These programs offered by the Utah Safety Council offer practical strategies to reduce collision related injuries and fatalities on Utah roadways.

Assist the UTA in their efforts of keeping you safe around TRAX and FrontRunner trains with this critical guidance:

- Always look both ways before crossing tracks.
- Only cross in designated areas—never between train cars—and only when it is safe to do so.
- Hop off your bike or skateboard and walk to the platform.
- Stay alert by taking off your headphones and refraining from using your cell phone.
- Stand well behind the yellow strip when trains are approaching.
- Never walk or play on the tracks.
- Never try to outrun or race a train.
- Never walk or drive around a lowered gate.
- Never throw things at the train or place things on the track.
- When approaching a rail crossing while driving, stop and clear the intersection if lights start flashing.
- Do not enter a lane shared with TRAX if the warning light is on.
