES (EN/SP DVD)**

15 Minutes

<u>YEAR</u>	<u>TITLE #</u>
1998	16

This informative program discusses one mine's concern about berms on their mining property. The mine studied their berms using various materials and different berm heights. The size and speed of mining equipment, weather conditions and grades also play a role in proper berm construction.

**GROUND SUPPORT... IT'S IMPORTANT: MIKE MINER SAVES THE DAY! (VHS)**

33 Minutes

<u>YEAR</u>	<u>TITLE #</u>
2000	55

Winner of the NIOSH 2001 Alice Hamilton Award for Excellence in Educational Materials, this video exudes both humor and wisdom. Filmed in six different underground locations, this video teaches the necessity and the use of ground supports. This video uses actual hard rock miners to teach the importance of ground supports underground.

**HAUL ROAD AND DUMP SITE BERMS (DVD)**

44 Minutes

<u>YEAR</u>	<u>TITLE #</u>
2002	593

Three complete programs are included on this DVD: Good Berms Save Lives (15 minutes), Dump Point Safety (14 minutes) and Coal Dump Safety (15 minutes).

**HAZARD COMMUNICATION (DVD)**

29 Minutes

<u>YEAR</u>	<u>TITLE #</u>
2003	178

This interactive DVD contains two previously produced Hazard Communication programs, a brief interactive quiz, and a detailed in-depth look at MSHA's HazCom Standard. The material provides a broad look at properties and potential safety and health hazards of substances to which employees may be exposed. This material may not address specific conditions or equipment at your mine, and therefore should be used as a supplement to your own mine-specific training.

**HAZARDS AND SAFETY PRACTICES ON SURGE PILES (SP VHS)**

11 Minutes

YEAR

1997

TITLE #

718

This video is designed to make dozer operators, miners, and others who work on or around surge piles aware of the hazards associated with surge piles and inform them of the recommended safety practices.

**HAZARDS IN MOTION (VHS)**

34 Minutes

YEAR

2001

TITLE #

439

This video teaches mobile equipment safety for underground miners. The video follows the misadventures of Ben, a new miner with a short attention span and a big ego. Through a series of bad choices, a couple near-death experiences, and some divine intervention, Ben learns the basics of working safely in a modern mechanized mine.

**INSPECTION, CARE, AND USE OF THE OCENCO M-20 SCSR (DVD)**

11 Minutes

YEAR

2009

TITLE #

766

This DVD demonstrates proper inspection, maintenance and donning procedures of the Ocenco M-20 Self-Contained Self-Rescuer (SCSR). The program emphasizes some of the M-20 features, shows how to thoroughly inspect the unit, and demonstrates what it is like to wear the SCSR in an evacuation exercise.

**LIGHTNING IN MINING (SP VHS)**

14 Minutes

YEAR

2002

TITLE #

257

This video discusses facts and misconceptions of lightning and talks about avoiding, survival and first aid treatment in the event of a lightning strike.

**LIGHTNING IN MINING (VHS)**

13 Minutes

YEAR

2002

TITLE #

256

This video discusses facts and misconceptions of lightning and talks about avoiding, survival and first aid treatment in the event of a lightning strike.

**MINERS (DVD)**

50 Minutes

YEAR

2008

TITLE #

341

This program provides an insight into the world of miners. From the gold mines of Nevada to the Pittsburgh Seam in the Appalachians, you will meet the men and the machines that extract the natural resources from the earth. This video also includes information on the West Virginia Disaster of 1968, which killed 78 men.

**RECOVERY OF FARMINGTON #9 "AN INTERVIEW WITH DANNY KUHN" (VHS)**

60 Minutes

YEAR

1999

TITLE #

191

This video is an in depth interview with Danny Kuhn, a surviving member of the mine rescue team for a coal mine in Virginia. He details the destruction and recovery efforts after explosions in the mine on November 20, 1968.

**ROCK ALONG (DVD)**

9 Minutes

YEAR

2005

TITLE #

540

This dramatic video exemplifies what can happen in an underground coal mining environment when shortcuts are taken and production comes before safety.

**ROCK FALLS - PREVENTING ROCK FALL INJURIES IN UNDERGROUND MINES (VHS)**

20 Minutes

YEAR

1999

TITLE #

435

A close companion to "Miner Mike Saves The Day", this video teaches the importance of proper roof scaling in underground mining to avoid injury and improve work conditions. This video won the Alice Hamilton Award for Excellence in Educational Materials in 2000 and breaks down scaling methods into five easy steps.

**SAFETY ON OR NEAR WATER (EN/SP DVD)**

14 Minutes

YEAR

1998

TITLE #

861

This program discusses the hazards of working on or near the water and the precautions that need to be taken to protect the workers in this situation.

**SAFETY TIPS - WORKING BESIDE HIGHWALLS (SP VHS)**

5 Minutes

YEAR

2002

TITLE #

553

To increase your awareness of high wall safety, this video lets you follow a supervisor as he makes his rounds at a surface mine operation.

<b>SEAT BELT SUCCESS: THE ROGER NORMAN STORY PART 2 (EN/SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
7 Minutes	1996	321
This program tells how a bulldozer operator survived a 160 foot fall from a high wall while buckled in with his seat belt. He miraculously walked away from the accident.		
<b>SELF CONTAINED SELF RESCUERS (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
90 Minutes	2006	281
The Mine Safety and Health Administration has developed this comprehensive interactive and versatile DVD containing five videos. The goal of this interactive DVD is to help prepare you to make the best decisions to help save lives.		
<b>SLIPS, TRIPS, AND FALLS (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
9 Minutes	2010	726
In this DVD, various types of slip, trip and fall accidents are depicted in surface mines, plants, on dredges, and in offices. This DVD stresses the importance of being alert, observant, and cautious. Special emphasis is placed on proper climbing procedures (ladders, stairways); good housekeeping (cleaning spills, removing tripping objects); and following company safety rules. The best way to prevent slip, trip, and fall accidents are through effective safety training, combined with safe work practices.		
<b>THE CHOICE IS YOURS (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
9 Minutes	2005	294
Numerous accidents have occurred where a miner was struck by or run over by underground mobile equipment. Wearing reflective clothing will make miners more visible and allow them to be seen. You must dress for work every day, so why not use reflective clothing? It takes no extra effort and there is no excuse not to do it.		
<b>THE DISEASE...SILICOSIS (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
5 Minutes	1998	878
This video discusses the history of silicosis and emphasizes the hazards for workers in the mining industry.		
<b>THE FIRE AT DOTIKI (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
12 Minutes	2005	550
This program describes an underground coal fire, the actions of the miners, the efforts of management, and the assistance and experience of the Mine Safety and Health Administration. The program reviews the relationship between management and government to reach a common goal.		
<b>THE RIGHT CHOICE (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
30 Minutes	2005	547
It is everyone's responsibility to make "The Right Choice" regarding danger zones around mining machines. Making the right choice can affect your family, friends and community. This program also discusses best practices and presents personal interviews from miners who were injured.		
<b>TODAY'S TECHNOLOGY NEEDS TOMORROWS HEROES (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
14 Minutes	2009	21
Highly trained mine rescue teams have worked diligently in dangerous environments to rescue miners. These men and women have been aided by the newest technologies available to protect them and to respond rapidly to the dangers present in coal mines. As younger miners enter the workforce, mentors are encouraged to pass on the wisdom of their experiences. These young miners and mine companies are reminded that mine rescue teams benefit both the individual miner and the mining company.		
<b>UNDERGROUND-HANDLING EXPLOSIVES IN MODERN MINES (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
15 Minutes	1998	546
This video teaches new miners basic safety rules to keep from hurting themselves or others while handling explosives.		
<b>WHAT DOES THE TERM SILICOSIS MEAN TO YOU? (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
13 Minutes	1998	890
This video is designed to raise the awareness of silicosis in the workplace and to stimulate a discussion of the disease.		
<b>YOU ARE MY SUNSHINE (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
67 Minutes	2002	692
This video tells the story of the Sunshine Mine disaster of 1972 through the eyes of 27 people who lived through it. The video explores what happened, what went wrong, and what lessons were learned. The Sunshine Fire was the catalyst for the Metal/Nonmetal Health and Safety Act of 1977, which put in place the MNM regulations we currently have in this country. This video describes in vivid detail what happened during this tragic and historic event, which cost the lives of 91 miners.		

<b>ZEN AND THE ART OF ROCK BOLTING (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
33 Minutes	2002	437

This video features a "master miner" who has worked underground for nearly 40 years. The video follows Jim as he teaches young Ted three important things: 1) What is important to know; 2) How to do things and 3) The culture of hard rock mining. The main theme is how to work safely and efficiently.

### OFFICE SAFETY

<b>ACTIVE SHOOTER AND WORKPLACE VIOLENCE</b>	<u>YEAR</u>	<u>TITLE #</u>
10 Minutes	2014	659

Emergencies involving violence are unfortunately a real possibility in today's workplace. This can also include encountering an active shooter on the premises. One of your job responsibilities is to be prepared and know how to respond should such an emergency occur at your workplace. Knowing the proper procedures to follow during an emergency could mean the difference between life and death. The purpose of this program is to familiarize you with basic response practices when encountering workplace violence, practices that will help you to be prepared for and to respond to a violent emergency.

Topics covered also include:

- Indicators of potentially violent behavior
- How to respond to violent behavior
- How to respond to an active shooter situation
- How to react when law enforcement arrives at an active shooter scene

<b>COMPUTER WORKSTATION SAFETY (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
18 Minutes	2003	968

Today much of the work we do involves computers, whether it's in the warehouse or in the accounting department. Just like any other type of equipment, we need to know what potential problems may be involved in working with computers as well as how to use computers safely. This program reviews the safe use of computers, and offer practical solutions to many potential problems. Topics covered in these products include: organization of work materials, maintaining "neutral" positions, positioning the back and torso, avoiding and relieving eyestrain, avoiding and relieving muscle strain, tension and stress reducing exercises and more.

<b>FACILITY SECURITY: THE CRITICAL LINK (EN/SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
17 Minutes	2005	494

This program details the important points in maintaining facility security to protect your facility from a potential terrorist attack.

<b>MAKING IT FIT: IMPROVING OUR OFFICE COMFORT (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
16 Minutes	2011	581

A desk, a chair, a phone, a monitor, a keyboard and a mouse are the standard working tools of millions of people. But these simple tools can take their toll when we don't fit the equipment to the physical needs of the office worker. This program covers ergonomics in the office environment and how to avoid the fatigue, strain and stress that can result from the poor office setup.

<b>OFFICE ERGONOMICS: ADJUSTING YOUR WORKSTATION AND POSTURE (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
14 Minutes	2011	702

This unique approach to ergonomics training begins by asking each viewer to select what area of their body, if any, is experiencing pain or discomfort. Viewers are shown common postures that can cause or contribute to the conditions. The viewer is then led through a comprehensive and specific method of adjusting a workstation to maximize neutral postures and minimize pain, discomfort and strain. This program also points out the multitude of other factors outside of the workplace that can contribute to musculoskeletal disorders. This encourages viewers to take steps to adopt neutral postures in all of their activities. (Spanish version # 176)

<b>OFFICE ERGONOMICS: ADJUSTING YOUR WORKSTATION AND POSTURE (SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
14 Minutes	2011	176

This unique approach to ergonomics training begins by asking each viewer to select what area of their body, if any, is experiencing pain or discomfort. Viewers are shown common postures that can cause or contribute to the conditions. The viewer is then led through a comprehensive and specific method of adjusting a workstation to maximize neutral postures and minimize pain, discomfort and strain. This program also points out the multitude of other factors outside of the workplace that can contribute to muscular-skeletal disorders. This encourages viewers to take steps to adopt neutral postures in all of their activities. (English version # 702)

<b>OFFICE INJURY PREVENTION (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
9 Minutes	2009	617

This program stresses the importance of office safety and how a good safety attitude and using good judgment are the real keys to injury prevention. Condensed version.

<b>OFFICE INJURY PREVENTION (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
18 Minutes	2009	613
This program stresses the importance of office safety and how a good safety attitude and using good judgment are the real keys to injury prevention.		
<b>OFFICE INJURY PREVENTION (SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
18 Minutes	2009	614
This program stresses the importance of office safety and how a good safety attitude and using good judgment are the real keys to injury prevention.		
<b>OFFICE SAFETY BASICS (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
10 Minutes	2001	964
Designed to raise awareness of safety hazards in an office environment, this video focuses on the most common hazards found in an office. Topics include: ergonomics, ladders, office equipment, slips and falls, safe lifting and fire prevention.		
<b>OSI: OFFICE SAFETY INVESTIGATION (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
16 Minutes	2012	667
It can be easy to imagine an employee getting injured in a factory, at a construction site or while in a confined space, but working in an office? In this program, your employees will follow Brandon, the newest member of the Office Safety Investigation (OSI) team as he learns about the four most common office hazards: falls, ergonomic injuries, being struck-by or striking objects, and electrical incidents. As he works with the rest of the OSI team, he will show your employees why it is important to steer clear of these dangers and share important prevention strategies.		
<b>UNDERSTANDING SAFETY IN THE OFFICE (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
24 Minutes	2007	331
An organization can minimize the risk of accidents and incidents occurring by implementing appropriate safe work procedures. Topics include: risk assessment, housekeeping, slips, trips and falls, hazardous substances, electrical hazards, work equipment safety, personal protective equipment, noise, material handling, fire prevention, confined spaces and outdoor work.		
<b>WORKING SAFELY IN THE OFFICE (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
23 Minutes	2003	30
This video shows the hazards found in the office environment and the critical importance of on-the-job safety practices.		
<b><u>PERSONAL PROTECTIVE EQUIPMENT</u></b>		
<b>ARE YOU LISTENING JIM? (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
14 Minutes	2011	567
This program presents the story of one worker's struggle to take better care of his hearing. Your workers will understand that it is not just the noise at work that can cause hearing loss, but excessive sound levels off the job as well. The overall message is simple, hearing loss is permanent but preventable and everyone needs to take care of their hearing any time they are exposed to high levels of noise. (Spanish Version # 197)		
<b>ARE YOU LISTENING JIM? (SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
14 Minutes	2011	197
This program presents the story of one worker's struggle to take better care of his hearing. Your workers will understand that it is not just the noise at work that can cause hearing loss, but excessive sound levels off the job as well. The overall message is simple, hearing loss is permanent but preventable and everyone needs to take care of their hearing any time they are exposed to high levels of noise. (English Version # 567)		
<b>EYE SAFETY (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
15 Minutes	2008	883
This program will show how many eye problems are caused by not paying attention to the work employees are doing or by not wearing the appropriate protective equipment. They remind employees that eye injuries can easily happen to them and show them how to prevent these injuries. Topics covered in these products include: physiology of the eye, common eye injuries, short and long term effects, eye care, selecting personal protective equipment and more.		
<b>EYE SAFETY (SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
15 Minutes	2008	375
This program will show how many eye problems are caused by not paying attention to the work employees are doing or by not wearing the appropriate protective equipment. They remind employees that eye injuries can easily happen to them and show them how to prevent these injuries. Topics covered in these products include: physiology of the eye, common eye injuries, short and long term effects, eye care, selecting personal protective equipment and more.		

**EYE SAFETY (SP VHS)**

12 Minutes

YEAR

1999

TITLE #

621

This video shows how many eye problems are caused by not paying attention to the work employees are doing, or not wearing the appropriate protective equipment. It reminds employees that eye injuries can easily happen to them and shows them how to prevent these injuries. The program emphasizes the importance of using the proper protective eyewear.

**EYE SAFETY BASICS (SPANISH DVD)**

10 Minutes

YEAR

2011

TITLE #

171

Though produced in 1970, this film was added to our library because of multiple requests from members. This DVD portrays the dangers associated with earthmoving equipment operation, showing many great simulated accidents on construction sites. Some say this presentation is just as relevant today as it was when it was made.

**EYE SAFETY THE BASICS (DVD)**

15 Minutes

YEAR

2011

TITLE #

514

This program explains eye protection requirements in a way anyone can understand. After all, everyone knows the benefits of safety glasses yet too many neglect them. This video is a good way to remind them about the importance of wearing eye protection when required. You will find your employees respond well to this entertaining and informative video.

**EYE SAFETY: FOCUSED ON PROTECTION (DVD)**

15 MINUTES

YEAR

2013

TITLE #

173

Protect your eyes from workplace risks and the statistics: thousands of people are blinded each year from work-related eye injuries, and 90% of these injuries can be prevented with the appropriate eye protection. Eye Safety: Focused on Protection, that teaches your workers that by being proactive, having proper selection and use of eye and face protection, and using safety eye-wear every time it's needed, workers can preserve their eyesight for a lifetime. This course covers: workplace hazards protective eye-wear, best work practices.

**EYE SAFETY: NO SECOND CHANCES (DVD)**

20 Minutes

YEAR

2010

TITLE #

234

In over 90% of all eye injuries, the injured person was not wearing eye protection or has had the wrong protection for the job task being performed. Scenes from a variety of job sites show several situations where eye protection is needed and used correctly. Your workers will develop a respect for eye protection and understand the life-long consequences from not using adequate eye protection. This program covers, anatomy of the eye, hazard recognition, the five most common eye hazards, dangers of UV and infrared light, first aid procedures, and the use and care of eye protection.

**FOOT PROTECTION (EN/SP DVD)**

15 Minutes

YEAR

2006

TITLE #

346

This training program demonstrates to your workers that safety starts from the ground up. Filmed on-site using real workers, Foot Protection presents multiple work environments where your workforce may encounter foot hazards.

**HAND INJURY PREVENTION (DVD)**

14 Minutes

YEAR

2009

TITLE #

329

Avoid hand injuries and eliminate the associated costs of lost-work time, lower productivity and insurance claims. We developed this program for DuPont Merck for those reasons. The program includes footage from a variety of facilities and is appropriate for all workers. Topics covered: glove selection, safe handling of glass and sharp objects, use of tools and equipment and first aid. Between the use of mind-altering substances and reaction time.

**HAND INJURY PREVENTION (SP DVD)**

14 Minutes

YEAR

2009

TITLE #

149

Avoid hand injuries and eliminate the associated costs of lost-work time, lower productivity and insurance claims. We developed this program for DuPont Merck for those reasons. The program includes footage from a variety of facilities and is appropriate for all workers. Topics covered: glove selection, safe handling of glass and sharp objects, use of tools and equipment and first aid.

**HAND SAFETY" IT'S IN YOUR HANDS (EN/SP DVD)**

20 Minutes

YEAR

2006

TITLE #

534

This program takes a look at common workplace hazards your workers face and how to prevent hand injuries that may be caused by them.

**HAND SAFETY: YOU CONTROL IT (DVD)**

12 Minutes

YEAR

2005

TITLE #

350

This program educates your employees on the different types of hand injuries that can occur, how to recognize common hazards found in the workplace and preventive measures to take to protect their hands.

<b>HAND SAFETY: YOU CONTROL IT (SP DVD)</b> 12 Minutes	<u>YEAR</u> 2005	<u>TITLE #</u> 58
This program educates your employees on the different types of hand injuries that can occur, how to recognize common hazards found in the workplace and preventive measures to take to protect their hands.		
<b>HAND, WRIST AND FINGER SAFETY (SP VHS)</b> 12 Minutes	<u>YEAR</u> 1999	<u>TITLE #</u> 631
This video reviews hand, wrist and finger hazards and helps employees to take the steps necessary to avoid them. The program reminds employees to work safely and avoid injuries. Includes information on: physiology of the hand, wrist and fingers, identification of common hazards, tool use and maintenance, using personal protective equipment, injuries and first aid and proper work procedures.		
<b>HAND, WRIST AND FINGER SAFETY 1997 (VHS)</b> 14 Minutes	<u>YEAR</u> 1997	<u>TITLE #</u> 752
This video outlines common injuries to the hands, wrists and fingers, and discusses ways to prevent them.		
<b>HEARING CONSERVATION (DVD)</b> 12 Minutes	<u>YEAR</u> 2005	<u>TITLE #</u> 11
Hearing loss is preventable if you follow procedures relating to hearing protection. This video heightens awareness of hearing conservation in the workplace. Explains the anatomy of the ear, how noise can cause hearing loss, and how to prevent hearing loss.		
<b>HEARING CONSERVATION (SP DVD)</b> 12 Minutes	<u>YEAR</u> 2005	<u>TITLE #</u> 596
Hearing loss is preventable if you follow procedures relating to hearing protection. This video heightens awareness of hearing conservation in the workplace. Explains the anatomy of the ear, how noise can cause hearing loss, and how to prevent hearing loss.		
<b>HEARING CONSERVATION AND SAFETY (DVD)</b> 25 Minutes	<u>YEAR</u> 2000	<u>TITLE #</u> 364
Everywhere we go we encounter noise which can cause damage to our hearing... often permanently. Over 15 million Americans have a measurable hearing loss, most often caused by "on-the-job" injuries. Yet many employees do not realize that not only can hearing problems affect their work, they can alter their personal lives dramatically as well. This program has been specifically created to assist facilities in complying with OSHA's revised Hearing Conservation Standard. Topics covered in these products: how our ears "work", types of hearing damage/loss, common causes of hearing damage/loss, potential effects of hearing damage, noise avoidance and hearing safety practices, selection and use of personal protective equipment and more.		
<b>HEARING CONSERVATION: NOISE UNDER CONTROL (DVD)</b> 20 Minutes	<u>YEAR</u> 2012	<u>TITLE #</u> 669
Noise is all around us; at work, at home, and in the car. With all of the noise that is associated with the machinery and technology we surround ourselves with everyday, it is critical to be alert to hazardous noise. Many times hearing loss happens gradually and by the time we realize it, it's too late to turn back the clock. During this program your employees will see how their choices today can have an everlasting effect on their future. This program will also help your employees learn to recognize high noise hazards, identify actions to take for preventing hearing loss and understand the importance of wearing proper hearing protection.		
<b>HEARING CONSERVATION: YOU DECIDE WHAT TO HEAR (DVD)</b> 12 Minutes	<u>YEAR</u> 2005	<u>TITLE #</u> 266
In this program your employees will learn how their body hears sounds and the effects excessive noise has on them. It will teach them techniques for identifying hazardous noise and educate them on best practices and procedures to reduce their exposure.		
<b>HEARING LOSS PREVENTION EMPLOYEE TRAINING (SP VHS)</b> 14 Minutes	<u>YEAR</u> 2000	<u>TITLE #</u> 465
This program will demonstrate to employees the importance of wearing proper hearing protection in all situations where noise can be hazardous. Topics covered will include: hearing conservation/loss prevention programs, types of hearing protection and symptoms of hearing loss.		
<b>HEARING PROTECTION (EN/SP DVD)</b> 17 Minutes	<u>YEAR</u> 2005	<u>TITLE #</u> 205
The real-life risk of hearing loss and how it can be prevented is presented in this lively program, which focuses on how noise can be controlled in a work environment and the types of PPE that can be worn to protect ears and hearing.		
<b>HIGH-IMPACT EYE SAFETY (VHS)</b> 22 Minutes	<u>YEAR</u> 1994	<u>TITLE #</u> 944
Safety eyewear only protects employees if they use it. Get their attention and commitment to eye safety with this video which includes re-enactments of accidents. Topics covered are: objects, chemicals or particles in the eye; electrical hazards for the eye; line-breaking accidents.		

**HIGH-IMPACT PERSONAL PROTECTIVE EQUIPMENT (DVD)**

19 Minutes

YEAR  
1999

TITLE #  
220

This program stresses that Personal Protective Equipment (PPE) is the last line of defense between your employees and job hazards and that it must be worn at all times. This program demonstrates eight injuries that illustrate why PPE is essential. Topics include: proper use of eye protection, hardhats and hand protection, selection and use of respirators and six requirements for employees who wear PPE.

**HOW TO PREVENT HEARING LOSS (DVD)**

12 Minutes

YEAR  
2003

TITLE #  
374

The ability to hear is something we take for granted because we're subjected to noise all the time. We often think we can hear just fine and that losing our hearing would be obvious to us. The problem is that hearing loss happens gradually over time. Many people don't realize they have a problem until it's too late and the damage has been done. Topics covered include how we hear sounds, factors that affect hearing, warning signs of hearing loss, employee hearing tests, using hearing protection and types of hearing protection devices.

**HOW TO PREVENT HEARING LOSS (SP DVD)**

12 Minutes

YEAR  
2003

TITLE #  
594

The ability to hear is something we take for granted because we're subjected to noise all the time. We often think we can hear just fine and that losing our hearing would be obvious to us. The problem is that hearing loss happens gradually over time. Many people don't realize they have a problem until it's too late and the damage has been done. Topics covered include how we hear sounds, factors that affect hearing, warning signs of hearing loss, employee hearing tests, using hearing protection and types of hearing protection devices.

**MORE HIGH IMPACT PERSONAL PROTECTIVE EQUIPMENT CONCISE (DVD)**

10 Minutes

YEAR  
2006

TITLE #  
849

PPE is the last line of defense against the hazards of your job; yet, countless injuries are suffered each year by employees who are not wearing the appropriate protection for their job. This program covers proper selection and use of personal protective equipment, and shows painful examples of making poor decisions concerning our protection. Viewers will get the point that making excuses when it comes to wearing appropriate PPE offers no protection from workplace hazards.

**MORE HIGH-IMPACT PERSONAL PROTECTIVE EQUIPMENT (DVD)**

19 Minutes

YEAR  
2006

TITLE #  
838

Hardhats, safety eyewear, protective gloves and safety footwear are just a few of the items designed to protect us from workplace injuries. PPE is the last line of defense against the hazards of your job; yet, countless injuries are suffered each year by employees who are not wearing the appropriate protection for their job. This program covers proper selection and use of personal protective equipment, and shows painful examples of making poor decisions concerning our protection. Viewers will get the point that making excuses when it comes to wearing appropriate PPE offers no protection from workplace hazards.

**PERSONAL PROTECTIVE EQUIPMENT (DVD)**

20 Minutes

YEAR  
2007

TITLE #  
405

This program helps prevent employees' injuries by ensuring proper preplanning and implementation of engineering and administrative controls prior to donning PPE. It offers procedures of choice and use of proper PPE during construction. Includes the latest ANSI guidelines and highlights the latest available equipment and best practices for use.

**PERSONAL PROTECTIVE EQUIPMENT (DVD)**

24 Minutes

YEAR  
2012

TITLE #  
537

This DVD helps prevent employees' injuries by ensuring proper pre-planning and implementation of engineering and administrative controls prior to donning PPE. It offers procedures of our choice and use of proper PPE during construction. Includes the latest ANSI guidelines and highlights latest available equipment and best practices for use.

**PERSONAL PROTECTIVE EQUIPMENT (DVD)**

25 Minutes

YEAR  
2001

TITLE #  
967

This program describes the basics of personal protective equipment. Topics include: areas of the body needing protection, vulnerabilities in each body area, available protective equipment, matching the equipment to the hazard and the proper use of PPE.

**PERSONAL PROTECTIVE EQUIPMENT (EN/SP DVD)**

15 Minutes

YEAR  
2004

TITLE #  
466

Your employees encounter daily hazards, but are they dressed up for the occasion? This interactive program takes employees through real life safety situations and encourages them to think about their response. It allows them to make life-or-death decisions right from the safety of their seats. It covers: Awareness, Attitude and Action, proper use, cleaning and storage, and knowing equipment limitations.

**PPE DO NOT START WORK WITHOUT IT (EN/SP DVD)**

13 Minutes

YEAR  
2004

TITLE #  
408

Teach your employees to wear the right PPE for each job and use it correctly with this important training. It focuses on the various forms of PPE and how they can be used to protect different parts of the body.

<b>PPE: HEAD TO TOE (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
15 Minutes	2007	318

This program provides an easy to understand overview of the variety of PPE available to help make our work safe. It emphasizes the importance of wearing the proper PPE by showing a re-enactment of an arc flash incident that could have been tragic had the person not been wearing the proper PPE. The worker involved describes the incident and how his PPE saved him from injury. Other interviews with workers who avoided eye and foot injuries reinforce the safety message. Great for new employees or for refresher training.

<b>PPE: IT'S YOUR CALL (SP VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
12 Minutes	2003	380

This video addresses the most important part of personal protective equipment, which is the responsibility of the individual to wear the equipment when it's required. This video discusses the need for personal protective equipment and its proper use.

<b>PPE: IT'S YOUR CALL (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
12 Minutes	2003	379

This video addresses the most important part of personal protective equipment, which is the responsibility of the individual to wear the equipment when it's required. This video discusses the need for personal protective equipment and its proper use.

<b>PPE: THE RIGHT CHOICE (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
16 Minutes	2004	31

This video features industrial workers who describe the impact of their decisions regarding the use of personal protective equipment. Each employee must make a decision to wear the correct PPE and making the wrong choice can mean disaster. Topics include: employee responsibility to use PPE, proper use of head, hand, foot and eye protection and how and when to use hearing protection.

<b>PPE: WEAR IT FOR YOU (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
17 Minutes	2012	1

This program features David Dyck's powerful, true story of surviving a violent explosion during a routine maintenance procedure. Because of the PPE he was wearing, he is here today to share his moving account. Not only does David remind us of the importance of PPE, his story illustrates how an injury affects family, friends and co-workers. It's a message your employees won't soon forget!

<b>PPE: YOUR DEFENSIVE LINE (EN/SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
20 Minutes	2008	468

This program informs workers the correct way to wear PPE to avoid any potential danger. This program includes an exciting and relevant opening that features football players getting ready to hit the field, making the connection with your workers that wearing PPE is the right, and safe, choice to make. Specifically this video will go over: eye and face, head, hearing, hand and foot protection.

<b>PROTECTING OUR SIGHT (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
19 Minutes	2011	168

Because our vision is so crucial to almost all aspects of our daily lives, it's difficult to understand why we wouldn't protect our eyes in every instance they are at risk from hazards; yet, over 2,000 workers in North America suffer some type of eye injury requiring medical treatment every day. This program discusses the protective devices and precautions we can utilize to prevent such injuries while stressing the importance of assessing the hazards of each job task and avoiding common pitfalls that often lead to these incidents. Topics include how the vision process works, types of eye injuries, employee responsibility to wear appropriate protection, use of safety glasses, safety goggles and face shields and eye protection required for welding and laser operations. Reducing lens fogging, cleaning and storage of protective devices, off-job safeguards and proper response to eye injuries are also reviewed in the program.

<b>PROTECTING OUR SIGHT (SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
19 Minutes	2012	860

Each and every day, our eyes provide the gateway that allows us to recognize and comprehend the world we work, live and play in. Because our vision is so crucial to almost all aspects of our daily lives, it's difficult to understand why we wouldn't protect our eyes in every instance they are at risk from hazards; yet, over 2,000 workers in North America suffer some type of eye injury requiring medical treatment every day. This program discusses the protective devices and precautions we can utilize to prevent such injuries while stressing the importance of assessing the hazards of each job task and avoiding common pitfalls that often lead to these incidents. Topics include how the vision process works, types of eye injuries, employee responsibility to wear appropriate protection, use of safety glasses, safety goggles and face shields and eye protection required for welding and laser operations. Reducing lens fogging, cleaning and storage of protective devices, off-job safeguards and proper response to eye injuries are also reviewed in the program.

<b>RESPIRATOR SAFETY: PUBLIC KNOWLEDGE (EN/SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
21 Minutes	2009	678

Respirators can be hot, bulky, heavy and just an overall hassle. But they can also be the difference between life and death. Give your workers a straight-forward look at why they need respirators, how to properly fit and maintain them and when to use certain types. Topics covered airborne hazards, control and respirator selection, fit test and fit check, care and maintenance.

<b>RESPIRATORY PROTECTION (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
12 Minutes	2009	647

This program covers proper use, care and maintenance of air-purifying respirators and the importance of proper selection and fit.

<b>RESPIRATORY PROTECTION (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
14 Minutes	2006	376

This presentation will educate and motivate your worker on when and how to properly use their air-purifying respirator.

<b>RESPIRATORY PROTECTION (SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
12 Minutes	2009	648

This program covers proper use, care and maintenance of air-purifying respirators and the importance of proper selection and fit.

<b>RESPIRATORY PROTECTION AND SAFETY (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
21 Minutes	2006	640

This presentation covers common types and causes of respiratory hazards, potential effects of respiratory hazards, good respiratory safety practices, respiratory safety equipment, OSHA's assigned protection factors for respirators, fit testing protocols, cleaning/disinfecting procedures and more.

<b>RESPIRATORY PROTECTION AND SAFETY (SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
21 Minutes	2006	668

This presentation covers common types and causes of respiratory hazards, potential effects of respiratory hazards, good respiratory safety practices, respiratory safety equipment, OSHA's assigned protection factors for respirators, fit testing protocols, cleaning/disinfecting procedures and more.

<b>RESPIRATORY SAFETY: A SURE FIT (EN/SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
20 Minutes	2009	38

This training program illustrates the different types of respirators, what they are used for, and how to fit them correctly to maximize their protective qualities.

<b>SAFELY ON YOUR FEET! (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
12 Minutes	2002	160

This presentation focuses on keeping our feet safe and keeping us safely on our feet. It stresses the importance of matching your footwear to the potential hazards of your job. The importance of toe protection, traction, and support will also be addressed.

<b>THAT'S WHY YOU WEAR A HARDHAT (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
16 Minutes	2004	134

This video uses several injury scenarios and worker testimony to drive home the point that most head injuries can be avoided through proper use of a hardhat. Topics include: why it is so important to protect your brain, inspection and replacement of hats and parts and the importance of a proper fit.

<b>THAT'S WHY YOU WEAR A HARDHAT CONSISE VERSION (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
9 Minutes	2004	660

This video uses several injury scenarios and worker testimony to drive home the point that most head injuries can be avoided through proper use of a hardhat. Topics include: why it is so important to protect your brain, inspection and replacement of hats and parts and the importance of a proper fit.

<b>THAT'S WHY YOU WEAR EYE PROTECTION (DVD)</b> 18 Minutes	<u>YEAR</u> 2005	<u>TITLE #</u> 82
This presentation discusses various types of eye protection devices and how they help to prevent injuries. Viewers will also see the tragic consequences that can occur when we choose not to adequately protect our eyesight.		
<b>THE DUMMY SERIES: EYE SAFETY (SP VHS)</b> 13 Minutes	<u>YEAR</u> 2000	<u>TITLE #</u> 497
This video stresses the responsibility each individual has to wear the appropriate eyewear to protect their eyes from workplace hazards.		
<b>THE DUMMY SERIES: EYE SAFETY (VHS)</b> 13 Minutes	<u>YEAR</u> 2000	<u>TITLE #</u> 47
This video stresses the responsibility each individual has to wear the appropriate eyewear to protect their eyes from workplace hazards.		
<b>THE IMPORTANCE OF HAND PROTECTION (VHS)</b> 7 Minutes	<u>YEAR</u> 2001	<u>TITLE #</u> 989
This video examines various types of workplace hazards that have the potential to injure employees' hands, including chemical hazards, electrical hazards, bloodborne pathogens hazards and mechanical hazards. This video also suggests various kinds of personal protective equipment to protect hands from injury.		
<b>THE KEVIN BAILEY STORY (CONCISE DVD)</b> 9 Minutes	<u>YEAR</u> 2002	<u>TITLE #</u> 917
This video details the true story of Kevin Bailey, who lost his right leg after being caught in a powerful rotating shaft. Featured are interviews of physicians, EMTs and family members as well as dramatic reenactments of the events surrounding Kevin's ordeal. Key safety issues addressed are: following safe work practices, wearing protective equipment, complacency and poor decision making.		
<b>THE KEVIN BAILEY STORY (DVD)</b> 15 Minutes	<u>YEAR</u> 2002	<u>TITLE #</u> 215
This video details the true story of Kevin Bailey, who lost his right leg after being caught in a powerful rotating shaft. Featured are interviews of physicians, EMTs and family members as well as dramatic reenactments of the events surrounding Kevin's ordeal. Key safety issues addressed are: following safe work practices, wearing protective equipment, complacency and poor decision making.		
<b>THE KEVIN BAILEY STORY (SP VHS)</b> 15 Minutes	<u>YEAR</u> 2002	<u>TITLE #</u> 217
This video details the true story of Kevin Bailey, who lost his right leg after being caught in a powerful rotating shaft. Featured are interviews of physicians, EMTs and family members as well as dramatic reenactments of the events surrounding Kevin's ordeal. Key safety issues addressed are: following safe work practices, wearing protective equipment, complacency and poor decision making.		
<b>THE PREVENTION OF EYE INJURIES (VHS)</b> 19 Minutes	<u>YEAR</u> 2004	<u>TITLE #</u> 6
This program attempts to raise the level of awareness about eye safety in workplaces where eye injuries are common. Topics include: basic structure of the eye, appropriate use of personal protective equipment and first aid procedures in the event of an injury.		
<b>THE RESPIRATORY PROTECTION PROGRAM: EMPLOYEE TRAINING (DVD)</b> 16 Minutes	<u>YEAR</u> 2007	<u>TITLE #</u> 314
This program, which is available for employee review, outlines the measures taken by your employer to ensure the health and safety of your respiratory system. Topics include employee medical evaluation, respirator selection and assignment protection factors, various types of respirators, hazards of IDLH atmospheres, qualitative and quantitative fit tests, user seal checks and cleaning and storage of respirators.		
<b>THE RESPIRATORY PROTECTION PROGRAM: EMPLOYER RESPONSIBILITIES (DVD)</b> 20 Minutes	<u>YEAR</u> 2007	<u>TITLE #</u> 312
This presentation provides an overview of the employer's responsibilities and discusses key components of a proper respiratory protection program. Topics include how the respiratory protection program works, types and uses of respirators, APF's and MUC's, qualitative and quantitative fit tests.		
<b>UNDERSTANDING EYE SAFETY AT WORK (DVD)</b> 21 Minutes	<u>YEAR</u> 2006	<u>TITLE #</u> 396
Included are six interactive case studies recreating the most common types of eye injuries at work. An action packed training title that will ensure everyone at your workplace understands the importance of eye safety.		

**WHAT..?! PROTECTING YOUR HEARING (DVD)**

14 Minutes

YEAR

2007

TITLE #

523

This program takes an entertaining approach to illustrate what happens to workers who ignore the signs of hearing loss and what employees can do to protect their hearing while they still can. Your employees will learn: how sound affects the ear and how hearing loss occurs, warning signs of hearing loss, types of hearing protection and how to use them, what to look for in their annual hearing tests, reasons to take responsibility for their own hearing protection.

**WHAT..?! PROTECTING YOUR HEARING (SP DVD)**

**HAND TOOLS & PORTABLE POWER TOOLS (VHS)**

16 Minutes

YEAR

1997

TITLE #

136

This program discusses the importance of managing the use of hand and portable power tools with employee safety in mind. Includes ergonomic issues, tool usage, inspection and maintenance.

**HIGH-IMPACT POWER TOOL SAFETY (VHS)**

19 Minutes

YEAR

2002

TITLE #

953

This video reminds portable power tool users about key safety issues and makes them aware of painful injuries that result from unsafe use. Featured are six common accident reenactments that drive home the importance of thinking safety when performing tasks with power tools. Covered topics include: three keys to using power tools safely, inspecting tools before use, selecting the proper tool for the job, being aware of body parts in the line of fire, procedures for using drills, saws and sanders, grinders, grinding wheels and abrasive discs and being trained and authorized to use tools.

**PNEUMATIC AND HYDRAULIC TOOLS (VHS)**

8 Minutes

YEAR

1997

TITLE #

750

Tools of all sorts have their specific dangers. Learn how to correctly use and maintain pneumatic and hydraulic tools. Also, review safety aspects such as "bursting safety."

**POWER AND HAND TOOL SAFETY (DVD)**

20 Minutes

YEAR

2011

TITLE #

814

Protect workers from common everyday hazards created by the use of the hand and power tools with this new product. It features practical, safe application of common hand and power tools, including: electrical, pneumatic, gasoline, power activated, hand, battery operated and hydraulics tools.

**POWER SAW SAFETY (VHS)**

10 Minutes

YEAR

2001

TITLE #

955

This program addresses the hazards associated with powered saw equipment. Both hand held and table saws are examined. Topics include inspection, guarding, personal protective equipment, proper clothing and other general information related to the safe use of this powerful and potentially dangerous equipment.

**POWERED HAND TOOL SAFETY (DVD)**

18 Minutes

YEAR

2006

TITLE #

125

This program explains general safety principles related to the use of a wide range of electric and pneumatic tools as well as risks, safety procedures and personal protective equipment applicable to particular tools. Included are demonstrations showing safe techniques for the use of a range of powered hand tools.

<b>POWERED HAND TOOL SAFETY: HANDLE WITH CARE (EN/SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
20 Minutes	2004	385

This program explains the dangers of powered hand tools and offers training that follows the training outline avoid, protect and defend.

<b>THE SAFE OPERATION AND USE OF PNEUMATIC TOOLS (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
10 Minutes	2008	447

This presentation provides general safety information relating to pneumatic tool use including PPE, tool inspection, hazards of compressed air, connect and disconnect of air hoses, and stresses individual responsibility for work place safety.

<b>WORKING SAFELY WITH HAND &amp; POWER TOOLS (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
17 Minutes	2004	244

Use this video to emphasize the importance of a good safety attitude and exercising good judgment while using hand and power tools. Topics covered are safe use of wrenches and pliers, screwdrivers, striking tools, grinders, drills, power saws and the guarding and grounding of power tools.

### **SAFETY TRAINING & ATTITUDE**

<b>BILLY ROBBINS' HOOKED ON SAFETY: MY WORLD (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
27 Minutes	2007	188

Do your employees believe an accident-free workplace is a possibility? Let Billy Robbins convince them that it is absolutely possible if they are highly motivated, committed, and have a vision for it. Billy Robbins is one of the top motivational speakers in the safety field and will change attitudes on safety.

<b>BILLY ROBBINS' HOOKED ON SAFETY: MY WORLD (SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
27 Minutes	2007	345

Do your employees believe an accident-free workplace is a possibility? Let Billy Robbins convince them that it is absolutely possible if they are highly motivated, committed, and have a vision for it. <p><b>I COULD HAVE SAVED A LIFE THAT DAY (CONSISE DVD)</b> 8 Minutes</p> <p>This dramatic video tells the story of an employee who failed to take action when witnessing the warning signs of impending workplace violence. His decision to look the other way not only ended in the death of a co-worker, but also resulted in life behind bars for a fellow employee. This video is based on a safety poem by Don Merrell that teaches viewers compelling lessons about responding to the signs of potential violence.</p>	2003	959
<p><b>I COULD HAVE SAVED A LIFE THAT DAY (DVD)</b> 15 Minutes</p> <p>This video dramatically tells the story of an employee who failed to speak up when witnessing an unsafe act. By choosing to look the other way, he allowed the needless death of a co-worker to occur. Based on the popular safety poem by Don Merrell, this program shows how speaking up about unsafe acts can save lives and help develop a positive safety culture. Verses from the poem are meshed with the video's action to deliver a lasting safety message.</p>	2003	303
<p><b>LESSONS LEARNED FROM MIRACLE ON THE HUDSON (DVD)</b> 20 Minutes</p> <p>This DVD contains six short meeting openers to help capture your employees' attention and remind them of the importance of keeping safety front of mind. Featuring clips from Captain Sullenberger's keynote address at the 2011 DuPont Sustainable Solutions Forum, each opener focuses on a different theme. Topics include: Being prepared, Investing in yourself and your values, Teamwork, Making safety a priority, Importance of being competent, and Communication.</p>	2012	202

**MANAGING ANGER TO PREVENT VIOLENCE (DVD)**

11 Minutes

YEAR  
2007TITLE #  
715

This presentation approaches the issue of workplace violence by providing excellent training in anger management.

**MIRACLE ON THE HUDSON (DVD)**

25 Minutes

YEAR  
2011TITLE #  
740

In this DVD, Captain Chesley "Sully" Sullenberger relives the fateful day that he was forced to land Flight 1549 in the Hudson River. He'll share how he helped save hundreds of lives by calling upon the 4 C's - Competence, Compassion, Commitment and Communication. Your employees will see how they can acquire and apply these same characteristics in their own life, both on and off-the-job. Use this compelling, real-life story to help your team develop the right safety attitude and better prepare themselves for the unexpected.

**NEW EMPLOYEE SAFETY & ORIENTATION TRAINING (DVD)**

13 Minutes

YEAR  
2004TITLE #  
538

Designed for the purpose of helping new employees to acclimate to workplace safety and OSHA guidelines, this DVD is packed with OSHA-friendly terms and safety procedures for new employees. It includes information on the use of personal protective equipment (PPE), hazard communication (HAZCOM), the need and right to know of all possible hazardous substances on site, good housekeeping and proper labeling and handling of hazardous substances in the workplace. The presentation starts employees on the road to achieving the utmost safety and OSHA compliance in their new workplace.

**NEW EMPLOYEE SAFETY AND ORIENTATION TRAINING (VHS)**

14 Minutes

YEAR  
2004TITLE #  
83

This video is designed to address the four most common OSHA standards that every new employee needs to be introduced to when they are hired. Topics include: the purpose of OSHA guidelines, personal protective equipment, bloodborne pathogens, hazard communication and good housekeeping.

**ONE WILL DIE: THE JOHN MARTIN STORY (DVD)**

20 Minutes

YEAR  
2005TITLE #  
112

John Martin was a risk-taker. John decided not to follow safety procedures in order to get the job done faster and tragedy struck. This video will benefit all employees, managers and supervisors by talking about risk-taking, bullying, production pressure, personal protective equipment and proper attitude.

**ONE WILL TO DIE: THE JOHN MARTIN STORY CONSISE VERSION (DVD)**

10 Minutes

YEAR

**OSHA TOP TEN (EN/SP DVD)**

26 Minutes

YEAR  
2009TITLE #  
843

This program points out the 10 most serious violations of the OSHA Standards for General Industry for you and your employees. Topics covered include: the most common OSHA violations, responsibilities of the supervisor and employee training.

**OSHA TOP TEN: COACHING SAFETY PERFORMANCE (VHS)**

25 Minutes

YEAR  
2005TITLE #  
612

This exciting program points out the 10 most frequently cited violations of the OSHA standards for general industry and explains how they can be complied with. It also goes over responsibility for the supervisor and employee training.

**PREVENTING HARASSMENT: CREATING A POSITIVE WORKPLACE (DVD)**

21 Minutes

YEAR  
2011TITLE #  
842

Good communication and respect for others creates a beneficial work environment where employees feel safe and productive. When the workplace is disrupted by someone disrespecting one or more co-workers, anger and resentment can destroy morale. Workplace harassment can damage relationships and destroy lines of communication among employees. This program discusses various types of workplace harassment and how this unwelcome behavior affects the work environment. It also explains what you should do if you are a victim or an observer of disrespectful conduct and how you can avoid having your own behavior interpreted as harassment. Featured are a variety of scenarios where workers exhibit unwelcome behavior to show viewers what types of behavior constitute harassment and how they should respond to such conduct.

**PREVENTING HARRASSMENT: CREATING A POSITIVE WORKPLACE CONCISE (DVD)**

10 Minutes

YEAR  
2011TITLE #  
824

Good communication and respect for others creates a beneficial work environment where employees feel safe and productive. When the workplace is disrupted by someone disrespecting one or more co-workers, anger and resentment can destroy morale. Workplace harassment can damage relationships and destroy lines of communication among employees. This program discusses various types of workplace harassment and how this unwelcome behavior affects the work environment. It also explains what you should do if you are a victim or an observer of disrespectful conduct and how you can avoid having your own behavior interpreted as harassment.

<b>READY, WILLING &amp; ABLE (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
24 Minutes	2009	671

Employees being ready, willing and able to give and accept constructive safety feedback is one of the most powerful and effective ways to improve workplace safety. In this unique presentation, Safety Professional Tom Harvey encourages viewers to have the confidence and courage to engage in a constructive safety conversation when a safety problem arises. He also reviews the guidelines that we all should follow once we make the commitment to get involved in the feedback process. Real-world examples of workers communicating with one another are used to illustrate how positive reinforcement is a far better method of encouraging safe behavior than giving negative feedback and criticism. (Spanish Version #798).

<b>RUDY: SAFETY TAKES COURAGE (EN/SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
15 Minutes	2004	409

Rudy Ruettiger became an inspiration to millions in Rudy, the feature film about his dream of playing football at Notre Dame. But few people know that it was a tragic workplace accident that changed his life. This powerful presentation recounts how he lost a close friend in a workplace accident and stresses the importance of visualization, character and courage to prevent accidents and save lives.

<b>SAFETY AWARENESS II: REAL STORIES, REAL ACCIDENTS (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
17 Minutes	2004	75

A less graphic version of video 983, this video is designed to address the safety attitudes and issues that many experienced workers face. Actual workers who were involved in an incident share their story of how they ignored safe work practices and why that resulted in injury.

<b>SAFETY AWARENESS: REAL ACCIDENTS, REAL STORIES (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
14 Minutes	2003	983

This video describes real-life stories of employees who were involved in a serious workplace incident. Viewers will be introduced to several employees and hear the story of how they became injured at work. This video also includes graphic pictures of several different types of injuries.

<b>SAFETY COMMITTEES (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
5 Minutes	1999	240

Safety committees play an important role in a company's safety program. When run properly, a safety committee can increase safety awareness and help achieve safety goals and objectives that will ultimately reduce incidents and injuries.

<b>SAFETY LEADERSHIP FOR EVERYONE (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
23 Minutes	2009	601

Often the only difference between a world-class safety operation and a program struggling to move beyond regulatory compliance is the courage and willingness to put safety leadership into action. Several true-to-life situations in the workplace are used to illustrate these points. Stressed in the program is the fact that all of us can be safety leaders no matter what job or title we hold.

**SAFETY PROGRAMS (DVD)**

5 Minutes

YEAR

2010

TITLE #

584

A company's Safety Program should involve everyone from management to employee. Every level of the organization should be trained properly and have a working knowledge of their company's safety program. Instilling a culture of safety will reduce accidents for workers and improves the bottom line for managers. Topics include: Employer responsibilities, risk assessment, management and employee involvement, identifying hazards and risks, job hazard analysis, accident prevention checklist and contact list.

**THANK YOU (DVD)**

4 Minutes

YEARTITLE #

635

Everyone needs positive reinforcement. In this unique presentation, friends and family members say thank you to the employees who have helped keep their loved ones safe by correcting hazards and participating in their company's safety program. This upbeat message will set an optimistic tone for your next safety meeting.

**THE NEWCOMERS (EN/SP DVD)**

22 Minutes

YEAR

2007

TITLE #

431

This presentation follows the actions of five new employees, as they go through their busy days. Keep score as you witness several mistakes and see the impact of those mistakes such as- the importance of asking questions when on-the-job, how simple tasks can carry deadly risks, your actions may affect others, and the importance of looking out for their fellow workers.

**THE SUPERVISOR'S ROLE IN SAFETY (VHS)**

14 Minutes

YEAR

1997

TITLE #

469

Supervisors need to lead by example in every aspect of their job, especially safety. It is important that safety be non-negotiable and balanced with production results. Employees must be recognized for their safety practices. Learn ways to communicate and the advantages of asking employees for safety help.

**THINK ABOUT THIS! (DVD)**

5 Minutes

YEAR

2000

TITLE #

40

This presentation is an excellent tool for starting your next safety meeting. The graphic accidents re-enacted in the program will force your employees to think about the personal consequences of unsafe acts and how those actions also affect the lives of their loved ones. Employees will be ready to devote their full attention to the upcoming training topic after watching this powerful meeting opener.

**THREAT DETECTOR: YOUR ROLE IN PREVENTING WORKPLACE VIOLENCE (DVD)**

17 Minutes

YEAR

2012

TITLE #

520

This program is a terrific means for training your employees on how to recognize threats in the workplace--before these threats lead to violent acts. You will be shown what threatening behaviors are and the red flags that may indicate the potential for future violent acts.

**VIOLENCE IN THE WORKPLACE (SP VHS)**

17 Minutes

YEAR

2001

TITLE #

993

This video program focuses on the trend in deaths occurring in the workplace. More people are being killed by violence at work each year. This program explains the problem of workplace violence and how to protect employees.

**WHAT WOULD YOU SAY? (DVD)**

15 Minutes

YEAR

2005

TITLE #

365

This presentation illustrates how to effectively communicate with our co-workers when we see them behaving unsafely.

**WHAT'S YOUR EXCUSE (DVD)**

16 Minutes

YEAR

2008

TITLE #

852

Excuses, excuses we all have given and heard our share of excuses. This program features many common workplace examples of people using excuses to justify unsafe acts. Our goal is to help viewers recognize risky excuses so they can stop, think, and make a better choice.

**WHAT'S YOUR EXCUSE? (SP DVD)**

16 Minutes

YEAR

2008

TITLE #

440

Excuses, excuses we all have given and heard our share of excuses. This program features many common workplace examples of people using excuses to justify unsafe acts. Our goal is to help viewers recognize risky excuses so they can stop, think, and make a better choice.

**WITH ALL DUE RESPECT (DVD)** YEAR TITLE #  
20 Minutes 2007 573

This presentation will go over the importance of knowing your companies policies and the law, all people have equal rights, examine the attitudes, beliefs, and actions towards those who are different, and realize that your workplace should be built upon equality, accepting differences and appreciating diversity.

**WORKPLACE HAZARD PERCEPTION CHALLENGE (DVD)** YEAR TITLE #  
60 Minutes 2003 608

This program depicts real-life workplace scenarios and challenges trainees to think about what they saw, relate it to their own work settings, and respond quickly and correctly. Topics covered include the following: forklifts, stairs and walkways, lockout/tagout, machine guarding, hazcom, and more.

**WORKPLACE HAZARD PERCEPTION CHALLENGE (SP DVD)** YEAR TITLE #  
60 Minutes 2003 495

This program depicts real-life workplace scenarios and challenges trainees to think about what they saw, relate it to their own work settings, and respond quickly and correctly. Topics covered include the following: forklifts, stairs and walkways, lockout/tagout, machine guarding, hazcom, and more.

**WORKPLACE SAFETY 101 (DVD)** YEAR TITLE #  
37 Minutes 2009 722

This DVD gives new hires the tools to develop solid safety habits and hazard perception skills from the start of their employment. Topics include: workplace violence, slips, trips & falls, lifting techniques, lockout/tagout, hazard communication, first aid, personal protective equipment and bloodborne pathogens.

**WORKPLACE SAFETY ORIENTATION FOR EMPLOYEES (VHS)** YEAR TITLE #  
25 Minutes 2002 24

This video will help new employees understand how safety is involved in all areas of their job and give them an overview of critical OSHA workplace safety issues like proper lifting, PPE and forklifts.

**WORKPLACE VIOLENCE (SP DVD)** YEAR TITLE #  
15 Minutes 2011 739

One out of every six violent crimes occurs in the workplace. No organization, regardless of size or type of business, is immune to workplace violence. This program shows employees how to recognize the warning signs of possible violent behavior, as well as how to avoid or defuse potentially dangerous situations. Topics covered include: underlying causes of workplace violence, threats and verbal abuse, physical assault, armed assailants, and fostering a positive workplace environment.

**WORKPLACE VIOLENCE: THE EARLY WARNING SIGNS (DVD)** YEAR TITLE #  
17 Minutes 2012 639

Workplace violence can happen in any size organization, in any industry. Detailing ten distinct warning signs that could foretell violence in your organization, the employee version of this training DVD emphasizes the need for employees to speak up and get help if they notice anything that causes concern.

**WORKPLACE VIOLENCE: THE MYTHS AND THE MYSTERY (VHS)** YEAR TITLE #  
17 Minutes 2002 971

One in every four U.S. workers are attacked, threatened or harassed each year. This video introduces the myths relating to workplace violence and signs of a hostile employee. Several topics include: the cost of workplace violence, causes, effects, and prevention of violence and hostility, downsizing, unresolved conflicts, aggression and disputes.

### **SPECIFIC CHEMICALS & LABORATORY SAFETY**

**AMMONIA IN THE WORKPLACE (VHS)** YEAR TITLE #  
5 Minutes 2000 151

Ammonia is a hazardous chemical used as a refrigerant and in fertilizers. Low-level exposures can irritate the eyes, skin and respiratory tract and can be fatal in higher concentrations. This video demonstrates safe procedures for working with ammonia.

**AMMONIA SAFETY (EN/SP DVD)** YEAR TITLE #  
19 Minutes 2007 158

Ammonia can have negative consequences on your workers health, and if not handled properly, can cause an explosion or fire at your site. Don't let a common chemical become an injury or accident source at your site. Teach your workers proper handling, hazards awareness and best safety practices. This program will cover: what is Ammonia, potential hazards, and best safety practices when working with it.

**ASBESTOS AWARENESS: CONTROLLING EXPOSURE (EN/SP DVD)**

23 Minutes

YEAR

2004

TITLE #

680

Help your employees control their exposure to airborne asbestos fibers with this training program that covers basic OSHA principles and safe work practices.

**ASBESTOS IN CONSTRUCTION (VHS)**

15 Minutes

YEAR

2003

TITLE #

334

This program is designed to help comply with OSHA 29 CFR 1926.1101. This program will help construction workers, custodial staff, trade contractors and anyone who deals with building materials fully understand that asbestos must be handled with care in order to maintain a safe work environment. Topics include: asbestos related work activities, four asbestos work classes, respiratory protection, regulated areas and exposure assessments and monitoring.

**ASBESTOS: AWARENESS EXPOSURE (VHS)**

12 Minutes

YEAR

1997

TITLE #

785

Asbestos has been used for centuries because of its fire retardant and insulation properties. Asbestos fibers, when bonded together, pose no significant health risk. However, if the bond is disturbed and the asbestos fibers become airborne, they can pose a significant health risk. This video reviews the health hazards of asbestos exposure, and basic precautions that should be taken when working with asbestos. It can be used to supplement OSHA required "awareness" training.

**BENZENE: KNOWLEDGE IS POWER AND SAFETY (EN/SP DVD)**

15 Minutes

YEAR

2009

TITLE #

483

Benzene is a recognized carcinogenic as well as a developmental and reproductive toxicant. Protect your employees with this life saving training program that covers the dangers of benzene, how exposure can affect health, how it gets into the atmosphere, who is at risk of exposure, how to reduce exposure and what to do in case of accidental exposure.

**DISPENSING PROPANE SAFELY (DVD)**YEAR

2005

TITLE #

768

This program allows you to select certain sections based on job responsibilities. The first three sections apply to anyone dispensing propane: 1) Dispenser training requirements 2) Propane properties, characteristics and safety measures 3) Dispensing equipment. Additional sections include: DOT cylinders; inspecting, filling and labeling small cylinders; Forklift cylinders; ASME motor fuel & RV tanks; Refill exchange cylinder operations.

**DOT HAZMAT GENERAL AWARENESS (DVD)**

17 Minutes

YEAR

2003

TITLE #

362

This reviews a number of topics aimed at making these employees more aware of situations in which they may encounter hazardous chemicals, the nature of the hazards and the issue of taking appropriate security measures when dealing with hazardous materials that the DOT has added to the regulation. Topics covered include the regulation itself, hazardous materials, definitions and classes, hazard communication, hazard "indicators", such as labels, shipping papers and placards, where hazardous materials may be encountered, packaging and storage, shipping, transport, security risks and terrorism.

**DOT HAZMAT SAFETY TRAINING (DVD)**

18 Minutes

YEAR

2003

TITLE #

895

Created specifically for the Department of Transportation's HAZMAT training regulation on handling and transporting hazardous materials, this program provides the safety training required by the regulation. The DVD includes information on the regulation itself, hazardous materials that employees may encounter, hazard indicators, such as labels, shipping papers and placards, the use of personal protective equipment, proper handling procedures, methods and procedures for avoiding accidents, accidents/emergencies involving hazardous materials, spills and cleanup procedures, security issues and more.

**ELECTRICAL SAFETY IN THE LAB (DVD)**

12 Minutes

YEAR

2011

TITLE #

844

This program emphasizes the need for safety when using electricity, and discusses how to reduce the potential for accidents involving electrical shock, fire and explosions. Topics covered in these products include: how electricity works, common electrical hazards, fuses, circuit breakers and grounding, using and maintaining electrical equipment and accidents and emergency procedures.

**FLAMMABLES AND EXPLOSIVES IN THE LAB (DVD)**

15 Minutes

YEAR

2011

TITLE #

545

This program discusses the nature of flammable and explosive materials, as well as hazards associated with their use. They also review the proper handling procedures and personal protective equipment that should be used when working with these substances. Topics covered in these products include: definitions of flammables and explosives, conditions that can create hazards, the role of ventilation in preventing problems, transporting flammables and explosives, storage considerations, using compressed gases, emergency planning and disposing of flammables and explosives.

<b>GHS CONTAINER LABELING (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
12 Minutes	2012	760

Created specifically to assist facilities in complying with the employee training requirements of OSHA's newly adopted GHS regulations, these products discuss how chemicals should be labeled under GHS. "GHS Container Labeling" this program covers the six types of information contained on a GHS label, and the differences between GHS labels and other types of chemical hazard labels. Topics covered in the program include: How the GHS changes chemical hazard labeling, GHS labels, training and phase-in dates. Spanish version #811

<b>GHS CONTAINER LABELING (SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
12 Minutes	2012	811

Created specifically to assist facilities in complying with the employee training requirements of OSHA's newly adopted GHS regulations, these products discuss how chemicals should be labeled under GHS. "GHS Container Labeling" this program covers the six types of information contained on a GHS label, and the differences between GHS labels and other types of chemical hazard labels. Topics covered in the program include: How the GHS changes chemical hazard labeling, GHS labels, training and phase-in dates. English version #760.

<b>GHS SAFETY DATA SHEETS (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
16 Minutes	2012	743

Created specifically to assist facilities in complying with the employee training requirements of OSHA's newly adopted GHS regulations, these products discuss using GHS Safety Data Sheets. "GHS Safety Data Sheets" review the composition of GHS Safety Data Sheets, the information that's contained in each section and how SDS's are different from Material Safety Data Sheets. Topics covered in the program include: Material Safety Data Sheets and GHS SDS's, materials and their hazards, hazardous materials emergencies and handling hazardous materials. Spanish Version #815

<b>GHS SAFETY DATA SHEETS (SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
16 Minutes	2012	815

Created specifically to assist facilities in complying with the employee training requirements of OSHA's newly adopted GHS regulations, these products discuss using GHS Safety Data Sheets. "GHS Safety Data Sheets" review the composition of GHS Safety Data Sheets, the information that's contained in each section and how SDS's are different from Material Safety Data Sheets. Topics covered in the program include: Material Safety Data Sheets and GHS SDS's, materials and their hazards, hazardous materials emergencies and handling hazardous materials. English version #743

<b>HANDLING COMPRESSED GAS CYLINDERS IN THE LAB (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
15 Minutes	2011	476

This program examines how gas cylinders "work", the hazards that are associated with them and the need for caution when using or storing a cylinder. Topics covered in these products include: the four major ways to compress gases, hazards associated with compressed gases, proper storage procedures, marking and labeling cylinders, handling cylinders safely, connections and fittings, and leak detection.

<b>HEXAVALENT CHROMIUM: THE FACTS (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
13 Minutes	2011	851

This program discusses some of the dangers of Hexavalent Chromium (HC) exposure. HC is a known carcinogen that if exposed to can cause illness or death.

<b>HYDROGEN SULFIDE EMPLOYEE TRAINING (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
20 Minutes	2010	571

Employees can work safely in areas where the potential of hydrogen sulfide exists by following their organization's Hydrogen Sulfide Contingency Plan, knowing how and when to use respiratory protection and knowing the meaning of their facility's hydrogen sulfide warning sounds and signals. This program reviews these three key issues and many other precautions that protect employees from H2S exposures when followed.

<b>HYDROGEN SULFIDE EMPLOYEE TRAINING (SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
20 Minutes	2010	663

Employees can work safely in areas where the potential of hydrogen sulfide exists by following their organization's Hydrogen Sulfide Contingency Plan, knowing how and when to use respiratory protection and knowing the meaning of their facility's hydrogen sulfide warning sounds and signals. This program reviews these three key issues and many other precautions that protect employees from H2S exposures when followed.

<b>HYDROGEN SULFIDE EMPLOYEE TRAINING CONCISE (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
10 Minutes	2010	578

Employees can work safely in areas where the potential of hydrogen sulfide exists by following their organization's Hydrogen Sulfide Contingency Plan, knowing how and when to use respiratory protection and knowing the meaning of their facility's hydrogen sulfide warning sounds and signals. This program reviews these three key issues and many other precautions that protect employees from H2S exposures when followed.

**HYDROGEN SULFIDE: A MATTER OF LIFE OR DEATH (EN/SP DVD)**

19 Minutes

YEAR  
2007TITLE #  
479

Whether working in a manufacturing plant, laboratory, mine or public utility, your employees' health depends on understanding the potential hazards of hydrogen sulfide, which is a poison that can kill. This program teaches employees what hydrogen sulfide is, its effects, air monitoring requirements, personal protective equipment, emergency response and first aid procedures.

**INTRODUCTION TO GHS: THE GLOBALLY HARMONIZED SYSTEM (DVD)**

20 Minutes

YEAR  
2012TITLE #  
604

Created specifically to assist facilities in complying with the employee training requirements of OSHA's newly adopted GHS regulations, these products discuss the Globally Harmonized System for the Classification and Labeling of Chemicals. "Introduction to GHS (The Globally Harmonized System)" reviews what the Globally Harmonized System is all about, why OSHA adopted the GHS, and the phase-in dates for implementing the GHS. Topics covered in the program include: What is the Globally Harmonized System, why Did OSHA adopt the GHS, Hazard classification, the "Safety Data Sheet", container labeling, and GHS "phase in" dates.

**LAB SAFETY: UNDER THE HOOD (SP VHS)**

18 Minutes

YEAR  
2002TITLE #  
91

This program is designed to help employees develop safe work practices while in the lab and recognize common laboratory hazards. The program also helps employees use and understand their employer's chemical Hygiene Plan and the requirements of the Laboratory Safety standard (29 CFR 1910.1450).

**LAB SAFETY: UNDER THE HOOD (VHS)**

18 Minutes

YEAR  
2002TITLE #  
164

This program is designed to help employees develop safe work practices while in the lab and recognize common laboratory hazards. The program also helps employees use and understand their employer's Chemical Hygiene Plan and the requirements of the Laboratory Safety Standard (29 CFR 1910.1450).

**LABORATORY ERGONOMICS (DVD)**

13 Minutes

YEAR  
2011TITLE #  
480

This program discusses the need to set up work areas correctly, as well as how to minimize the strain of using laboratory equipment, tools and instruments. Topics covered in these products include: parts of the body most susceptible to ergonomic problems, arranging work areas to minimize stress and strain, working from "neutral" positions, most and least stressful types of body movements, proper lifting techniques and effective stretching exercises.

**LABORATORY HOODS (DVD)**

15 Minutes

YEAR  
2011TITLE #  
704

This program emphasize how to properly use laboratory hoods and how to test them to ensure correct functioning... as well as discuss how hoods can protect an experiment, the facility, and most importantly, the employee. Topics covered in these products include: why laboratory hoods are needed, protections afforded by hoods, various types of hoods found in laboratories, how hoods function mechanically, proper use of laboratory hoods and testing and maintenance.

**LABORATORY SAFETY: THE FINER POINTS (EN/SP DVD)**

20 Minutes

YEAR  
2007TITLE #  
464

Practice always makes perfect. Through this program, seasoned laboratory employees can review safety techniques and general procedures they may have forgotten since their initial training. Based on OSHA 1910.1450, it covers: hazardous materials in labs, fume hoods, emergency showers and eyewashes, chemical storage, and using chemicals safely.

**LEAD IN THE WORKPLACE (VHS)**

5 Minutes

YEAR  
2000TITLE #  
157

Lead exposure can cause serious health problems and exposure can occur in at least 120 different occupations. This video outlines the precautions each employee should take to prevent overexposure.

**LEAD SAFETY ON THE JOB (DVD)**

18 Minutes

YEAR  
2003TITLE #  
666

In order to comply with OSHA's Lead Construction Standard your employees should know how lead can enter the body and how they can protect themselves from lead exposure. This program offers helpful tips to avoid the threat of environmental lead.

**LEAD SAFETY: UNCOVERING THE DANGERS (EN/SP DVD)**

13 Minutes

YEAR  
2010TITLE #  
837

Workers that are exposed to lead in the workplace face many illnesses and health concerns, but these issues can be easily avoided. This comprehensive training program teaches construction and renovation workers important safety precautions to take while working around lead hazards, such as the appropriate PPE to wear and how to zone off the work area to keep toxic dust to a minimum.

**MATERIAL SAFETY DATA SHEETS IN THE LAB (DVD)**

15 Minutes

YEAR

2011

TITLE #

805

This program reviews the various sections of the MSDS, what information can be found in each section and most importantly, how this information can help employees to work safely in their laboratory. Topics covered in these products include: the purpose of Material Safety Data Sheets (MSDSs), sections of the MSDS, information found in each section and how MSDS information can help employees work safely.

**MOLD AWARENESS (VHS)**

14 Minutes

YEAR

2003

TITLE #

77

This video covers topics such as: what is mold, where does mold come from, how is mold spread, how to reduce mold indoors, who should avoid exposure and employee awareness training.

**ORIENTATION TO LABORATORY SAFETY (DVD)**

12 Minutes

YEAR

2011

TITLE #

840

This program shows both new employees and "seasoned veterans" the importance of safety in the laboratory, as well as reviews the OSHA regulations and good safety practices that apply to laboratory environments. Topics covered in these products include: OSHA regulations, Material Safety Data Sheets (MSDSs), planning safe experiments, Personal Protective Equipment, ventilation controls, Chemical storage, accidents and emergencies and waste disposal

**PLANNING FOR LABORATORY EMERGENCIES (DVD)**

17 Minutes

YEAR

2011

TITLE #

521

This program discusses how to minimize damage and prevent injuries if a laboratory emergency should occur. Topics covered in these products include: the Emergency Plan, types of emergencies occurring in laboratories, alarms and warning systems, contacting outside agencies, evacuation and fires, explosions and chemical spills.

**PREVENTING CONTAMINATION IN THE LAB (DVD)**

11 Minutes

YEAR

2011

TITLE #

738

This program emphasizes the need to recognize situations that could lead to contamination, and discuss what can be done to prevent contamination from occurring. Topics covered in these products include: how contamination occurs, general preventative measures, engineering controls, safe work practices and personal protective equipment.

**RADIATION SAFETY: THE BASICS (EN/SP DVD)**

22 Minutes

YEAR

2006

TITLE #

557

Those who work with radioactive materials or are exposed to them risk infection that can cause skin lesions, cancer, tumor and even death. You will learn about the different types of radiation, radiation health hazards, types of radiation measurements, and proper steps in a radiation emergency.

**SAFE HANDLING OF LABORATORY GLASSWARE**

13 Minutes

YEAR

2011

TITLE #

522

This program discusses the nature of various types of glassware, and the problems it can cause... as well as the need for employees to use and maintain laboratory glassware safely. Topics covered in these products include: inspecting glassware before use, effects of extreme temperatures and pressures, matching glassware to the experiment, working with glass tubing, using personal protective equipment, storage and handling and washing and cleanup.

**SAFETY SHOWERS AND EYE WASHES (DVD)**

17 Minutes

YEAR

2012

TITLE #

252

No matter how many precautions employees take, accidents sometimes happen. In these situations quick action is essential, and if the incident involves a hazardous material, using a safety shower or eyewash can be extremely important. This program provides a great review for employee situations where safety showers and eye washes should be used, as well as how to properly use them. Topics covered in these products include: types of showers and eye washes, safe operation, chemical splashes, appropriate shower and eye wash techniques, first aid procedures and maintenance and testing of showers and eye washes.

**SAFETY SHOWERS AND EYE WASHES IN THE LAB (DVD)**

8 Minutes

YEAR

2011

TITLE #

799

This program reviews the correct ways to use this equipment, and emphasize the need for quick action after a chemical splash or spill in a laboratory. Topics covered in these products include: getting to eye washes and safety showers in an emergency, operating showers and eye washes, exposure to corrosive substances, testing eye wash and shower equipment and using showers and eye washes properly.

**THE OSHA FORMALDEHYDE STANDARD (DVD)**

13 Minutes

YEAR

2011

TITLE #

353

This program provides training that is required by this standard, focusing on the rules and procedures that the standard establishes for working with this potentially dangerous chemical. Topics covered in these products include: potential health hazards associated with formaldehyde, testing for Permissible Exposure Limits (PEL), labeling and Material Safety Data Sheets, hoods and other ventilation systems, personal protective equipment, spill clean-up and decontamination procedures, First aid and the Medical Surveillance Plan.

**SUBSTANCE ABUSE****ALCOHOLISM IN THE WORKPLACE (SP VHS)**

9 Minutes

**YEAR**

1999

**TITLE #**

52

An awareness program on the hazards of alcohol on-the-job or being under the influence of alcohol when reporting to work.

**DEALING WITH DRUG & ALCOHOL ABUSE FOR EMPLOYEES (DVD)**

19 Minutes

**YEAR**

2006

**TITLE #**

697

This program discusses the various types of substance abuse that are found in the workplace, how they can affect an employee's work situation and what employees themselves can do to help keep their workplace drug and alcohol free. Topics covered in these products include: how substances are typically abused by employees, alcohol and other depressants, and their effects, stimulants, narcotics and hallucinogens, and their effects, how people get "hooked" on drugs and alcohol, alcohol and drug policies, helping employees overcome substance abuse and more.

**DEALING WITH DRUG AND ALCOHOL ABUSE FOR MANAGERS (DVD)**

19 Minutes

**YEAR**

2006

**TITLE #**

599

This program discusses the various forms of substance abuse that are typically found in the workplace, how managers and supervisors can detect substance abuse problems, and what they should and shouldn't do if they discover a worker with a substance abuse problem. Topics covered in the products include: how substance abuse can affect a workplace, laws and regulations related to substance abuse, how to help create an alcohol and drug-free workplace, the role of education and testing in preventing substance abuse, recognizing on-the-job substance abuse, how to handle substance abuse situations and more.

**DOT DRUG AND ALCOHOL TESTING (VHS)**

19 Minutes

**YEAR**

2001

**TITLE #**

344

In accordance with the DOT's alcohol and drug testing rule, employers must train drivers on the dangers of alcohol and controlled substances. This program provides a detailed look at driver's rights and responsibilities.

**DRUGS DON'T WORK HERE (DVD)**

25 Minutes

**YEAR**

2010

**TITLE #**

829

This program is organized into three modules that can be used separately or viewed together. Using real stories motivates employees to think about the consequences to co-workers and families when they recognize that they may have a problem. Many workers and supervisors feel that what someone does on their own time is their own business. Brain scans of recreational drug users and heavy alcohol users graphically show how the brain can be damaged and overtime a brain's functions are impaired. Topics of this program include substance abuse policies within the workplace, substance abuse policy enforcement, recognize the effects, signs, and symptoms of alcohol use and drug abuse, on an individual's health, work, and personal life. The program also describes specific alcohol, illegal substance, and prescription use prohibited in the workplace.

**RECOGNIZING DRUG AND ALCOHOL ABUSE FOR EMPLOYEES (EN/SP DVD)**

36 Minutes

**YEAR**

2004

**TITLE #**

619

This illuminating program helps employees recognize signs of drug and alcohol abuse and understand the importance of confronting it rather than being an enabler by helping a co-worker hide his or her problem. Employees are encouraged to talk to the appropriate supervisor when they know of a problem.

**TRAFFIC: DEFENSIVE DRIVING & ROAD RAGE****DECISION DRIVING PART 1: OVERVIEW (VHS)**

10 Minutes

**YEAR**

1999

**TITLE #**

931

How do you become a Decision Driver? This overview provides you with the five principles which will improve your Decision Driving performance and skill.

**DECISION DRIVING PART 2: EXPAND YOUR LOOK AHEAD CAPACITY (VHS)**

10 Minutes

**YEAR**

1999

**TITLE #**

932

Reacting to a potential problem you see developing ahead, you may be able to avoid a full-blown hazard. Explains eight key steps to expanding your ability to see what's happening around you and where you will be driving in the next few seconds.

**DECISION DRIVING PART 3: SIZE UP THE WHOLE SCENE (VHS)**

10 Minutes

**YEAR**

1999

**TITLE #**

933

Teaches how to keep yourself constantly informed of the whole driving scene. The more facts you have, the smaller the chance of making a poor decision.

**DECISION DRIVING PART 4: SIGNAL YOUR INTENTIONS EARLY (VHS)**

10 Minutes

**YEAR**

1999

**TITLE #**

934

Driving defensively is not enough, you have to make sure other drivers and pedestrians are aware of you. This video reviews how signaling is imperative to completely communicating while driving.

**DECISION DRIVING PART 5: PLAN AN ESCAPE ROUTE (VHS)**

10 Minutes

YEAR

1999

TITLE #

935

It is much easier to be quick and decisive when you've planned an escape path, and a safe alternative decision is open to you. Reviews concepts on following distances, yielding, avoiding being boxed in and timing your passing moves to plan an escape route.

**DEFENSIVE DRIVING (DVD)**

20 Minutes

YEAR

2011

TITLE #

723

Motor vehicle accidents are the leading cause of death for the American worker. Since virtually everyone drives a vehicle every day for either business or personal reasons, defensive driving training is of vital importance. This program discusses distracted driving, stopping distances, following distances, adverse weather and other defensive driving techniques

**DEFENSIVE DRIVING (SP DVD)**

Since virtually everyone drives a vehicle every day for either business or personal reasons, defensive driving training is of vital importance. This program discusses distracted driving, stopping distances, following distances, adverse weather and other defensive driving techniques

**DEFENSIVE DRIVING AND ROAD RAGE (VHS)**

13 Minutes

YEAR

2000

TITLE #

391

This video helps drivers deal with today's highways and fast-paced traffic and offers accident prevention techniques, including proper signaling and not following too closely.

**DEFENSIVE DRIVING: 15 PASSENGER VANS (EN/SP DVD)**

13 Minutes

YEAR

2005

TITLE #

524

Fatal rollovers and other accidents involving 15-passenger vans occur because the drivers are inexperienced and untrained. This valuable program provides drivers with important safety tips to help them operate the vans safely, protect passengers, and avoid accidents.

**DEFENSIVE DRIVING: I COULD SEE IT COMING (DVD)**

17 Minutes

YEAR

2005

TITLE #

301

If you have employees who use step vans, autos or cargo vans on-the-job, it is important for you as an employer to teach them about the unique handling skills needed to safely operate these vehicles. This program will help you conduct defensive-driving training sessions for new and existing employees. It covers the factors that cause accidents and then provides seven strategies for driving defensively.

**DEFENSIVE DRIVING: PREPARED FOR THE WORST (EN/SP DVD)**

18 Minutes

YEAR

2005

TITLE #

864

Defensive drivers know how to deal with road hazards, poor weather conditions, vehicle collisions and crime. This program shows how to stay in control by being prepared for the worst.

**DEFENSIVE DRIVING: RULES OF THE ROAD (SP DVD)**

20 Minutes

YEAR

2013

TITLE #

64

This video is a new way to train your drivers, but it's not the same old boring defensive driving course. We have gone back 40, 50, and 60 or 70 years to see what was taught in the "old days" and how that relates to today's driving. We've mixed yesteryear, with up to date defensive driving techniques that will keep your employees interested in the subjects and learn more from this course, than all the others combined.

**DRIVING DEFENSIVELY (DVD)**

17 Minutes

YEAR

2015

TITLE #

995

When you drive defensively, you're always looking for trouble. Not because you want to cause it, but so you can defend yourself against other drivers, and the trouble they can cause. Whether they're speeding, tailgating, or just not paying attention to what they're doing, other drivers can put you at risk. This title provide the information employees need to drive cars, vans and small trucks defensively, both on and off the job. Topics covered include: The fundamentals of driving defensively, Dealing with distracted drivers, Coping with aggressive drivers, Using your headlights, Driving safely in bad weather, Handling a blowout, Sharing the road with trucks and buses...and more.

<b>EMOTIONAL WRECK (EN/SP DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
23 Minutes	2009	499
This presentation examines the deadly issue of aggressive driving, explains its causes and explores how it can be avoided. Illustrating five deadly mindsets that lead to aggression on the road - obliviousness, selfishness, impatience, competitiveness and road rage - the program brings to life how emotions take control and steer drivers into making bad decisions. This training program allows audiences to examine their behavior, get a grip on their emotions and make the necessary and vital changes in mindset and attitude to keep them safe on the road.		
<b>EXPECTING THE UNEXPECTED (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
20 Minutes	2000	65
This training program is designed to motivate employees to drive safely and avoid the devastating consequences that can result from a motor vehicle accident. The program examines four interrelated elements of accident-free driving; defensive driving, space management, the condition of the driver and the condition of the vehicle. It also discusses three important safety features that can help you minimize injury of avoiding an accident altogether: safety belts, air bags and antilock braking systems.		
<b>INTERSECTIONS: EXPECT THE UNEXPECTED (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
7 Minutes	2011	761
Illustrates the dangers of crossing through an intersection. As a driver, you pass through so many intersections each day. It is your responsibility to be sure each intersection is negotiated safely. Remind yourself to always drive with your headlights on. Alertness to the roadway and intersections will ensure a safe trip. In this program we will review examples of three accidents involving intersections.		
<b>IT'S GOOD BUSINESS: A SUPERVISOR'S GUIDE TO DEFENSIVE DRIVING (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
15 Minutes	2005	390
This program is designed to help you conduct a training session that will improve supervisors' effectiveness in monitoring employees' driving. Specifically, supervisors will learn skills for observing driving behaviors and correcting unsafe driving practices. Upon completion of the program, participants will be able to do these things: Understand the importance of supervising for safety, observe and recognize employees' safe and unsafe driving practices, correct employees' unsafe driving practices by using coachable moments, and clearly communicate the organization's priorities, including safety.		
<b>ROAD RAGE (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
18 Minutes	2000	74
You can reduce the chances of your workers becoming part of the statistics of road rage by training with this program. It's timely, relevant and critical for sales representatives, service people, delivery drivers, and anyone else who spends time behind the wheel. The program demonstrates real situations and measures you can take to reduce your exposure to aggressive driving. Specific, effective advice to avoid getting involved with an aggressive driver, what to do if you are the victim of aggressive driving and the importance of not indulging in aggressive driving yourself.		
<b>THINK &amp; DRIVE: NEW DEFENSIVE DRIVING (VHS)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
17 Minutes	2000	9
This video is designed to replace outdated defensive driving techniques, this video helps drivers deal with today's highways and fast-paced traffic and offers accident prevention techniques, including proper signaling and not following too closely.		
<b>TIPS AND TECHNIQUES FOR SAFER DRIVING (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
	2002	863
This production will discuss tale-tale signs that another driver on the road is not experienced. While you can't control what the other drivers are doing, you are in control of how safely you drive your vehicle. Tips are given to help drivers of smaller vehicles understand the frustrations of those who drive big rigs and vice versa. This DVD also discusses speed and weather considerations.		
<b>TRAFFIC! ROAD WORK! ROAD RAGE! AT THE SCENE! (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
28 minutes	2008	870
This DVD consists of four different topics, seven minutes each. At the Scene shows drivers to stay calm while coping with a crash. It explains what to do in the first few minutes after an incident. Road Rage defines the problem, explains how it affects professional drivers, and covers what your drivers can do to prevent becoming victims of -or contributors to - road rage. Road Work shows drivers how to manage their vehicles in and around road construction areas. Also focuses on precautions that should be taken in work zones. Traffic explores the challenges associated with ever-increasing traffic and demonstrates techniques for avoiding traffic-related accidents.		
<b>WHAT'S DRIVING YOU? (DVD)</b>	<b><u>YEAR</u></b>	<b><u>TITLE #</u></b>
11 Minutes	2008	393
This presentation helps viewers recognize the signs of aggressive driving behavior and the obstacles that challenge driver attitude. It offers practical tips on how to manage your stress levels and control unsafe driver reactions even in the most challenging situations.		

**WHY DO WE DRIVE THE WAY WE DO? IT'S ALL ABOUT CHOICES (DVD)**

13 Minutes

YEAR

2007

TITLE #

894

This program is designed to help you conduct a training session to ensure that employees recognize that they are professional drivers and need to operate vehicles with professional attitudes and professional defensive-driving skills. Upon completion of the program, participants will be able to recognize that they are professional drivers, make driving decisions from a professional point of view, identify the driving risks they take and the rewards they expect to get by taking those risks, understand that unsafe driving can result from both action and inaction, recognize the conscious and unconscious risks they take and avoid accidents by using defensive-driving skills.

**TRAFFIC: DISTRACTED DRIVING**

**A TEXTING TRAGEDY (DVD)**

15 Minutes

YEAR

2009

TITLE #

276

This is a documentary that educates drivers about the dangers of distracted driving and illustrates, through a true-life example, how one person texting while driving resulted in the deaths of two men. The contents of the documentary are based on an actual fatal crash that took place in Cache County on the Valley View Highway. The young man in the film says he wants to make sure, quote: "That they don't do what I did, that they don't put people through what I put people through. It's changed my life forever and changed the lives of two other families forever."

**A TEXTING TRAGEDY (DVD)**

**CELL PHONES IN THE WORKPLACE: A DANGEROUS DISTRACTION (DVD)**

15 Minutes

YEAR

2011

TITLE #

618

Our cell phones are powerful tools that allow us to have instant access to information and communication. When used appropriately, these devices can make our lives easier and more enjoyable, but when used at the wrong time and in the wrong manner, these same devices can get us in trouble at work and cause serious injury. This program discusses how sending and receiving text messages can cause us to lose focus on doing our jobs safely and efficiently as well as the importance of always following your company's policy regarding cell phone use. Also featured are several workplace scenarios that illustrate the tragic consequences of ignoring these policies in order to text when it is unsafe or prohibited. Other topics include how cell phone use adversely affects our production level, following the company plan for emergency contact, appropriate use of company-owned cell phones and why we must have the courage to speak up and refuse to participate in unsafe and inappropriate texting.

**CELLULAR PHONES AND TWO-WAY RADIOS (DVD)**

5 Minutes

YEAR

2002

TITLE #

239

Driver inattention is a primary or contributing factor in 50 percent of all crashes. Cellular phones and two-way radios offer great benefits, but they also can divert a driver's attention away from the driving task. If you use wireless communication, make driving safely your first responsibility.

**DISTRACTED DRIVING - AT WHAT COST? (DVD)**

16 Minutes

YEAR

2004

TITLE #

687

This presentation includes a two car crash that is investigated and shows how each driver was distracted leading up to the crash. It also includes an interview with a woman who was severely injured in a crash caused by a distracting cell phone conversation. Her parents talk about how their entire family's lives were changed by the crash.

**DISTRACTED DRIVING: MAKE THE CORRECT CHOICE (DVD)**

13 Minutes

YEAR

2010

TITLE #

875

In today's busy world, distractions are everywhere, especially behind the wheel. Phones, iPods, texting, talking, you name it, they're all distractions. The temptation to use these devices behind the wheel is very real. This program identifies these hazards, exposes the dangers they present and offers practical advice on how to remain focused behind the wheel. Statistics show that up to 63% of all motor vehicle crashes are due in whole, or in part to distracted driving. In fact, distracted driving is rapidly becoming the largest contributor to serious and fatal vehicle crashes. This all-new video will help prevent you and your employees from becoming one of these statistics.

**DISTRACTED DRIVING: REAL ACCIDENTS, REAL STORIES (DVD)**

17 Minutes

YEAR

2007

TITLE #

310

This presentation pertains real stories in which professional drivers talk about how they could have prevented a crash from occurring. Great for seasoned drivers who may have become complacent on safety.

**DISTRACTED DRIVING: THE DAVE HENSON STORY (DVD)**

4 Minutes

<u>YEAR</u>	<u>TITLE #</u>
2013	902

In March of 2013, Dave and Leslee Henson were out for a walk on Dixie Drive in St. George, Utah, when a distracted driver caused a two-car crash, which sent the second vehicle onto the sidewalk, hitting the couple from behind. Dave died shortly after the crash and Leslee was taken by medical helicopter, to Provo where she was treated in the ICU for brain and head trauma. In this DVD, Leslee Henson and Fred Konrath, the driver of the second vehicle share Dave's heroic story. This DVD gives viewers a reminder to always pay attention behind the wheel and even that one distraction could change your entire life in a split second

**DRIVING DISTRACTIONS OF THE PROFESSIONAL DRIVER (DVD)**

15 Minutes

<u>YEAR</u>	<u>TITLE #</u>
2003	287

Prevent distracted driving among employees with this presentation on how professional drivers can prepare for a safe drive and maintain that safety while on the road. The material covers the host of possible distractions professional drivers face and how to avoid them through pre-trip planning, knowing how to handle unexpected weather changes and handling everyday driving hazards on the job.

**DRIVING DISTRACTIONS OF THE PROFESSIONAL DRIVER (SP DVD)**

13 Minutes

<u>YEAR</u>	<u>TITLE #</u>
2009	812

A must have tool for any company or municipality employing drivers, this dramatic presentation illustrates the many unique situations professional drivers face including driving in unfamiliar areas, directions, signage, and maps. It stresses safe driving techniques and provides practical advice for minimizing the risks of driving in a number of potentially dangerous situations including bad weather.

**FATAL DISTRACTIONS: KEEP YOUR EYES ON THE ROAD (DVD)**

82 Minutes

<u>YEAR</u>	<u>TITLE #</u>
2014	196

Fatal Distractions: Keep Your Eyes On The Road features 12 separate interviews of people who lost their loved ones to distracted driving. Their personal, tragic stories help viewers take to heart the potential hurt that irresponsible driving can cause. By stressing the possible impact of distracted driving, the stories heighten the need to stay alert behind the wheel. Each segment makes a powerful meeting opener and brings to life the harsh reality of a wrong split-second decision.

**TEXTING AND DRIVING: THE FACTS (DVD)**

10 Minutes

YEAR

2012

TITLE #

212

Texting and Driving is the new "drunk driving" of the technological world we live in. This video covers the three basic ways texting & driving distracts drivers, and presents testimonials from a few drivers who have had personal experiences with the consequences. The program stresses the reality of how a texting driver endangers not only themselves, but all those on the road around them.

**TRAFFIC: DRINKING & DRIVING**

**A DUI STORY... WHAT IF? (DVD)**

23 Minutes

YEAR

2007

TITLE #

425

A DUI accident changes the life of friends, family and co-workers. Listen to the powerful testimony of all those whose lives were turned upside down and inside out.

**A DUI STORY: WHAT IF? (SP DVD)**

28 Minutes

YEAR

2008

TITLE #

877

The National Highway Safety Organization's alcohol accident statistics show that 30% of weekday automobile accidents and 51% of weekend accidents are alcohol related. This presentation shows us just how dramatically a DUI affects the lives of more than just the drivers and how easy it is for a few drinks to turn into life-altering devastation once a person gets behind the wheel.

**FATAL DECISION (SP VHS)**

20 Minutes

YEAR

1999

TITLE #

306

This video portrays what can happen when an individual under the influence gets behind the wheel of a vehicle. Bob, drinks a few beers at a party before driving home, resulting in a crash that leaves a young girl dead, his wife paralyzed, and himself in jail. Students' understanding of the often traffic consequences of DUI behavior is reinforced as the young girl killed in the crash is identified, transported to the morgue, and her parents are notified of her death.

2004TITLE #  
889

Your attitude will affect your driving. If you are hurried, distracted or angry, you could be a serious safety threat on the road. Improve your driving skills - and your odds of arriving at your destination safely - by letting go of negative emotions when you get behind the wheel.

<b>DRIVER SAFETY: A LIFETIME OF LEARNING (DVD)</b> 12 Minutes	<u>YEAR</u> 2005	<u>TITLE #</u> 98
Driver Safety creates an awareness and respect for the hazards associated with operating a motor vehicle, emphasizes the importance of increasing your awareness of what is happening in your driving environment, and teaches skills and techniques your drivers can use to assess the risk and reduce their chances of being involved in a motor vehicle crash.		
<b>DRIVER SAFETY: THE BLINDFOLD EFFECT (SP VHS)</b> 17 Minutes	<u>YEAR</u> 2000	<u>TITLE #</u> 180
Through dramatic collision reenactments and demonstrations of safe driving procedures, this video teaches tactical driving techniques involving three driving situations which involve more than half of all collisions.		
<b>DRIVING IN THE RAIN (DVD)</b> 5 Minutes	<u>YEAR</u> 2003	<u>TITLE #</u> 137
Reduced visibility and slippery roads makes driving in the rain hazardous. Even a light drizzle, driving conditions can be dangerous. This video stresses the importance of taking preventative measures to maintain control of your vehicle.		
<b>DROWSY DRIVING: IT'S YOUR WAKE UP CALL (DVD)</b> 19 Minutes	<u>YEAR</u> 2011	<u>TITLE #</u> 859
This program is filled with important information for professional drivers who travel both short and long distances as a part of their workday. While addressing the 100,000+ crashes that occur each year from drowsy driving, you will learn how to effectively identify and manage driver fatigue. Other topics include: lack of sleep, stress, diet, medications, micro naps, night driving and grave yard shifts.		
<b>IT'S YOUR CHOICE: HIGHWAY-RAIL GRADE CROSSING SAFETY FOR MOTORISTS (VHS)</b> 10 Minutes	<u>YEAR</u> 2000	<u>TITLE #</u> 325
This video is designed to encourage safe behavior at highway-rail grade crossings and to discourage trespassing around railroad property and tracks.		
<b>MODERN DRIVING HAZARDS (VHS)</b> 19 Minutes	<u>YEAR</u> 2000	<u>TITLE #</u> 378
This excellent video opens with a scenario common on today's roads and highways: A driver talking on a cellular phone loses concentration and nearly hits another vehicle. As viewers examine the causes of this near miss, they learn the causes of road rage and how to prevent it, the hazards of driving with cell phones or other devices and showing respect for other drivers.		
<b>NATIONAL DRIVING TEST II (DVD)</b> 30 Minutes	<u>YEAR</u> 2000	<u>TITLE #</u> 658
Most drivers may be able to operate an automobile, but how much do they know about driving safety? This program helps them discover how skilled and knowledgeable they really are when driving and if they are prepared to handle traffic situations and possible hazards. The program presents 25 questions that cover a variety of driving situations.		
<b>NIGHT DRIVING TACTICS (VHS)</b> 17 Minutes	<u>YEAR</u> 1999	<u>TITLE #</u> 195
We use our vision to make 90 percent of our driving decisions. At night, when vision is impaired, those decisions become more difficult. Even so, many people do not see the need to change their driving habits once the sun goes down. Using memorable graphic demonstrations, this video shows viewers why nighttime driving is riskier and how the risks can be reduced.		
<b>OVERCORRECTION: A KILLER ON THE ROAD (DVD)</b> 3 Minutes	<u>YEAR</u> 2009	<u>TITLE #</u> 996
Overcorrection can be a major cause of rollover crashes on the highway. Sergeant Greg Holley with the Utah Highway Patrol covers the problem of overcorrection, what causes it and how to avoid it.		
<b>PARKING SAFELY (DVD)</b> 15 Minutes	<u>YEAR</u> 2007	<u>TITLE #</u> 979
There is more to parking a vehicle than simply pulling into a space, turning off the ignition and closing the door behind you. In fact, parking can be just as hazardous as driving in traffic, since many drivers and pedestrians disregard all normal traffic laws once they arrive in a parking area.		
<b>PRE-TRIP INSPECTION: A CIRCLE OF SAFETY (DVD)</b> 12 Minutes	<u>YEAR</u> 2009	<u>TITLE #</u> 568
Presentation discusses the importance of pre-trip inspections a necessary part of every work day before a vehicle is in operation. Covers the reasons behind each point of inspection and how the inspection can make a driver's day easier and safer before it even begins. Stresses the importance of an inspection so that each driver can take responsibility for knowing their own vehicle and keeping their own safety in check.		

<b>PREVENTING MOTOR VEHICLE COLLISIONS CONSISE VERSION (DVD)</b> 10 Minutes	<u>YEAR</u> 2004	<u>TITLE #</u> 248
In this program, Martin Lesperance, an EMT and firefighter, recalls stories of the collision scenes he has attended to illustrate the consequences of the six most common driving errors. This video points out that these incidents were not accidents-they were actually predictable and preventable events that didn't have to happen. Topics include: driving distractions, speed, dangers of fatigue, why you must look before you back up and how seatbelts save lives.		
<b>PREVENTING MOTOR VEHICLE COLLISIONS: IT ALL RIDES ON YOU (DVD)</b> 20 Minutes	<u>YEAR</u> 2004	<u>TITLE #</u> 131
In this program, Martin Lesperance, an EMT and firefighter, recalls stories of the collision scenes he has attended to illustrate the consequences of the six most common driving errors. This video points out that these incidents were not accidents-they were actually predictable and preventable events that didn't have to happen. Topics include: driving distractions, speed, dangers of fatigue, why you must look before you back up and how seatbelts save lives.		
<b>SAFE DRIVING TAKE CONTROL (DVD)</b> 14 Minutes	<u>YEAR</u> 2015	<u>TITLE #</u> 199
This program provides tips that will help you and your employees drive safely. The program explains how to prepare the vehicle for safe driving and how to conduct a pre-drive inspection. It describes how to eliminate distractions and provides tips you can apply to stay safe while driving in challenging driving conditions.		
<b>SAFE LOADING AND UNLOADING OF DELIVERY VEHICLES (DVD)</b> 16 Minutes	<u>YEAR</u> 2007	<u>TITLE #</u> 892
This presentation educates delivery drivers on how to be responsible for their own safety as they move through their day, make deliveries, and load or unload their vehicles. Viewers will learn the risks drivers face, how to prepare and secure a load, safely remove the load at delivery, and what to be aware of during loading and delivery. Tips will be offered to teach the balance between safety and efficient completion of everyday delivery duties.		
<b>SENIOR DRIVING (CD ROM)</b>	<u>YEAR</u> 2004	<u>TITLE #</u> 228
This CD-ROM is designed for seniors to give them the information they need to take responsibility for their driving decisions and maintain fitness behind the wheel. Topics include: identifying health and fitness issues that may affect your driving, steps to reduce your risk behind the wheel, tips on discussing health issues with your doctor and monitoring your driving health.		
<b>STEP TO SAFETY WITH ASIMO (DVD)</b> 14 Minutes	<u>YEAR</u> 2004	<u>TITLE #</u> 226
This program allows viewers to discover safe and responsible street crossing steps that will educate and entertain them as they develop important pedestrian safety skills and learn to rely on themselves to make smart safety decisions. This DVD is geared towards five to nine year olds and includes activities with ASIMO the Robot.		
<b>STREET RACING-DANGER! (VHS)</b> 21 Minutes	<u>YEAR</u> 2002	<u>TITLE #</u> 577
In this video you will meet Tiffany and Julius who have little concern for the law or their safety. They visit a pro racing track, where they meet famous racers and get a glimpse of professional racing. Later that night, Keith takes Tiffany and Julius to an illegal street race and something tragic happens. The encounter creates a moving ending that gives viewers plenty to think about.		
<b>STREET SMARTS (EN/SP DVD)</b> 18 Minutes	<u>YEAR</u> 2008	<u>TITLE #</u> 862
Have your employees forgotten the basic rules of safe driving? Maybe their driving safety knowledge is out-of-date? Bring your employees back to the basics of safe driving with Street Smarts. this program will boost your workers' safety awareness and ensure their well-being by reminding them how their lives depend on following the "rules of the road". Freshen up their driving know-how and help save their lives with Street Smarts.		
<b>STREET SMARTS (SP/EN DVD)</b> 18 Minutes	<u>YEAR</u> 2008	<u>TITLE #</u> 800
Have your employees forgotten the basic rules of safe driving? Maybe their driving safety knowledge is out-of-date? Bring your employees back to the basics of safe driving with Street Smarts. This program will boost your workers' safety awareness and ensure their well-being by reminding them how their lives depend on following the "rules of the road". Freshen up their driving know-how and help save their lives with Street Smarts.		
<b>TEACHING YOUR TEENS TO DRIVE (VHS)</b> 50 Minutes	<u>YEAR</u> 2002	<u>TITLE #</u> 290
The high injury and fatality rates for teen drivers are grim indicators of how much varied, long-term training is required before safe driving skills are developed. As a parent, you can help your child become a safe driver. Use this video (contains 13 lessons) together with your years of driving experience to help your new driver develop the following skills: basic vehicle control, positioning and speed adjustment, passing and off-road maneuvers, visual search habits, freeway and night driving, driving on slippery surfaces and reducing risks.		

**THE ULTIMATE DRIVING CHALLENGE (DVD)**

30 Minutes

YEAR

2000

TITLE #

884

This excellent program is hosted by Craig T. Nelson and Paula Zahn and puts the audience in the driver's seat to test their reactions to 20 specific driving situations. The questions introduced are designed to test road safety knowledge and provide helpful information for avoiding accidents and minimizing damage and injury. The correct responses are explained through dramatic stunts, re-creations and real-life film footage.

**TRAFFIC VIOLATIONS AND CDL DISQUALIFICATION (VHS)**

15 Minutes

YEAR

2003

TITLE #

237

The rules regarding disqualification of commercial motor vehicle (CMV) drivers have changed and this video outlines the major provisions of the rule and outlines major offenses that disqualify drivers. The video also explains the length of time a driver can be disqualified, depending on the type of offense committed.

**TRUCKS VANS AND OTHER DELIVERY VEHICLES (DVD)**

16 Minutes

YEAR

2009

TITLE #

923

This DVD shows drivers how to safely operate delivery vehicles before, during and after a delivery. Topics covered include pre-trip inspections, proper backing and turning, as well as braking and stopping procedures. Driving techniques for vehicles carrying loads and/or passengers in various weather and road conditions are demonstrated. Awareness, practicality and common sense are emphasized.

**UNDERSTANDING CAR CRASHES: IT'S BASIC PHYSICS (VHS)**

22 Minutes

YEAR

2000

TITLE #

190

What happens to vehicles and their occupants in crashes is determined by science. "You can't argue with the laws of physics," says Griff Jones, award - winning high school physics teacher who goes behind the scenes at the Institute's Vehicle Research Center to explore the basic science behind car crashes. Using a series of vehicle maneuvers on a test track plus filmed results of vehicle crash tests, Jones explains in anything but lecture style the concept of inertia, the relationship between crash forces and inertia, momentum and impulse and a lot more.

**YOUNG DRIVERS: THE HIGH-RISK YEARS (VHS)**

16 Minutes

YEAR

2002

TITLE #

299

This is an excellent video for beginning drivers and their parents. Crash rates for young beginning drivers are much higher than for older drivers. This videotape features 16 year-olds telling why they want their driver's licenses and what driving means to them. Parents of teenagers who died in crashes tell how the tragedies happened and how their families have been affected. The video focuses on ways to reduce crashes by limiting higher risk driving by beginning 16 year-olds. For example; limiting passengers, night driving and hours they are allowed to drive unsupervised.

**TRAFFIC: SEAT BELT USE**

**DIANA'S LAST MESSAGE (VHS)**

10 Minutes

YEAR

2002

TITLE #

48

Using computer graphics, this gripping video presentation recreates Princess Diana's fatal motor vehicle collision. Hear real-life testimony from collision victims who tell how their choices about safety belt use have impacted their lives. Learn more about common myths and excuses people have about using safety belts, and the facts that dispel these myths.

**SEAT BELTS AND AIRBAGS (DVD)**

5 Minutes

YEAR

2000

TITLE #

45

Seat belts and air bags save lives. When used properly, seat belts or child safety seats combined with air bags offer the most effective safety protection available today for passenger vehicle occupants.

**SIMPLE STEPS TO CHILD PASSENGER SAFETY (DVD)**

11 Minutes

YEAR

2011

TITLE #

763

Over eighty percent of car seats in the United States are NOT installed correctly-causing many preventable injuries to children. This DVD is an essential tool for anyone who wants to make sure that their child travels in safety. Topics include: Lower Anchors and Tethers for Children (LATCH), identifying and using different types of seatbelt systems and proper harness use.

**TRAFFIC: TOW TRUCKS**

**ROADSIDE SAFETY: DRESS FOR SUCCESS (DVD)**

28 Minutes

YEAR

2008

TITLE #

260

A roadside safety DVD that describes the ANSI approved apparel every tower should wear for roadside safety. This DVD helps educate employees on safety procedures that may help prevent you from being involved in tow truck related incident.

**ROADSIDE SAFETY: EVERYONE GOES HOME (DVD)**

21 Minutes

YEAR

2007

TITLE #

727

A roadside safety DVD that describes the steps every tower should take to prevent involvement in tow truck related incident.

<b>TOW TRUCK DISPATCHING (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
80 Minutes	2010	41

This DVD describes the relationship between the customer, dispatcher, & tow operator. The aspects of the towing process can be complex but understanding the complex process is essential when operating a tow truck business.

### TRAFFIC: TRANSPORTATION SAFETY

<b>AMERICA BRAKES FOR SAFETY (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
12 Minutes	2000	272

To demonstrate the benefits of anti-lock brakes, this video uses actual in-car footage of students making unplanned stops with and without anti-lock brakes. Includes testimonials from adult drivers who have used ABS successfully to avoid a crash. The video was designed for in-classroom use but is also appropriate for individual or group viewing.

<b>BACKING SAFELY (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
13 Minutes	2007	20

Even though backing only comprises about 1 percent of drive time, a great number of incidents occur when a driver is making this maneuver. This video discusses the proper steps to a safe backing maneuver for big trucks.

<b>BOBTAILING &amp; JACKKNIFING (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
8 Minutes	2011	700

Bobtailing is a sometimes necessary but dangerous method of driving a big rig tractor without any trailing component. Once you get past the profile, weight dynamics and engine power of the tractor, now you add the brake system, weather, traffic conditions, driver fatigue and attention to the road. Covers the challenges of bobtailing and jackknifing.

<b>CARGO SECUREMENT AND PROTECTION (VHS)</b>	<u>YEAR</u>	<u>TITLE #</u>
30 Minutes	2005	317

This video addresses federal regulations for securing freight in vans, on flatbeds and on other specialized hauling equipment. This video covers cargo securement inspection priorities, proper securement of tie downs, formulas necessary to determine the number and placement of tie downs and highlights the DOT regulations. This video also covers general regulations that apply to every load and, "commodity specific" regulations for distinct loads such as concrete pipes, metal coils, lumber, paper and machinery.

<b>CARGO TANK DRIVER ROLLOVER PREVENTION (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
17 Minutes	2010	813

What causes a rollover? This presentation covers the factors that contribute to rollovers and discusses how they happen, why they happen and how you can avoid them.

<b>COURTESY VEHICLE SAFETY: HOSPITALITY SERIES (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
11 Minutes	2008	273

This program will give your employees tools that show your guests how much they care. It will also teach them that driving one of these vehicles seems easy, but there's a lot riding on their ability as a driver. This program covers general safe operating procedures as well as: pre-trip inspections, mirror adjustment, lane changing, defensive driving, parking, backing, approaching a stale green light, and controlled and uncontrolled intersections.

<b>DOT/CSA PROFILED IN SAFETY (EN/SP DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
16 Minutes	2011	900

This training program ensures all motor carriers understand the new tracking methods and their obligations for compliance with the standard. Easily merge into the CSA safety regulations with this training program, which covers: measurement, evaluation, intervention, and the impact on drivers.

<b>DRIVER VEHICLE INSPECTIONS (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
37 Minutes	2009	774

This program covers a standard procedure for doing each of three types of vehicle inspections:

Shows detailed (touch and point) aspects of a thorough, seven-step pre-trip inspection. Emphasizes inspection habits and routines to ensure drivers cover everything.

Explains critical importance of the driver's vehicle inspection report (DVIR), what purposes it serves, and why it shouldn't be neglected. Addresses the results missed inspection points can create (accidents, violations, fines, etc.) Also includes detailed information on on-the-road and post-trip inspections.

<b>DRIVING DISTRACTIONS OF THE PROFESSIONAL DRIVER (DVD)</b>	<u>YEAR</u>	<u>TITLE #</u>
15 Minutes	2013	779

Prevent distracted driving among employees with this presentation on how professional drivers can prepare for a safe drive and maintain that safety while on the road. The material covers the host of possible distractions professional drivers face and how to avoid them through per-trip planning, knowing how to handle unexpected weather changes and handling everyday driving hazards on the job.

**DRIVING RISKS AND RESPONSIBILITIES (VHS)**

17 Minutes

YEAR

2000

TITLE #

44

The motor vehicle is the single largest cause of work related deaths in this country. It is also the cause of many serious injuries. This program examines the costs associated with driving at work. It does not teach driving skills. Included in this program are essential reason for a safe driving program, the four components of a safe driving program, preventing theft, parking a vehicle, general do's and don'ts and what should be done if an accident occurs.

**FLATBED SAFETY (DVD)**

17 Minutes

YEAR

2009

TITLE #

504

This program will make you aware and help prevent you from having injuries on your flatbed. Flatbeds pose additional dangers that do not accompany other trucking operations. Driver safety is paramount, if we take care of the driver, many of the other problems cease.

**HEAVY TRUCK BRAKING SYSTEM & BRAKING TECHNIQUES (DVD)**

11 Minutes

YEAR

2011

TITLE #

817

The single most important component in any vehicle is the braking system, especially on heavy trucks. The tractor portion of a tractor-semi trailer rig may have ten or more valves controlling the air flow to the brakes. This program teaches types of braking systems found on large trucks versus cars. Illustrates how important maintaining the braking system is and the amount of force needed to stop a fully loaded truck within a short distance. The difference between the standard braking system and the ABS system is also discussed.

**ROADSIDE INSPECTIONS (VHS)**

15 Minutes

YEAR

2000

TITLE #

399

It is essential that your drivers understand the roadside inspection process in order to avoid injury and costly expenses. This video covers the types of inspections, the five levels of inspections, fines and penalties, how to prepare your vehicle and the driver's rights.

**SAFE BACKING OF TRACTOR-TRAILERS (DVD)**

10 Minutes

YEAR

2011

TITLE #

556

This program provides mechanics and techniques required in backing large vehicles such as trailers. Using the "cone of visibility" is discussed. Backing a single trailer or a set of doubles with a semi tractor is the most dangerous, intricate and time-consuming set of maneuvers a big rig driver has to master. No matter how many miles you drive forward, not one of those miles will help when it comes to backing.

**SAFE DRIVING: REAL, REAL LIFE (VHS)**

18 Minutes

YEAR

1999

TITLE #

204

This program was developed to convince employees that they are 150 percent in charge of themselves and their vehicles when on the road. The first portion of the video consists of the definition of defensive driving and how to identify and then avoid potential hazards. The second part features a roadway dramatization of safe and unsafe driving.

**SAFE OPERATION AND USE OF ALL-TERRAIN VEHICLES (DVD)**

14 Minutes

YEAR

2007

TITLE #

153

All-terrain vehicles, popularly known as ATV's or four wheelers, were originally designed for recreation, but many companies have found their mobility and adaptability to workplace applications ideal for use on their premises. While most people think of ATV's as mere toys, they are not toys. Riders must know and understand the basic safe operations skills needed to ride them safely. ATV's can be useful around the facility, but unsafe operation can lead to serious injury or even death. This presentation discusses the safe operating procedures that must be followed to avoid injuries while riding an all-terrain vehicle.

**SAFETY TRAINING FOR HANDLING AND TRANSPORTING HAZARDOUS MATERIALS (VHS)**

18 Minutes

YEAR

2003

TITLE #

130

This video was created specifically for the Department of Transportation's training regulation of Handling and Transporting Hazardous Materials. This video shows employees how to secure and work with hazardous materials safely. Topics include: types of hazardous materials, hazard indicators, use of personal protective equipment, proper handling procedures, spills and cleanup procedures, security risks and terrorism.

**SCHOOL BUS DRIVERS: DEALING WITH BEHAVIOR (EN/SP DVD)**

11 Minutes

YEAR

2005

TITLE #

515

This video will cover types of student behavior that is unacceptable on school buses and why, common reasons for misconduct, management techniques, and how to deal with situations that may arise.

**SECURING LOADS SAFELY (DVD)**

11 Minutes

YEAR

2010

TITLE #

778

This program helps employees comply with DOT regulations relating to securing loads on tractor trailers. Topics include: different types of trucks and associated loading requirements, load securement procedures, number of straps needed for different loads, working load limits and other related safety information. Great training to ensure you and your vehicles are not cited or placed out of service due to non-compliance issues.

<b>SECURING LOADS SAFELY (SP DVD)</b>	<b>YEAR</b>	<b>TITLE #</b>
11 Minutes	2010	611

This program helps employees comply with DOT regulations relating to securing loads on tractor trailers. Topics include: different types of trucks and associated loading requirements, load securement procedures, number of straps needed for different loads, working load limits and other related safety information. Great training to ensure you and your vehicles are not cited or placed out of service due to non-compliance issues.

<b>STOMP, STAY, STEER (VHS)</b>	<b>YEAR</b>	<b>TITLE #</b>
4 Minutes	2000	271

This short four-minute video discusses and demonstrates how to get the full benefit from anti-lock brakes.

<b>WINTER DRIVING SAFETY FOR SCHOOL BUS DRIVERS (DVD)</b>	<b>YEAR</b>	<b>TITLE #</b>
20 Minutes	2005	784

Prepare for winter driving with a video that shows you proper procedures for traveling safely. This video will go through the chain up process, how to deal with your bus when it hydroplanes, how to safely navigate a bus out of a skid, and what bus drivers must know about winter conditions.

<b>WINTER DRIVING SAFETY FOR SCHOOL BUS DRIVERS (VHS)</b>	<b>YEAR</b>	<b>TITLE #</b>
20 Minutes	2005	529

Prepare for winter driving with a video that shows you proper procedures for traveling safely. This video will go through the chain up process, how to deal with your bus when it hydroplanes, how to safely navigate a bus out of a skid, and what bus drivers must know about winter conditions.

### **TRAFFIC: WINTER DRIVING**

<b>BAD WEATHER DRIVING (DVD)</b>	<b>YEAR</b>	<b>TITLE #</b>
18 Minutes	2008	348

This presentation depicts winter driving hazards with footage in real winter driving hazards around the country. Drivers will learn how to recognize hazards and avoid crashes. This is an excellent program for those having to drive in winter conditions.

<b>DEFENSIVE DRIVING: WHEN GOOD WEATHER GOES BAD (DVD)</b>	<b>YEAR</b>	<b>TITLE #</b>
17 Minutes	2007	340

This presentation provides an overview of the various dangers that driving in bad weather poses when the weather changes or appears suddenly. Viewers will be shown how to handle their vehicles in ice, bright sun, winds, snow, rain and will also discuss the general risks drivers face on the road. Each weather condition and risk is coupled with safety tips and methods to prevent unsafe incidents.

<b>DEFENSIVE DRIVING: WHEN GOOD WEATHER GOES BAD (DVD)</b>	<b>YEAR</b>	<b>TITLE #</b>
16 Minutes	2007	808

Weather can have a dramatic effect on driving conditions. This presentation provides an overview of the various dangers that driving in bad weather poses when the weather changes or appears suddenly. Viewers will be shown how to handle their vehicles in ice, bright sun, winds, snow, rain and will also discuss the general risks drivers face on the road. Each weather condition and risk is coupled with safety tips and methods to prevent unsafe incidents.

<b>DEFENSIVE DRIVING: WHEN GOOD WEATHER GOES BAD (SP DVD)</b>	<b>YEAR</b>	<b>TITLE #</b>
16 Minutes	2009	809

Weather can have a dramatic effect on driving conditions. This presentation provides an overview of the various dangers that driving in bad weather poses when the weather changes or appears suddenly. Viewers will be shown how to handle their vehicles in ice, bright sun, winds, snow, rain and will also discuss the general risks drivers face on the road. Each weather condition and risk is coupled with safety tips and methods to prevent unsafe incidents.

<b>DRIVING IN EXTREME WEATHER CONDITIONS (DVD)</b>	<b>YEAR</b>	<b>TITLE #</b>
10 Minutes	2011	421

The information in this program will reinforce safety practices when you drive and work in extreme weather conditions. As you drive through challenging weather conditions, proceed slowly and cautiously. This video discusses several types of conditions you might encounter while driving in heavy snow, black ice, poor visibility, construction and night driving. It provides suggestions to help you avoid an accident.

<b>DRIVING SAFELY IN THE HAZARDS OF WINTER (DVD)</b>	<b>YEAR</b>	<b>TITLE #</b>
12 Minutes	2008	893

Winter weather is driving full of treacherous hazards including, ice, poor visibility, winds, snow, rain and more. Each weather condition and the risks involved with driving in each specific condition are discussed. Viewers will learn how to prevent unsafe incidents, starting with awareness, and how to generally stay safe despite the imminent dangers that every driver must face in the cold months.

**DRIVING SAFELY IN THE HAZARDS OF WINTER (DVD)**

12 Minutes

YEAR

2009

TITLE #

891

Winter weather driving is full of treacherous hazards including, ice, poor visibility, winds, snow, rain, and more. Each weather condition and the risks involved with driving in each specific condition are discussed. Viewers will learn how to prevent unsafe incidents, starting with awareness, and how to generally stay safe despite the imminent dangers that every driver must face in the cold months.

**SAFE WINTER DRIVING (EN/SP DVD)**

17 Minutes

YEAR

2005

TITLE #

313

Winter driving presents special hazards, including rain, snow and ice. If drivers follow the special safety techniques in this program, they can avoid the risks.

**SAFE WINTER DRIVING CONSIDERATIONS (DVD)**

15 Minutes

YEAR

2006

TITLE #

936

This DVD zeroes in on safety tips and techniques for handling the hazards of winter driving. Topics Include pre-season preparations such as: Maintenance checks and tire checks; on the road Issues like 4-wheel drive, anti-lock braking systems, scanning for hazards, following/stopping distances, pedestrians, obstructed views and more.

**SAFE WINTER DRIVING CONSIDERATIONS (VHS)**

21 Minutes

YEAR

2000

TITLE #

49

This program zeroes in on safety tips and techniques for handling the hazards of winter driving. Topics include pre-season preparation, pre-trip procedures and on the road issues.

**SNOWPLOW SAFETY: ON ROAD (DVD)**

23 Minutes

YEAR

2007

TITLE #

913

Many snowplow training videos focus on the mechanics of operating different kinds of plows-use of an auger, spreader rates, when to plow, etc.- or on how to drive a truck, but few of them deal with collision issues... until the Snowplow Safety presentation was produced. Ideal for training newly hired snowplow operators or as a refresher for experienced operators.

**SNOWPLOW SAFETY: PARKING LOTS (DVD)**

20 Minutes

YEAR

2007

TITLE #

915

This presentation focuses on specific safety issues regarding the plowing of parking lots such as: pre-season site preparation, equipment inspection, scanning for hazards like lighting fixtures, curbed areas, raised utility covers and changes in pavement. This also covers clearing entrances and exits, working with other snow removal equipment, where to locate plowed snow and special considerations for plowing 24-hour operations such as convenience stores, hospitals.

**WINTER DRIVING (DVD)**

18 Minutes

YEAR

1995

TITLE #

311

In order to safely handle a vehicle in winter weather, drivers must be able to assess road conditions, predict how the vehicle will react in different situations and conditions, and know what actions to take to keep it under control. This presentation teaches utility and straight truck drivers the techniques they need to know to be safe winter drivers. By incorporating computer animation with live video sequences, this DVD also illustrates common driving mistakes that can lead to loss of control situations.

**WINTER DRIVING (DVD)**

18 Minutes

YEAR

1995

TITLE #

347

In order to safely handle a vehicle in winter weather, drivers must be able to assess road conditions, predict how the vehicle will react in different situations and conditions, and know what actions to take to keep it under control. Winter Driving teaches utility and straight truck drivers the techniques they need to know to be safe winter drivers. By incorporating computer animation with live video sequences, this video also illustrates common driving mistakes that can lead to loss of control situations.

**WINTER DRIVING 1997 (VHS)**

12 Minutes

YEAR

1997

TITLE #

745

About 38 percent of all motor vehicle accidents occur during winter driving. Employees who drive a motor vehicle as part of their job need to be aware of the unsafe conditions and use safe driving skills. This video includes unsafe conditions and using safe driving skills. Topics include: vehicle maintenance and inspection, following and stopping distance, braking and skids, inclines, backing the vehicle and parking lots.

**WINTER DRIVING: WHEN THE RULES CHANGE (DVD)**

16 Minutes

YEAR

2005

TITLE #

880

Wintertime challenges drivers with a variety of hazards, but we can protect ourselves on the road if we prepare for winter driving. Topics covered are: preparing your vehicle, adjusting your schedule to winter driving conditions, driving techniques, and surviving when stuck or stranded.

**WINTER DRIVING: WHEN THE RULES CHANGE (DVD)**

10 Minutes

YEAR

2005

TITLE #

673

Wintertime challenges drivers with a variety of hazards, but we can protect ourselves on the road if we prepare for winter driving. Topics covered are: preparing your vehicle, adjusting your schedule to winter driving conditions, driving techniques, and surviving when stuck or stranded. Concise version.

**WINTER DRIVING: WHEN THE RULES CHANGE (DVD)**

16 Minutes

YEAR

2005

TITLE #

879

Wintertime challenges drivers with a variety of hazards, but we can protect ourselves on the road if we prepare for winter driving. Topics covered are: preparing your vehicle, adjusting your schedule to winter driving conditions, driving techniques, and surviving when stuck or stranded.

**WINTER SAFETY (EN/SP DVD)**

14 Minutes

YEAR

2005

TITLE #

638

Freezing temperatures and icy roads aren't just uncomfortable, they can be deadly. Winter weather can pose special dangers on-the-job or during recreational time. This program will specifically go over signs, treatments and prevention of hypothermia, and off-the-job safety.

**WORKING SAFELY WITH SNOW PLOWS AND OTHER SNOW REMOVAL VEHICLES (DVD)**

17 Minutes

YEAR

2008

TITLE #

208

This program will show many different examples of snow removal vehicles such as: CDL, tractors, pick-ups, pilers, and sanders. Includes tips on dry runs and not hitting fixed objects. Pre-inspection and emergency preparedness are also incorporated into this program as well as techniques to preserve the vehicle from being damaged.
